FOREWORD

The Class of 2023 must be applauded for their dedication and resilience that translated the disruptions and setbacks of Covid-19, into an occasion of celebration. This Class was subjected to unusual and adverse learning conditions during their Grade 9 and Grade 10 academic years in 2020 and 2021 but the indomitable spirit of these learners coupled with the noble efforts of teachers, parents and South Africans at large led to the successes witnessed and celebrated this evening.

The loss of a greater part of the academic year, in both these COVID years, implied that this class was severely affected and there was major concern about whether the Department's Recovery Programme will adequately prepare these learners for their major exit examination. These learners together with their parents, teachers and the community, pulled out all the stops and have confirmed that no challenge is unsurmountable.

The overall pass rate of this class increased by 2.8% compared to 2022. Five hundred and seventy two thousand, nine hundred and eighty three (572 983) of the 691 160 learners that wrote the examination passed the examination. Two hundred and eighty two thousand, eight hundred and ninety four (282 894) of these candidates obtained admission to Bachelor Studies. What is even more encouraging is that, of the 6 898 schools that wrote this examination, 4 493 of these schools, obtained a pass rate above 80%. To confirm that the pro-poor policy of government is firmly working, the majority of the schools that scored above 80% (2 993) are from the disadvantaged communities (quintiles 1, 2 and 3). To add to the repertoire of most significant improvements, is the improvement in the performance in Mathematics from 55% in 2022 to 63.5%. This confirms that the DBE's drive to increase the number of learners that can enter the fields of Science and Technology is bearing fruit.

The quality of the achievements of the Class of 2023 can be attributed to the relentless efforts of our school principals, teachers and parents, who united in the common understanding that we, as South Africans, have the power to transform the lives of millions of children, equipping them with the tools they need to succeed and positively impact the world.

We must work without ceasing to support learners who did not satisfy the requirements of the NSC, the first time around. These learners may register for the Second Chance Matric Programme. We must make passing Grade 12 a national endeavour and help our young people to reach their full potential.

The Class of 2023 will serve as an in inspiration and a beacon of hope to the Class of 2024 and to all future Grade 12 learners. Let us learn from those that precede us so that we can take learning and education in this country to the next level.

I am therefore encouraging school principals, subject teachers and subject specialists to use this Subject Report to monitor the performance of specific subjects over the last three years and to ensure that your subject performance is in keeping with other schools that are based in similar contexts or better than other schools.

MRS AM MOTSHEKGA, MP
MINISTER OF BASIC EDUCATION

Together we rise!

1. Introduction

This report is part of the DBE's ongoing initiative to improve the use of the National Senior Certificate results as a tool for school improvement. In this report, the subject results of all schools in the provinces are presented in a single document, which allows for easy access by all officials that engage with schools, that are based either at the provincial or district level.

This report focuses on the 11 key subjects and to ensure a comparative analysis, subject performance data for both 2022 and 2023 are included.

Since 2012, the Schools Subject Report has been well-received by provincial and district officials, who considered it a useful tool in providing necessary data to design and support programmes. This report should be read together with the following three reports on the 2023 NSC examination published by the DBE:

a) The 2023 National Senior Certificate Examination Report,

b) National Schools Report that presents the overall school results, per school over the last three years; and

c) National Diagnostic Reports which provides an analysis of learner performance in the 11 Gateway Subjects, the 12 Home Languages and Technical subjects; which identifies areas of poor performance, and recommends appropriate remedial measures in each of the subjects.

Together these four reports provide a holistic evaluation of the NSC.

2. Scope Of The Schools Subject Report

The Schools Subject Report presents performance data in the following 11 gateway subjects: Accounting, Agricultural Sciences, Business Studies, Economics, English First Additional Language (FAL), Geography, History, Life Sciences, Mathematical Literacy, Mathematics and Physical Sciences.

Candidates' performance in these gateway subjects, at a national level over the last two years, precedes the summary table of candidates' performance in these subjects in each education district. This detailed set of data is provided to every school to enable them to measure progress made and evaluate reasons for upward or downward performance trends in 2022 and 2023.

3. Use Of The Schools Subject Report

This report will be used by school managers, subject advisors, curriculum specialists and district planners to analyze the performance of a school, cluster, circuit or district at a subject level. The Schools Performance Report provides the overall performance of the school, and with this report the performance at the subject level becomes apparent.

In addition, this report helps with the identification of subjects where performance is poor and appropriate intervention can be planned accordingly.

The schools subject data also provides the opportunity for school managers, subject advisors and curriculum planners to delve beneath the surface and identify any patterns of correlation in learner performance across the key subjects. Schools that perform well in one subject should also perform at an equivalent level in other subjects e.g. Mathematics and Physical Science. Where there is a lack of correlation between related subjects, further investigations must be carried out by subject advisors to establish the reason for this non-alignment of performance. This may quite often point to competency levels of teachers, difference in the cohort of learners, or other resource limitations. The overall school performance results usually masks the performance of the teachers, and individual teachers could escape from the accountability chain. With the Schools Subject Report, accountability is re-instated to the teacher.

4. Summary Of Candidates Performance In Gateway Subjects

4.1 NATIONAL PERFORMANCE IN 11 MOST POPULAR SUBJECTS: 2019-2023
