Basic Education

This workbook for English First Additional Language (FAL) is the newest addition to the Department of Basic Education's Rainbow Workbook Series. The English First Additional Language books are an important enhancement of the series and support the Department's approach to additive bilingualism.

Many children start using their additional language, English, as the Language of Learning and Teaching (LoLT) in Grade 4. The switch from learning in their home language to learning in a second language means that children have to reach a high level of competence in English by the end of Grade 3 so that they are able to read and write well in English in Grade 4. The Rainbow Workbooks, in the eleven official languages from Grade 1 to Grade 6, help develop a strong literacy foundation upon which children can build in acquiring an additional language.

The new FAL workbooks start by constructing a sturdy oral foundation in Grade 1 to enable learners to read and write in English in Grades 2 and 3, and thereafter.

However, the school curriculum makes particular language demands, requiring learners to use a special style of language for learning purposes – for reading school texts, writing academic texts, listening to teachers and taking notes, doing group work, using charts and graphs, writing exams, and so on. We have attempted therefore to develop the learners' understanding and use of academic language (their Cognitive Academic Language Proficiency) so they are able to use the specialised language they will need when they use English to learn their other subjects.

We have built in many methods and techniques to help learners acquire the skills they need in the foundation and intermediate phases. We hope that teachers will use these as a springboard for innovation in their teaching of English. We hope also that the children will have as much joy in working through these workbooks as we had in preparing them.

We wish you well as you proceed to develop the language skills of your learners so that they learn English well enough to use it to learn their other subjects.

AU Anthem

Let us all unite and celebrate together
The victories won for our liberation
Let us dedicate ourselves to rise together
To defend our liberty and unity

A story with a moral

Let's talk

Look at the picture and talk about what you see.

The Khoisan told stories that taught a lesson. Do you know of any stories that teach a lesson? Tell your group the story. Make sure that when you tell it you speak clearly and loudly enough so that everyone in your group can hear you.

The Man and Snake

Let's read

A long time ago, a Man saw a Snake that was caught under a large rock.

"Please help me," hissed the Snake. "The rock has fallen on me and I can't get out. If you don't help me, I will die." The Man was kind so he lifted the stone off the Snake. As soon as the stone was removed, the Snake raised his head and said, "Now I'm going to bite you."

"Wait," said the Man. "Let us ask another creature if it is fair for you to bite me."

First the Man asked the Hyena, "Is it fair for the Snake to bite me after I saved his life by lifting a stone off his back?" The Hyena barked, "Man has never been fair to me! So why should the Snake be fair to you?"

The Snake raised his head to strike. But the Man said, "Wait! Let's ask Rabbit."

"Is it fair for Snake to bite me after I lifted a rock off his back?" The Rabbit squeaked, "Man has never helped me before, so why should I help him? It is fair that that Snake bites you."

The Snake again raised his head to bite the Man. "Wait," said the Man. "Let us ask the Jackal."

"Is it right for Snake to bite me, after I saved his life by lifting the Stone off his back?"

The Jackal howled, "I do not believe that Snake could be caught under a stone so he could not get away. Show me where it happened so I can see it."

When they arrived at the place where the Snake had been under the rock Jackal howled, "Snake, let me see how the rock sat on you." The Snake lay down, and the Man covered him with the stone.

The Jackal howled, "Is this how you were when the Man found you?"

"Yes," said the Man and the Snake at the same time. Then the Man started to take the rock off the Snake once again. The Jackal stopped him. "Do not lift the stone off the Snake. He wanted to bite you before. If you lift the rock, he will do it again. Let him make a plan to get out."

Then they both went away and left Snake under the stone.

Before you read

Let's talk

Do you know anyone who managed to achieve great things because of their determination? Tell your group about this person.

Do you know anyone who has a disability? Tell your group about this person's determination to succeed.

You will now read a story about Helen Keller who lost her sight and hearing when she was 18 months old. This short part of her life story shows how she developed ways to communicate although she could not see or hear.

THE STORY OF MY LIFE

One day, while I was playing with my new doll, Miss Sullivan put my big rag doll into my lap also, spelled "d-o-l-l" on my hand and tried to make me understand that "d-o-l-l" **applied to** both. Earlier in the day we had had a struggle over the words "m-u-g" and "w-a-t-e-r". Miss Sullivan had tried to show me that "m-u-g" is mug and that "w-a-t-e-r" is water, but I always mixed up the two. But, however hard she found it, she didn't stop trying. I became **impatient** as she tried again and again and, seizing the new doll, I threw it upon the floor. I was delighted when I felt the pieces of the broken doll at my feet. I did not feel sad. I had not loved the doll. In the still, dark world in which I lived there was no real tenderness. I felt my teacher sweep the pieces to one side of the fireplace, and I felt satisfied that the cause of my **discomfort** was removed. She brought me my hat, and I knew I was going out into the warm sunshine. This thought, if a wordless feeling may be called a thought, made me hop and skip with pleasure.

Let's read

We walked down the path to the well. Someone was **drawing water** and my teacher placed my hand under the spout. As the cool stream gushed over one hand she spelled in the

other hand the word water, first slowly, then rapidly. I stood still, my whole attention fixed upon the movements of her fingers. Suddenly and somehow the mystery of language was shown to me. I knew then that "w-a-t-e-r" meant the wonderful cool something that was flowing over my hand. That living word awakened my soul, gave it light, hope, joy, set it free! There were **barriers** still, it is true, but barriers that could in time be swept away.

I left the well eager to learn. Everything had a name, and each name meant something new to me. As we returned to the house every object which I touched seemed to tremble with life. That was because I saw everything with the strange, new sight that had come to me. On entering the door I remembered the doll I had broken. I felt my way to the fireplace and picked up the pieces. I tried vainly to put them together. Then my eyes filled with tears; for I realized what I had done, and for the first time I felt sorrow.

I learned a great many new words that day. I do not remember what they all were; but I do know that *mother, father, sister, teacher* were among them. It would have been difficult to find a happier child than I was as I lay in my bed at the close of that **eventful** day and thought about the joys it had brought me, and for the first time longed for a new day to come.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Let's write

Read the questions and then write down the answers.

Look at the title of the passage. When you saw it, what did you think the passage was going to be about?

Read the passage and, with the help of your partner, write down the main points of the passage. Remember, the main idea usually comes at the beginning of a paragraph.

What did you think was the most interesting thing in this story?

Do you think Heller Keller was brave? Say why.

How do you think she felt before she understood what words meant? Choose the best word.

A special day

The day that Helen Keller realised that each word had a meaning was a wonderful day for her. Think of something or someone that made a day of yours wonderful: it could be because you met someone, realised something or learnt something. Brainstorm all the words you can think of about this day and write them down.

Now write a paragraph about the day. Write it in the past tense. Remember that your paragraph must have a topic sentence and supporting sentences that tell you more about the main sentence. Also make sure that you start your sentences with a capital letter. Don't forget to use punctuation marks (full stops, question marks and exclamation marks) properly.

[illegible]

Let's write

Punctuate this paragraph.

helen keller was able to see and hear when she was born. At 18 months she became very ill. The illness left her both deaf and blind. helen went to the Perkins school for blind children. she met anne sullivan who was also blind. she became helen's lifelong friend and teacher.

Let's write

Underline the countable nouns in blue and circle the articles (**a** or **the**) in red.

My trousers need ironing. Have you got the iron?
Could you go to the baker's and buy a loaf of bread?
I'd like some information about the train to Pretoria.
The war ended many years ago.
Vanessa bought a magazine and read it on the bus.
Do you know the people in the village?

Countable nouns refer to nouns that can be counted; can be used in the singular and plural; can use a definite number in front of them; can use words such as **several**, **few** and **many** before them to express quantities.

e.g. I ate **one** tomato, my sister ate **two** tomatoes and my brother ate **many** tomatoes.

Let's write

Underline the correct verb.

She and her friends **are/is** at the circus.
The book or the pen **are/is** in the drawer.
He **don't/doesn't** like it.
I **am/are** opening the boxes.
We **are/is** excited about our presents.
The children **are/is** having a wonderful party.

