INSTRUCTIONS TO MARKERS

1. Candidates are required to answer ALL the questions.

2. This memorandum has been finalised at a memorandum discussion session at DBE at which all provinces were represented. Any omissions or queries should be referred to Chief Markers/Analytical Moderators/Internal Moderators at marking centres. All protocol must be followed.

3. Candidates' responses should be assessed as objectively as possible.

MARKING THE COMPREHENSION

- Because the focus is on understanding, incorrect spelling and language errors in responses should not be penalised unless such errors change the meaning/understanding. (Errors must still be indicated.)

- If a candidate uses words from a language other than the one being examined, disregard those words, and if the answer still makes sense, do not penalise. However, if a word from another language is used in a text and required in an answer, this will be acceptable.

- For open-ended questions, no marks should be awarded for YES/NO or I AGREE/I DISAGREE. The reason/substantiation/motivation is what should be considered.

- When one-word answers are required and the candidate gives a whole sentence, mark correct provided that the correct word is underlined/highlighted.

- When two/three facts/points are required and a range is given, mark only the first two/three.

- Accept dialectal variations.

- For multiple-choice questions, accept BOTH the letter corresponding with the correct answer AND/OR the answer written out in full.

- NOTE: Relevant and coherent quotations from the passage are acceptable.