Let's write

Fill in the correct verb.

The book boring. **are/is**
The woman with all the dogs down my street. **walk/walks**
Everybody the principal. **knows/know**
Your answer correct. **are/is**
The news on at six. **are/is**

5 An autobiography

Let's talk

Have you ever told anyone your life story?
Tell the class your life story. Tell them what you have done from the time you started school till now.

"Autobiography" is made up of two words: "auto" meaning self and "biography" meaning story. So, autobiography is a story about oneself.

Let's read

Read the autobiography of Mirriam Makeba, who died when she was 76.

I was born in Johannesburg. When I was thirteen, I entered a talent show at a missionary school and walked off with the first prize. In 1952

I was chosen to sing with the Manhattan Brothers and toured South Africa with them. Then, in 1956, I wrote and released the song "Pata Pata".

In 1959 I became the first South African to win a Grammy Award. That was a very special occasion.

One of the saddest days for me was when South Africa banned me from returning home because I appeared in a documentary called "Come Back Africa". This upset the apartheid government of South Africa. I only returned to South Africa 30 years later.

I toured with great singers such as Paul Simon, Nina Simone, Hugh Masekela and Dizzy Gillespie. Finally I returned to South Africa in December 1990, one of the happiest days of my life. Four years later I started a charity project to raise funds to protect women in South Africa.

Although I have weathered many storms, including car accidents, a plane crash and cancer, I have tried to remain active and serve my fellow South Africans.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Let's write

Read the passage again and then write down answers to these questions.

Mirriam Makeba was very talented. What facts in the first paragraph tell us this?

This passage is called an autobiography. What words show that it is being told by Mirriam Makeba herself?

What was the name of the popular song that made Mirriam Makeba famous?

What was one of the saddest days of her life?

What was one of the happiest days of her life?

Tick the best meaning for the two phrases in bold:

Let's write

walked off:	got very angry		received		went on a trip	
weathered many storms:	got caught in a gale		went through many difficult times			

Word work

Draw a line from each word or phrase on the left to match it with its meaning on the right. Write the words in bold in your dictionary.

My autobiography

Let's write

You are now going to write your autobiography – the story of your life. Before you write it, you need to complete this mind map. Include some of the following information: your name; where you were born; your brothers and sisters; what you did before you went to school; who looked after you; what you did when you started school; whether you were happy, scared or excited; who your friends were; what your favourite subject was; who your favourite teacher was; what you like doing after school; what your hobbies are; what your likes and dislikes are; what you want to do in the future.

The story of my life

Let's write

Now write the story of your life. Use the information from your mind map.

- Use a mind map to help you to plan your writing.
- Write a rough draft.
- Ask a friend to edit the draft.
- Revise your text and make the necessary corrections.
- Then write it neatly in your book.

Let's write

Use these phrases in sentences of your own.

special occasion

saddest day

Let's write

Write sentences using these words:

Let's write

Rewrite each sentence. Change the underlined nouns to one of the pronouns below.

Sarah made dinner for the whole family.

Mirriam Makeba toured with Paul Simon and Nona Simone.

Paul Simon played with Mirriam Makeba.

The house needs a new coat of paint.

Let's write

Circle the pronouns in the sentences below.
Some sentences have more than one pronoun.

She went to the shops with Maria.

My mom's car was tiny but six of us had to fit into it.

Every Saturday, we go with our mom to the shops.

I leave for school before the sun comes up.

I love seeing them perform on stage.

Look at the picture and talk to your friend about it.

What is unusual about the picture?

Do you prefer reading books or watching TV?

Tell your group what you and your family do after you have eaten supper.

- Do you discuss things?
- Do you read books?
- Do you watch TV?

Let's read

Read this passage adapted from a book called *Matilda* by Roald Dahl.

Every now and again one comes across parents who show no interest in their children. Mr and Mrs Wormwood were two such parents. They had a son called Michael and a daughter called Matilda, and the parents looked upon Matilda in particular as nothing more than a scab.

It is bad enough when parents treat ordinary children as though they were scabs, but it becomes a lot worse when the child is **extraordinary**, and by that I mean sensitive and brilliant. Matilda was so quick to learn that her ability should have been obvious even to the most half-witted parents. But Mr and Mrs Wormwood were so dull and so wrapped up in their own silly lives that they failed to notice anything unusual about their daughter. To tell the truth, I doubt whether they would have noticed had she crawled into the house with a broken leg.

By the age of *one and a half* Matilda's speech was perfect and she knew as many words as most grown-ups. The parents, instead of telling her how wonderful she was, called her a noisy chatterbox. By the time she was *three*, Matilda had taught herself to read by studying magazines left around the house. At the age of *four* she could read fast and well and she began wanting more and more books. The only book in this household was something called *Easy Cooking* and when she had read this from cover to cover and had learnt all the recipes by heart, she decided she wanted something more interesting.

When she asked her father to buy her some books he screamed, "What's wrong with the telly? We've got a lovely telly and now you come asking for a book! You're getting spoiled my girl!"

Nearly every afternoon Matilda was left alone in the house. Her brother went to school, her father went to work and her mother went to play bingo. One afternoon, Matilda set out all by herself to walk to the public library. When she arrived, she asked the librarian if she might sit a while and read a book. The librarian told her she was very welcome.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Let's write

What is unusual about Matilda?

In what way was she very clever? Name three things.

What do you think is the main idea of this passage?

Underline all the supporting ideas in the passage in red.

The parents' surname is Wormwood. What does their name tell you about them as parents?

What do you feel about Matilda?

What do you feel about her parents?

We are told that Matilda loves books and reading. Do you like books and reading? Say why.

A scab means both a crust over a sore and someone who is excluded from a group.
Why do you think Matilda's parents called her a scab?

Let's write

Match the words with their meanings.

Write the words in bold in your dictionary.

9 Fantastic foods

Let's talk

Do you think you are healthy?
What are your favourite foods?
Discuss with your group what a balanced diet is.
Do you think you have a balanced diet? If not,
what foods do you need to add to your diet?
Do you do a sport to keep healthy?
Tell your group what sport you play and why.

Let's read

Read this pamphlet and then answer the questions that follow.

Eating the right kind of food and being active, for example by playing a sport, is the best way to stay healthy.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

What is a good meal? Remember the five food groups. For a healthy, balanced meal you need to choose something from each group every time you eat. If you have to leave something out, try to have it at another meal that day. These are the groups, with some examples of the foods in them:

Protein: chicken, fish, meat, eggs, peanut butter, soya, beans, nuts

Dairy products: milk, cheese, yoghurt

Fruit and vegetables: oranges, bananas, potatoes, spinach, tomatoes

Grains: bread, mealie meal, rice

Fats and oils: margarine, butter, oil

You should not eat too much from the fats and oils group, and you should eat plenty of fruit and vegetables.

Add fibre to your diet

Fibre is important in your diet. It helps your body to digest food. Waste products leave your body faster because fibre helps to break them down. Cereals, whole-wheat bread, carrots, celery, spinach, pumpkin, apples, pears and legumes (beans and peas) all contain fibre.

Tips on how to add fibre to your diet

- Do not peel fruit such as apples. Eat the skin as well as the fruit because it has fibre in it.
- Do not peel potatoes and sweet potatoes. Scrub them, cook them and eat them with their skins on.
- Eat lots of salads and raw vegetables.
- Eat whole-wheat pasta and brown bread instead of white pasta and white rice.
- Unrefined mealie meal is also full of fibre.

Let's write

According to the information given in this worksheet, what is the best way to stay healthy?

Which food groups are important for a healthy meal?

Why is fibre important in your diet? Give two reasons.

Your mother has asked you to pack your lunch box. Fill in the table and say what three foods you will pack and why. Use the information in the pamphlet to help you.

Let's write

Complete this graph.

Ask five friends to pick their favourite food from those listed along the bottom of the graph. Then fill in the information on the graph, using different colours for boys and girls.

Let's write

Now answer these questions.

Which foods did the boys like most?

Which foods did the girls like most?

What were the most well-liked foods among boys and girls?

What were the least liked foods among boys and girls?

Do you think these boys and girls eat properly? Say why.

Let's read

Read the list of ingredients that are needed to make a delicious, healthy, whole-wheat sandwich.

Ingredients

Two slices of whole-wheat bread
Margarine
Two slices of chicken
Cucumber
Tomato

Let's write

How will you make the sandwich? Think about it, and then write instructions on how to make the sandwich. Remember to number each instruction. We have done the first instruction for you. You must do the rest.

1. Cut two slices of whole-wheat bread.

Let's write

Underline the correct form of the verb in these sentences.

Yesterday I bake/baked a loaf of banana bread because I have/had friends for tea.

I eat/ate muesli, fruit and yoghurt for breakfast every day.

11 Meet some African elephants

Let's talk

Talk about the picture.

Before you read

● Look at the pictures and headings and try to predict what the text will be about. ● Skim the page to see what you will read about.

Our very own elephants

Have you ever seen an elephant? Have you ever touched an elephant? Has an elephant ever given you a big sloppy kiss with its trunk?

If not, then come and meet some of these very special animals!

Amarula

He is the oldest bull elephant at the Hartebeespoort Elephant Sanctuary. He spent most of his life in zoos before coming to the sanctuary. He loves being with people. He has only one tusk – his right side tusk was lost many years ago.

Khumba

Khumba is the matriarch, the “mother” of the herd at the sanctuary. She loves all the attention she gets and always looks after the other elephants. She loves water and spends a lot of time washing and enjoying herself in the water.

Masadi

Masadi is a little bit bigger than most 15-year-old elephants. She is “second in command” and helps Khumba to keep the family together. She loves being with the other elephants and has a much louder trumpet than they do. She also loves hearing her own voice, so if there is loud trumpeting coming from the enclosure you can be sure it is Masadi “singing”.

Temba

Temba is the “baby” of the herd and she loves the fact that all the other elephants always look after her and give her plenty of love and attention. She loves children and thrives on all the attention she gets from them.

Let's write

Write down your answer to these questions in the space provided.

What is a sanctuary?

Why do you think the elephants are in a sanctuary?

Why do you think there are only five elephants in the sanctuary?

Do you think elephants like being together or alone? Why?

Who is the youngest elephant at the sanctuary?

Who is the oldest elephant?

Who trumpets the loudest?

Which elephant do you think is the most spoilt?

Who loves playing in water?

Let's write

What do the words in bold mean? Circle the closest meaning in each line.

Write the words in bold in your dictionary.

sanctuary	place of safety	asylum	hotel	farm
tusk	tooth	horn	ivory	nail
attention	curiosity	interest	inattention	oddity
enclosure	a space that is fenced off	roofed home	exposed area	bare area

Thinking about elephants

D A T E

This table gives you some facts about the African elephant.
Write a paragraph using these facts.

Let's write

Name:	elephant
Weight at birth:	120 kg
Top speed:	40 km/h
How long they live:	80 years
Colour:	grey
Favourite food:	grass, leaves, twigs, bark, fruit and seed pods

Let's write

Look at the information about elephants in the right-hand column.
Then fill in the information under the right headings, in the right order.

Do elephants live together?

What do elephants eat?

How do elephants cool themselves?

How do elephants talk?

How long do elephants live?

Elephant Facts

Elephants talk to each other by making a "trumpeting" sound with their trunks.

All the babies and other females follow the leader.
Several families live together in a herd.

Because they are such big animals, they need to eat a lot of leaves, but they also eat grass and tree bark – and fruit, when they can get it! They can spend twenty hours a day eating!

Elephants eat plants.

Elephants can live as long as eighty years.

The leader of the herd is usually the oldest female elephant.

Elephants live in families.

They also use their trunks to spray water and dust on their bodies.

When it is hot, elephants like to get into water and mud.

Wrinkles on their skin trap the water and help to cool them.

Let's write

Rewrite these sentences using the adverb in brackets to complete the meaning.

The young elephant leaves its mother. (seldom)

The mother elephant stands under the shade of the tree. (often)

The bull elephant throws water over its wrinkled skin. (occasionally)

The baby elephant eats straw. (never)

The elephant sleeps in the afternoon. (sometimes)

Let's write

Draw a picture of an animal you like.

Then write four paragraphs about the animal.

- Use a mind map to help you to plan your writing.
- Write a rough draft.
- Ask a friend to edit the draft.
- Revise your text and make the necessary corrections.
- Then write it neatly in your book.

In your first paragraph, say where the animal lives and whether it lives alone or in a group.

In your second paragraph, describe your animal: how big is it, and what does it look like?

In your third paragraph, explain how your animal communicates: what sounds does it make?

Finally, say how long your animal lives and whether or not it is an endangered species.

Fun

Read this poem and act it out:

The elephant goes
Like this, like that.
He's terribly big,
And he's terribly fat.
He has no fingers,
And he has no toes.
But he waves his trunk
wherever he goes.

(Move around slowly on all
fours, like an elephant.)
(Stand up, reach up high with your arms.)
(Stretch your arms out to the sides to show how fat the elephant is.)
(Make fists, hiding your fingers.)
(Wiggle your toes.)

Sharks matter

DATE

What do you know about sharks?

Look at the picture of the shark and describe it to your group.

Let's read

Bull sharks are thought to be the most dangerous sharks in the world. This is because they tend to hunt in waters where people often swim. Bull sharks live throughout the world, in shallow, warm ocean waters. There have even been cases of these sharks swimming up into freshwater rivers.

People are not part of a bull shark's usual prey. Scientists think that when a bull shark goes after a person it's because it is curious or because it simply mistakes a person for prey. Bull sharks will eat almost anything, but their diet consists mainly of fish. They also sometimes eat dolphins and sea turtles. Bull sharks even eat other sharks.

They hunt during the day and at night. Before the bull shark attacks its prey, it head-butts the animal. This head-butting habit, along with its short, blunt snout and grumpy personality, led to its name of "bull" shark.

Bull sharks are unusual among sharks in their ability to survive in fresh water. Sharks must keep salt in their bodies to survive, and most sharks can live only in salt water. But bull sharks have special kidneys and glands near their tails that help them to keep salt in their bodies even when they're in fresh water. Scientists are still studying these sharks to find out why they developed this unusual ability.

Although bull sharks are not on the endangered species list, people try and catch bull sharks mainly for their fins. Researchers believe that their populations may be shrinking.

Let's write

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Why are bull sharks thought to be very dangerous?

What do bull sharks usually eat?

How do bull sharks attack their prey?

In what way are bull sharks different from other sharks?

Why is the number of bull sharks decreasing?

When, do you think, is an animal thought to be endangered?

Look at the graphs.

How much do the male, female and cub bull sharks weigh?

How long are the male, female and cub bull sharks?

Let's write

She looked through her binoculars and saw what seemed to be an overturned boat washed up on the shore. Nancy grabbed her raincoat and ran out into the storm. Down on the beach, what Nancy found was not a boat. It was a black whale, six metres long, lying on the beach. The whale smacked its tail against the sand and called out in whistles that sounded almost like a bird's song. Nancy was frightened by the size of the animal. 15 Touring Africa

Let's talk

Look at the map and show your group where you live. Each person in your group should talk about a different aspect of your province: the tourist attractions, the weather, the main sporting activities and directions on how to get to a hotel or a bed and breakfast place.

Let's read

Read the information about the different countries.

EGYPT

Without the Nile River, Egypt would be desert. It only has 2.5 cm of rain each year. But each summer, the river rises. Floods cover the river's valleys, leaving a mud-like substance needed for trees, plants and crops to grow. Egypt has many animals and plants, including cheetahs, hyenas, crocodiles and cobras.

Around 3 100 B.C., different parts of Egypt were brought together under a pharaoh (the Egyptian word for a king). These kings built huge pyramids and temples.

Tourism brings money into Egypt. Crowds of visitors go to the country to see ancient monuments like the Great Pyramids and the Sphinx.

Official language: Literary Arabic

KENYA

Kenya is in East Africa. It is next to the Indian Ocean. Nairobi is the capital. Millions of people visit Kenya each year to see its grasslands, called savanna, and the animals such as elephants, lions, cheetahs and rhinos. Music and storytelling are important parts of Kenyan culture. Official languages: Swahili and English

DATE

Pretoria is a city in the northern part of Gauteng Province. It is the administrative capital of South Africa. It is known as the Jacaranda City because of the thousands of Jacaranda trees planted in its streets, parks and gardens. Jacarandas have beautiful purple flowers, and in October, when the trees start flowering, they form purple arches across many of the city's streets.

LIMPOPO

Limpopo is South Africa's most northern province. It is remarkable in that it has bushveld, majestic mountains, indigenous forests and farmland. The province borders the countries of Botswana to the west, Zimbabwe to the north and Mozambique to the east. In the eastern region lies the northern half of the magnificent Kruger National Park. The capital city of Limpopo is Polokwane. Other important Limpopo towns are the major mining centres of Phalaborwa and Thabazimbi, and Tzaneen, which produces tea, forestry products and tropical fruit. Through the centre of the province runs the Great North Road, an important route into Africa that crosses into Zimbabwe at the major border post of Beit Bridge.

Let's write

You have won a trip through Africa. You are going to fly to a destination and then drive back home through different countries in Africa. Skim through the information to find out where you will be going. If you're not sure, use the map of Africa to help you.

It has little rainfall.

A huge river runs through it.

Its southern neighbour is Sudan.

It has huge pyramids and temples.

The tropic of Cancer runs through it.

It lies between two lines of longitude: approximately 30°E and 35 °E.

Where are you?

Its capital is close to the tropic of Capricorn and is close to the 15°E line of longitude.

Its coast is on the Atlantic Ocean.

Its neighbours are Angola, Botswana and South Africa.

Where are you?

It is the administrative capital of South Africa.

It is known as the Jacaranda City.

Where are you?

Its capital is Nairobi.

It has two official languages.

It has many different animal species.

Its eastern coast is on the Indian Ocean.

It lies on the equator.

Its southern neighbour is Tanzania.

Lake Victoria is on its south western border.

Where are you?

It is South Africa's northernmost province.

It borders Botswana to the west, Zimbabwe to the north and Mozambique to the East.

Number each piece of paper.

For Sally, surfing is the best way to enjoy life.

The story is for anyone from age 10 to 100 who appreciates the delights of our natural world.

She and her two dogs live in a cabin near the beach, and when the ocean calls, the trio sets off to enjoy a day at the seaside.

This is truly a magical story about the excitement of living in Cape Town, being in nature, surfing and enjoying the seaside.

Wendy McKeag, the author and illustrator, lives there, sandwiched between mountain and sea on the Cape Peninsula.

Surfing Sally is a story inspired by life at the south-western tip of Africa.

THE MAD HATTER'S TEA PARTY

There was a table set out under a tree in front of the house, and the March Hare and the Hatter were having tea at it. A Dormouse was sitting between them, fast asleep, and the other two were using it as a cushion, resting their elbows on it, and talking over its head. "Very uncomfortable for the Dormouse," thought Alice; "but as it's asleep, I suppose it doesn't mind."

The table was a large one, but the three were all crowded together at one corner of it: "No room! No room!" they cried out when they saw Alice coming. "There's plenty of room!" said Alice indignantly, and she sat down in a large armchair at one end of the table.

"Have some cool drink," the March Hare said in an encouraging tone.

Alice looked all around the table, but there was nothing on it but tea. "I don't see any cool drink," she remarked.

"There isn't any," said the March Hare.

"Then it wasn't very polite of you to offer it," said Alice angrily.

"It wasn't very polite of you to sit down without being invited," said the March Hare.

"I didn't know it was your table," said Alice; "there's place for many more than three."

"Your hair needs to be cut," said the Hatter. He had been looking at Alice for some time with great curiosity, and this was his first speech.

"You should learn not to make personal remarks," Alice said; "it's very rude."

The Hatter opened his eyes very wide on hearing this; but all he said was, "Why is a raven like a writing-desk?"

"Well, we shall have some fun now!" thought Alice. "I'm glad they've begun asking riddles." Out loud, she said, "I believe I can guess that."

"Do you mean that you think you can work out the answer to it?" said the March Hare.

"Exactly so," said Alice.

"Then you should say what you mean," the March Hare went on.

"I do," Alice hastily replied; "at least—at least I mean what I say—that's the same thing, you know."

"Not the same thing a bit!" said the Hatter. "You might just as well say that 'I see what I eat' is the same thing as 'I eat what I see!'"

From: **The Mad Hatter**

A tea party with cool drink in the Wonder of lands
Come stand and enjoy with the best of our bands
The party's at night, so come in the day
And bring all the presents you find on the way.

Join Hatter and Cat, Dormouse and Rabbit
And no other guests except for Mac Tavitt.
Our King and Queen will bring all their hearts
And we'll make sure we eat some of their tarts.

Put on a crazy hat, some rabbit ears, or come as a cat,
While sipping tea among the roses, we'll do this and that!
This adventure in Wonderland is sure to be great,
So don't be late for this very important date!

21 Banding together

Let's talk

Tell your group who your favourite singer is and the name of your favourite song. Look at the picture and talk to your group about it. Would you like to play in a band? What is your favourite instrument? Would you like to perform on stage?

Let's read

"One more time, guys!" Sierra jabbed at her iPod.

Elly groaned as the *thud, thud, thud* of the electronic brass and drums started up again. Much as she loved the hit single, "All Together Now", she'd had enough. Her throat was sore from singing and her legs ached from dancing.

"Oh no, you don't." Tash staggered across the room and collapsed face down on her bed. "You've promised 'one more time' for hours now!"

"I need a break too." Elly sank onto the floor of Tash's bedroom. They'd cleared a big space in the middle to make a dance studio. "My legs and brain have stopped talking to each other."

"Come on, guys!" Sierra flicked her long dark hair over her shoulder. "You're not trying. The singing's good but, Tash, you've got to get the dance steps sorted or we'll never win *Tomorrow's Stars*!"

Tash groaned loudly. She rolled over to look at Sierra. "It's easy for you. Dancing's your thing. I can't help it if I'm good at surfing and sailing but rubbish at dancing."

"Tash, you're not rubbish, you're just tired," Elly cut in, seeing Sierra's face grow stubborn. She knew how much their friend wanted to win the talent contest and appear on stage at Sunday Island's music festival. But she and Tash needed a break. "We've been practising all day, Sierra." Elly bit back a smile as a sneaky but brilliant idea flitted into her head. "I don't know about you, but I'm hungry."

Sierra sniffed. "You're not going to get me with that one. I know I'm a greedy pig, but there are more important things than food. Well, sometimes."

"OK." Elly shrugged. "I'll just have to take Aunt Dina's special spicy gingerbread cookies back home with me and tell her you didn't like them."

Sierra's eyes grew wide. "Gingerbread? The ones that are sort of chewy, but melt in your mouth?" Her stubborn frown faded into a dreamy look as Elly nodded.

Do you bring sandwiches to school? If you do, tell your group how you make your sandwiches and what you put on them.

Let's read

DATE

How bread is made

We eat bread every day, but how is it made?

First of all, grains such as wheat or rye are grown on farms. The grains are harvested and stored in silos. Later they are taken to a flour mill where they are ground into flour.

The flour is then sent to a large bakery. There it is mixed with water, salt and yeast to form dough.

Next the dough is placed in metal pans. The pans are put into an oven where the temperature is about 180° C. After it is baked for 45 minutes the bread is taken out of the oven to cool.

Some loaves of bread are sliced in a machine and then wrapped in plastic. A "sell-by date" is usually attached to the package.

Finally, the bread is sent to bakeries, shops and supermarkets, where people buy it.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.

26 More about bread

Let's write

Look at the information in the text box about writing an explanation.

Now use this information to brainstorm and plan a piece of writing on **How to make a sandwich.**

Write down words and phrases in the space below that you are going to use in your explanation.

How bread is made is an example of an **explanation**. This is what an explanation contains:

A heading: **How bread is made**

Statement or question to be explained in a particular order using time:

How is bread made?

Explanation arranged in a particular order using

time connectives: **first, then, finally, after**

Passive voice: **are grown, is sent**

Common nouns: **bread, grain, dough**

Exact details: **180 degrees, 45 minutes**

Technical terms: **harvested, silos**

Let's talk

Bring bread, butter (or margarine) and two sandwich fillings to school. Ask your teacher to bring a knife.

Work with a partner. Take turns to give instructions and carry out instructions.

1. First decide what type of filling you would like and check to see if there is some available.
2. Next take two slices of bread and butter each of them on one side only.
3. Put your fillings on one slice of bread, butter side up. You may choose two fillings.
4. Place the other piece of bread, butter side down, on top of the filling.
5. Now cut your sandwich diagonally with a knife.
6. Now sit down and enjoy your sandwich.
7. Finally, clear away the things you have been using.

Difference between explanations and procedures

Procedures are instructions, full of commands. You use a procedure to make something.

Explanations have passive verbs, such as "is poured" or "are added".

Explanations tell you how something is done or how something works.

33 Nelson Mandela

Let's talk

Let's read

Look at the pictures and talk about what you see.

Tell the class what you used to do before you went to school and the kinds of games you used to play.

Have you ever been embarrassed by something you did? Tell the class what happened.

You will now read a section taken from Nelson Mandela's autobiography. In this section he describes his childhood.

When I was about five, I learned how to knock birds out of the sky with a slingshot, to gather wild honey and fruits and **edible** roots, to drink warm, sweet milk straight from the udder of a cow, to swim in the clear, cold streams, and to catch fish with **twine** and sharpened bits of wire.

As boys, we played with toys we made ourselves. Nature was our playground. The hills above Qunu were dotted with large smooth rocks which we **transformed** into our own roller coaster. We sat on flat stones and slid down the face of the large rocks. We did this until our backsides were so sore we could hardly sit down. I learned to ride by sitting on top of weaned calves – after being thrown to the ground several times, one got the hang of it.

I learned my lesson one day from an **unruly** donkey. We had been taking turns climbing up and down its back and when my chance came I jumped on and the donkey bolted into a nearby thorn bush. It bent its head, trying to unseat me, which it did, but not before the thorns had pricked and scratched my face, embarrassing me in front of my friends. I had lost face among my friends. Even though it was a donkey that unseated me, I learned that to **humiliate** another person is to make him suffer an unnecessarily cruel fate. Even as a young boy of six, I defeated my opponents without dishonouring them.

In the evening, I would return to my mother's kraal where she was preparing supper. Whereas my father once told stories of battles and brave Xhosa warriors, my mother would charm us with Xhosa legends and fables that had come down from numberless generations.

Like all Xhosa children, I gained knowledge mainly through looking at things. We were meant to learn through imitation not through questions. My life was shaped by custom and ritual. Men followed the path laid out for them by their fathers; women led the same lives as their mothers had before them.

One day, George Mbekela, a friend of ours, paid a visit to my mother. "Your son is a clever young fellow," he said. "He should go to school." She told my father, who despite--or perhaps because of--his own lack of education immediately decided that his youngest son should go to school.

The schoolhouse was a single room, on the other side of the hill from Qunu. I was seven years old, and on the day before I was to begin, my father took me aside and told me that I must be dressed properly for school. Until that time, I, like all the other boys in Qunu, had worn only a blanket, which was wrapped around one shoulder and pinned at the waist. My father took a pair of his trousers and cut them at the knee. He told me to put them on, which I did, and they were roughly the correct length, although the waist was far too large. My father then took a piece of string and tied the trousers at the waist. I must have been a comical sight, but I have never owned a suit I was prouder to wear than my father's cut-off pants.

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Let's write

Read the questions and then write down your answers.

Write down three things Mandela did in the fields before he went to school.

Was Mandela happy at Qunu? Say why.

What lesson did he learn when he was thrown off the donkey?

How did his mother's stories differ from his father's stories? Whose do you think he preferred?

How do Xhosa children learn things?

How do you learn about things? By looking at things, by being told things or by asking questions about things? Or all of them? Write down an example.

What stories would you prefer to listen to? Stories about warriors or stories about fables? Say why.

Let's talk

Look at the covers of these books.

What do you think they are about?

Which one would you prefer to read? Say why.

Let's read

Silly Mr Harper is a **collection** of three short stories about Mr Harper and the trouble he has with his hair (Mr Harper is going bald), going on a picnic (he just can't seem to find the right spot) and baking a cake (needless to say, more than one attempt was needed). But thanks to some clever and **attentive** children who come up with bright **solutions**, Mr Harper's problems are solved. The stories are bound to have your child laughing out loud and they are written in rhyme, which makes reading for young ones so much fun. Email bwp@webmail.co.za for orders.

Surfing Sally is a story **inspired** by life at the south-western tip of Africa. Both the author and **illustrator**, Wendy McKeag, live there, **sandwiched** between mountain and sea on the Cape Peninsula. This story is for anyone from age two to 100 who appreciates the delights of our natural world. For Sally, surfing is the best way to enjoy life. She and her two salty dogs live in a cabin near the beach, and when the ocean calls, the trio sets off to enjoy a day at the seaside. This is truly a magical story about the excitement of being in nature and surfing.

Let's read

"Masechaba!" Ms Ngoma snapped. "You're going to jail with the rest of us, and that's final."

"But . . ." I argued. "But why can't we go skating for the last day of school?" I asked. "Or bungee jumping? Or something fun?"

Ms Ngoma ignored me. "Now, class, as you know, the jail was built by convicts. Who can tell me when it was built?"

Merriam's hand shot up, of course. I glared at her. Merriam is my twin. The good twin. The responsible twin. That's why Ms Ngoma made us sit together for the whole year. So I would pay attention.

Paying attention is not my strong point. I have an overactive imagination and an underactive **ability to concentrate**. That's what it says on my school reports.

"What's the matter, you scared?" came a voice from behind me. Jacob.

"Shhhh," Merriam hissed.

"Yeah," I said. "Shhh."

Merriam almost smiled at me. The only time Merriam and I don't hate each other is when we are **loathing** Jacob. Which, come to think of it, is fairly often. He's the kind of kid who puts chewing gum in your hair and thumb tacks on your seat, and he never sits still, even for a minute.

"And make sure you stay together!" Ms Ngoma was saying as we went through the limestone **arch**. "Leave your bags over there and follow me. We'll go and have a look at the cells. Hang on to the rails as you go up."

That was when I saw Jacob run over to the pile of bags and snatch one. Mine. With my brand new Nintendo DS in it. Then he grinned at me and **dashed** up a half-hidden old stairway — one that didn't look like it had been used for years.

"Jacob!" I yelled. "Come back!"

And without a second thought, I followed him.

Let's talk

Look at the picture and talk to your friend about it.

- Do you prefer day time or night time? Tell the class why.
- Explain to the class how you think day and night came about.

Let's read

A long time ago, the sun and the moon shared a home deep in a cave. Because they were hidden away, the only light that shone from the sky came from the twinkling stars.

After a while, the sun and the moon grew tired of living together in the small cave. The sun, whose **fiery personality** made him **impatient** and sometimes **bossy**, said, "I need to live by myself in this cave. Go find a new home for yourself."

The moon, who was gentle and patient, said, "Where can I possibly go?"

"Just go in the sky," said the sun. "There's plenty of space there."

The moon felt a bit sad and scared as she left the cave, but she bravely set out to live in the sky. Being only a thin, silver moon, she shyly hid behind some clouds. Slowly, little by little, she showed more of her face each day. Before long, her whole bright face lit the sky. Everyone began talking about how beautiful she was and how much they enjoyed her soft light.

When the sun heard this he became very jealous. He ran out of the cave and jumped into the sky. When the moon saw the sun coming up into the blue sky, she ran away. She kept looking back at the sun. After a while, nobody could see the moon any longer.

Now the sun had the whole sky to himself. He proudly sent his bright sunlight in all directions. The sun warmed the cold earth

and helped the green plants and beautiful flowers grow. People began to praise the sun and he became very **boastful**.

But soon he became very lonely with no one to talk to. So the sun decided to look for the moon. The moon felt it was safe to hide in the cave. As the sun came near the cave, the moon ran out. She leaped into the sky.

"Oh, moon," shouted the sun. "Please wait. I'm sorry."

The moon did not trust the sun. He had been unkind to her. When the sun came into the sky, the moon hid in the cave.

Even now, the sun cannot catch up with the moon. The moon hides in the cave when the sun is up in the sky. She jumps back into the sky only after the sun returns to the cave.

Let's write

Read the passage again and then tick the right answers or write down the answers to these questions.

If you wanted to know more about why the moon appears to change its shape throughout a month, which would be the best question to ask?

- ☐ A How close is the moon to the earth?
- ☐ B Why are parts of the moon dark at times?
- ☐ C When did people first travel to the moon?
- ☐ D Why can you sometimes see the moon during the day?

If you want to understand how the moon feels at the beginning of the story, you should think about

- ☐ A how it feels when someone else is boastful and bossy
- ☐ B why the sun warms the earth and helps the plants to grow
- ☐ C why the shape of the moon changes
- ☐ D how it feels when someone is lonely

According to the story, the sun could best be compared to a

- ☐ A proud peacock
- ☐ B timid mouse
- ☐ C fierce lion
- ☐ D busy bee

What do these sentences describe about the moon?

Being only a thin, silver moon, she shyly hid behind some clouds. Slowly, little by little, she showed more of her face each day. Before long, her whole bright face lit the sky.

- ☐ A The colour of the moon
- ☐ B The distance of the moon from the earth
- ☐ C The changes of the moon over a month
- ☐ D The beauty of the moon

What words at the beginning of the story tell us that the sun is not very nice?

Why did the sun jump into the sky?

What does this story try to explain?

43 Sky watching

Let's talk

Discuss these questions with your partner.

Are you interested in the world around you? What are your interests?

Have you ever done any sky watching at night? If you have, tell your group what you saw.

Use this acrostic to help you remember the names of the planets.

My **v**ery **e**nergetic **m**other **j**ust **s**erved **u**s **n**oodles.

(**M**ercury, **V**enus, **E**arth, **M**ars, **J**upiter, **S**aturn, **U**ranus, **N**eptune)

Say the names of the planets with your partner.

Let's read

It doesn't matter what night you choose. It doesn't matter what season it is. You don't have to go on an enormous journey to find the darkest spot on earth. Sky watching is about getting outside at night and seeing for yourself what's up there. Here are some **pointers**:

Where to set up

- Start out in your garden or your yard. Any open space will do, even if you live in a city.
- The best time to sky watch is on a clear night with not much moonlight. A spot away from lights and other houses is helpful. Too much light makes the sky too bright and makes most of the stars **invisible**.
- If you do live in a big city, or the moon is full, don't worry. Yes, you'll only see the brightest stars (and perhaps some planets); however, this can make it easier to find major **constellations**. In other words, if you're just starting to sky watch, a bit of light pollution might actually make the sky look less **confusing**.

What to bring

- Bring a telescope or binoculars if you have, but they are not essential.
- Dress warmly if it is a cold night. Bring an extra jersey.
- Bring a blanket to sit on. You could be outside for a long time if you are watching the sky.
- Bring something to eat. Make sure it is not greasy if you are using a telescope or binoculars.
- Get **permission** from your parents to ask some friends to sky watch with you. Lie down so your heads form a circle. This makes it easier to talk and point out things to each other.

Make a bar graph of the information given in the table.

Let's write

Put this announcement into the future tense.

Finuala Dowling and Gus Ferguson spoke at the Franschoek Book Festival last night. The audience paid a lot of money to listen to them. There was great excitement as this was the first time that these authors had spoken about their work after a long break. The listeners were treated to many of their favourite poems. Delicious five star restaurant food was served. No smoking was allowed inside the auditotrium.

Let's write

WHERE

WHAT HAPPENED

TOPIC SENTENCE	Outside	There was a storm.
SUPPORTING SENTENCE	dark clouds thunder lightning streaking	Lightning came from the dark clouds. The sound of thunder was loud.
SUPPORTING SENTENCE	rain on roof trees swaying wind whirling	The rain fell on the tin roof. Trees moved as the wind blew.
SUPPORTING SENTENCE	field horses neighing wet	Horses neighed as they walked on the wet cold field.
CONCLUDING SENTENCE	storm frightening	The storm was one of the most frightening I had ever seen.

Read this description of Muizenberg and its beach and then write a descriptive paragraph of a place you know.

Use the paragraph frame to plan your paragraph.

Muizenberg Beach, situated in the corner where the rather wild northern shore meets the rocky but well-populated eastern side of the peninsula, is a long family-friendly beach where almost every Cape Town surfer learned to surf. In the summer, the beaches are crowded with laughing children, sunbathers, surfers and walkers. There are showers, coffee shops and restaurants close by. For those who want to keep fit, there is a walkway from Muizenberg to St James, on the seaward side of the railway line. Muizenberg is one of the most racially integrated of Cape Town's beaches, with a good sample of everybody from our rainbow nation.

- Use a mind map to help you to plan your writing.
- Write a rough draft.
- Ask a friend to edit the draft.
- Revise your text and make the necessary corrections.

47 Spinning a web

Let's talk

Are you scared of spiders? Tell your group why.

Even if you are scared of them do you find them interesting? Say why.

Where do spiders live?

What do spiders eat? If you don't know, have a look for a spider's web and see what kind of things the spider eats.

Do you think spiders are important to the environment? Say why.

Let's read

The word "spider" comes from the word *spinnan*, meaning "to spin". There are both big and small spiders. They have two body parts and eight legs. Each leg has seven **segments**, and on the tip of the legs are two tiny claws.

They have a hard outer body shell, called an exoskeleton. Their muscles are **attached** to an inner skeleton. Spiders have two **structures** on their feet. They use them to handle their **prey**.

Spiders have eight simple eyes, but they really sense movement through **vibration**. All spiders' activities – eating, laying eggs, mating – take place on their webs.

Spiders digest their food outside their bodies. After their prey is captured, they spit enzymes onto their victim. The **enzymes** break down the body of the prey and turn it into a liquid which the spider then sucks up. By repeating this process many times, spiders **digest** the whole prey.

One of the most interesting things about spiders is their ability to spin silk. The silk is so strong that it can withstand the speed of fast-flying insects. Some spiders spin silk that is stronger than steel piano wire.

Most spiders are harmless to humans. However, some spiders are poisonous, so don't try to examine a spider on your own. That's something you should only do in your school laboratory, or when there's an expert who can tell you which spiders to leave alone.

Let's write

Where do spiders get their name from?

Explain in your own words how spiders eat and digest their prey.

The writer makes it clear that not all spiders are dangerous. Do you agree? Say why.

How should you go about examining a spider? Say why.

Do you agree or disagree with this sentence? Say why.

Spiders' webs are beautiful and should not be destroyed.

Let's write

Match the words with their meanings.
Then write the words in bold in your dictionary.

segments

48 More about spiders

Let's write

Go to your library and find a book about spiders. Perhaps there's one in a book box at your school. Or perhaps you are able to use the internet? Find out about spiders. Choose one kind of spider. Write a paragraph of a day in the life of that spider. Use this frame to write your paragraph.

Activities	

Let's write

Complete this diagram of a spider to add to your paragraph. Use the words in the box.

Let's write

Follow these instructions to draw the spider.

Draw a small circle at the bottom of the square for the head.

Add a bigger circle on top of the small circle for the body.

Draw two oblongs in front of the head for the pedipalps.

Draw four zig-zag lines on both sides of the big circle for its legs.

Draw two small circles in the head for its eyes.

Make the spider hairy by drawing short small strokes on half its body and the top of the head.

Let's write

Finish these word chains by changing one letter at a time in the word on the left until you get the word on the right. You must make real words when you change the letter.

Turn mean into best in three moves.

mean			best

Spiders

Baby spiders hatch from eggs.
 Each one has eight tiny legs.
 A spider has more eyes than you.
 Most have eight, and you have two.
 A spider has two body parts.
 Across its web it quickly darts.
 From a spider's spinnerets
 Sticky spider's silk do jets.
 Spiders feel the frantic tugs,
 Of their favourite food; it's bugs!

DATE

Let's talk

Look at the pictures and talk about what you see.

- Why do you think the girl is standing alone?
- Do you think she is happy or sad?
- Why do you think children are sometimes cruel to other children?
- What advice would you give her?
- What occasion do you think the boy is celebrating?
- Is he happy? How do you know?
- Do you think people like him? Why do you say so?

Let's read

Bheki's parents had just moved to Thohoyandou from Johannesburg. They had been waiting for a long time to get away from the **pollution**, noise, traffic and fast - paced life. They thought Bheki, being only six years old would **adjust** with ease to life in a small town. But Bheki was far from pleased. He didn't like the children in his school from the first day. His friends in Johannesburg had been so smart. Here everybody wore unsmart clothes, spoke Venda and brought pap to school. He decided that he wasn't going to like this place at all.

Bheki looked so **unapproachable** that no child dared to come and talk to him. As a result even after a week in the new school, he had no friends. Bheki was not used to games. He couldn't run as fast as the others in his class. He did not know how to ride a bicycle. His brother, Daniel, could even ride an adult cycle. All this made Bheki hate the place even more.

Bheki had made himself quite unpopular with his behaviour. The other children in his class had a good time laughing at him. Some children were jealous of his expensive things and would **insult** him because he wouldn't share anything.

Bheki was quite miserable. He wanted to teach them all a lesson. One evening at home, he was crying and talking to himself. "I wish I was smarter than everybody else in my class. I wish I could recite any poem in the world and count up to a thousand without stopping. I wish I could run faster than everybody else. I wish I could ride a bicycle. I wish... I wish....," he said wringing his hands in **despair**.

Let's write

Read the questions and then write down your answers.

Where did Bheki's parents move to?

In what province is Thohoyandou?

Was Bheki happy in Thohoyandou? Say why.

What grade do you think Bheki was in? Say why.

Why didn't the children in his school like Bheki?

Bheki made five wishes. He wanted to make another two. What two wishes do you think he wanted to make?

1.

2.

What do you think Bheki should do at school?

Bheki should

What do you think the best title for the passage is? Say why.

Things I wish for

The town and the country

My miserable life

Let's write

Match the words in the first column with their meanings in the second column. We have done one for you. Write the words in bold in your dictionary.

pollution
adjust
unapproachable
insult
despair

misery
unfriendly
say nasty things

50 Things I wish for

DATE

Let's write

Write 3 sentences about Bheki. Start the sentences with these words. Write the sentences in the past tense.

First, when I was five,

Then, when I was six,

At the beginning, I was

I then made

Finally, I wished

Let's write

Bheki wished for many things. He wished he could ride a bike, was very smart, could recite any poem in the world, could count up to a thousand without stopping and could run faster than everybody else.

However, he wanted more than this. What do you think he really wanted? Write a paragraph saying what you think Bheki really wanted more than anything else.

Let's write

Break up these words into syllables or parts. Indicate the syllables by drawing a line between each syllable.

Example: some/time.

miserable

province

unapproachable

pollution

Let's write

Complete the story. What do you think happened to Bheki? Write the outlines for two paragraphs in the left-hand blocks. In the right-hand blocks draw pictures to illustrate the outlines.

<p>Blank writing area for the first paragraph outline.</p>	<p>Blank area for drawing a picture to illustrate the first paragraph.</p>
<p>Blank writing area for the second paragraph outline.</p>	<p>Blank area for drawing a picture to illustrate the second paragraph.</p>

Let's write

Underline the adjectives in these sentences.

Bheki had an old, wooden cupboard in his bedroom.

His mother arranged flowers in a glass vase.

Bheki has a young mother and father.

Thohoyandou has a hot summer and a cool winter.

Bheki is six.

Adjectives are describing words. They tell you more about nouns.

Let's write

Use these words as adjectives in sentences of your own.

old	
glass	
cold	
young	
six	

51 You can fly

Let's talk

A folktale is a story that perhaps your granny told you and was told to her by her granny. Do you know any stories that your mother or granny has told you? Tell your group the story.

Does the story teach you a lesson? What lesson does it teach you?

Have you ever felt that you weren't able to do something but, when someone encouraged you, you found that you could do it? Tell your group what happened.

Let's read

A certain man went through a forest looking for any interesting bird that he could find. He caught a young eagle, brought it home and put it among his fowls and ducks and turkey, and gave it chicken food to eat even though it was an eagle, the king of the birds.

Five years later, a **biologist** came to see him, and after passing through his garden, said: 'That bird is an eagle, not a chicken.'

'Yes,' said its owner, 'but I have trained it to be a chicken. It is no longer an eagle; it is a chicken even though it measures four and a half metres from wingtip to wingtip.'

'No,' said the biologist, it is an eagle still: it has the heart of an eagle and I will make it fly high up in the sky.'

'That's impossible,' said the owner, 'it is a chicken and it will never fly.'

They agreed to test it. The biologist picked up the eagle, held it up and said, 'Eagle, you are an eagle; you belong to the sky and not to the earth. Stretch your wings and fly.'

The eagle turned this way and that, and then, looking down, saw the chickens eating their food, and down it jumped.

The owner said, 'I told you it was a chicken.'

'I still disagree,' said the biologist, it is an eagle. Give it another chance tomorrow.'

The next morning he rose early and took the eagle away from the city to the foot of a high mountain. He picked up the eagle and said, 'You are an eagle; you belong to the sky and not to this earth. Stretch your wings and fly.'

The eagle looked around and trembled as if new life were flowing into it. It stretched its wings and flapped them a few times. Suddenly with a screech of an eagle, it lifted itself into the air.

At first it was **clumsy**, and it **wobbled** as it flew. But soon it became more **graceful** and **confident**. It flew higher and higher into the sky until it was just a tiny dot in the distance. It never returned. It was an eagle, though it had been kept as a chicken.

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Let's write

Why do you think the eagle behaved like a chicken?

Do you think it would have behaved the same way if it had been older? Say why.

Why couldn't the eagle fly?

How do you think the eagle felt when it behaved like a chicken?

How do you think it felt when it was set free?

Why do you think this story was told?

What can we learn from the story?

What would you have done if you had seen the eagle?

Let's write

Match the words in the first column with their meanings in the second column. We have done one for you. Write the words in bold in your dictionary.

biologist
clumsy
graceful
wobbled
confident

awkward
elegant
trembled
self- assured; poised

More about the eagle

Let's write

We use comparisons to make our writing more exciting.
Match the comparisons with their meanings.

The young girl is a mouse

She is a lamb

She is an owl

He is an eagle in flight

He is a bull

very gentle

very strong

free and fast

very wise

very timid

Let's write

- dark brown wings
- white feathers on head
- brown feather on body
- white tail feathers
- yellow bill
- grey talons
- golden eyes

The lines on this drawing of the eagle are there so you can label it. Write the right word on each line. Use the words in the list to label the drawing. Then colour the eagle according to the instructions given.

Conditional sentences are used to show that the action in the main clause (without if) can only take place if a certain condition (in the clause with if) happens.

Complete these sentences by using the correct form of the verb.

If you _____ (let) the eagle go, then it _____ (fly) away.

If you _____ (treat) us like mice, then we _____ (behave) like mice.

If Paul _____ (buy) the food, then I _____ (feed) the chickens.

If Thandi _____ (cut) the onions, then Mojo _____ (wash) the lettuce.

Let's write

Fill in the adjectives that describe the eagle. Choose from some of these.

noble timid swift clever
mighty royal soaring commanding
impressive proud dignified ugly shy
untamed majestic imposing small tiny
dependent bold faithful powerful
independent

Let's write

Use the adjectives you chose to write two paragraphs about the eagle.

Some humorous writing

DATE

Let's read

Why would someone keep a diary?

Do you keep a diary? If you do, tell your group the kinds of things you write in your diary.

Do you keep a journal? What kinds of things do you write in your journal?

Let's write

Read this extract from a book called *DIARY of a Wimpy Kid* written by a child called Greg.

First of all, let me get something straight: This is a JOURNAL, not a diary. I know what it says on the cover, but when Mom went out to buy this thing I **SPECIFICALLY** told her to get one that didn't say "diary" on it. Great. All I need is for some 'silly idiot' to catch me carrying this book around and get the wrong idea.

The only reason I agreed to do this at all is because I figure later on when I'm rich and famous, I'll have better things to do than answer people's stupid questions all day long. So this book is going to come in handy.

Like I said, I'll be famous one day, but for now I'm stuck in middle school with a bunch of **morons**.

Let me just say for the record that I think middle school is the dumbest idea ever invented. You have got kids like me who haven't started growing yet mixed in with huge boys who need to shave twice a day.

And then they wonder why bullying is such a big problem in middle school. If it was up to me, grade levels would be based on height, not age. But then again, I guess that would mean kids like Chirag Gupta would still be in the first grade.

Man, I don't know what is up with girls these days. It used to be a whole lot simpler back in primary school. The deal was, if you were the fastest runner in your class, you got all the girls.

Nowadays, it's a whole lot more **complicated**. Now it's about the kind of clothes you wear or how rich you are.

Bryce Anderson is the most popular kid in our grade, so that leaves all the rest of us guys **scrambling** for the other spots. I think that I'm somewhere around 52nd or 53rd most popular this year. But the good news is that I'm about to move up one spot because Charlie Davies is above me, and he's getting his **braces** next week.

Do you think the title of the book is an eye-catching one? Say why.

Let's write

What do you think a wimp looks like? Write down at least two things.

Where does the story take place?

Whose idea was it that Greg should keep a diary?

Why is Greg writing in his "diary"?

Why does he call it a "journal", not a "diary"?

Why does Greg believe middle school is the "dumbest idea ever invented"?

Why did Greg think it was unfair that Bryce was now so popular with the girls in his grade?

Why did girls like boys when they were younger?

Now that they are older, why do girls like boys?

What does Greg believe grade levels should be based on? Tick the right answer.

A	Test Marks	<input type="checkbox"/>
B	Height	<input type="checkbox"/>
C	Weight	<input type="checkbox"/>
D	Age	<input type="checkbox"/>

Match the words in the first column with their meanings in the second column.
We have done one for you. Write the words in bold in your dictionary.

specifically	appliance to straighten teeth
scrambling	difficult
moron	pushing
complicated	stupid person
braces	definitely

Let's write

Complete these sentences. Use **must** or **have to**.

I go home because it is time for supper.

In South Africa we drive on the left-hand side of the road.

I look after my pets.

The principal told us we be at school in time for assembly.

Let's write

must is used when the speaker thinks an action is necessary:
e.g. I **must** do my homework first.
have to is used when someone else thinks the action is necessary:
The principal says I **have to** wear my school uniform.

Complete the storyboard below showing the events described in the extract from *DIARY of a Wimpy Kid*. Then write up your draft story and final story in your exercise book.

- Use a mind map to help you to plan your writing.
- Write a rough draft.
- Ask a friend to edit the draft.
- Revise your text and make the necessary corrections.
- Then write it neatly in your book.

Let's write

Underline the **past tense verbs** in blue.
Then, rewrite the passage in the present tense.

Sarah went to London to take part in the Olympic Games. She competed in the long distance running, which was just over 15 kilometres long. She had a team of runners to help her. The goal was to win the gold medal. She did her best at all times as she was the best in the world.

Remember when you write something in the past tense, other words also change:

eg: nowadays: then

this: that

next: previous

Let's write

Underline the **present tense verbs** in red.
Now, rewrite the passage in the past tense.

Nowadays, it's a whole lot more complicated. Now it's about the kind of clothes you wear or how rich you are. Bryce Anderson is the most popular kid in our grade, so that leaves all the rest of us guys scrambling for the other spots. I think that I'm somewhere around 52nd or 53rd most popular this year. But the good news is that I'm about to move up one spot because Charlie Davies is above me, and he's getting his braces next week.

55 Choosing a leader

Let's talk

Which person would you vote for?
Say why.

Do you have a class leader?

What does the class leader do?

Is the class leader elected by the
rest of the class?

If yes, what qualities do you look
for when you elect a class leader?

Let's read

Mpho couldn't wait to hear Ms Mathe's big **announcement**. She had a feeling that it had something to do with a class **contest**. Mpho loved contests. She didn't care what the prize was. She just liked to **compete** and more than that she liked to win.

"Okay, everyone," Ms Mathe said, "starting from today we will elect a class leader for each month. The person **elected** will help me pass out papers, **distribute** materials and write on the blackboard. He or she will also get to decide on the theme for the class project for that month."

Mpho could barely sit still. It was a contest. She had to win.

Ms Mathe held up a gold star badge. "The class leader will wear this badge during school hours."

Mpho's eyes widened. A shiny, gold badge! Everyone would know she was a winner if she wore that badge.

"This is a lot of responsibility," Ms Mathe said. "So I only want students to **nominate** themselves if they truly feel they are up to the task."

Mpho was barely listening anymore. She was picturing herself wearing the gold badge. Chalk scraped on the blackboard and Mpho turned to see Ms Mathe writing down a list of names.

"Does anyone else want to be nominated class leader for this month?" asked Ms Mathe.

Mpho's hand shot up in the air. "I want to be nominated," she said.

Ms Mathe added Mpho to the list.

Mpho scanned the names. Tembi's name was on it too. Mpho looked at her best friend sitting next to her.

"Good luck," Tembi said. "I would love to choose the class theme for the month. I have such a good idea for it!"

Before you read

- Look at the pictures and headings and try to predict what the text will be about.
- Skim the page to see what you will read about.

Mpho suddenly felt funny. Tembi didn't just want to win; she wanted to help the class.

"Would anyone like to tell the class why they want to be this month's class leader?" Ms Mathe asked.

Mpho raised her hand. "I think everyone should vote for Tembi. She has a great idea for the class project and she always helps Ms Mathe hand out the papers. She'd make a great class leader."

Everyone nodded.

"Thanks," said Tembi. "But I thought you wanted to be the class leader."

Mpho shrugged. "There's always next month."

Let's write

Read the questions and then write down the answers.

Why was Ms Mathe electing a class leader?

How did the class elect the class leader?

Why did Mpho want to become the class leader?

Do you think her reasons were good reasons? Say why.

Why did Tembi want to become class leader?

Do you think her reasons were good reasons? Say why.

What lesson did Mpho learn? Tick the right answer.

A	It is more important to win than keep your friends.	<input type="checkbox"/>
B	Friendship is more important than winning a contest.	<input type="checkbox"/>
C	Being class leader is a big responsibility	<input type="checkbox"/>
D	One should always offer to do new activities.	<input type="checkbox"/>

What would you have done if you were Mpho? Say why.

Going from place to place

Let's talk

Have you ever had to give someone directions?

Tell your group what happened.

Did you find it easy to give directions?

Did the person you were giving the directions to understand your instructions clearly or did she have to ask a lot of questions to make things clear?

Let's read

Look at this picture, which shows where Bheki lives. Bheki's cousin, Vusi, is visiting Bheki and does not know where to go. Help him.

Read the directions that Vusi must follow. Fill in the different places in the spaces provided. Walk out the front gate, turn left and enter the building on the corner that has a green roof.

Vusi is going to .

After school, turn left into Selby Road and enter the first building on your left hand side.

Vusi

Vusi has to go to the clinic. Write down the directions he has to take.

Vusi is going to visit Bheki's teacher. Where must he go?

Tell Vusi how to get to the playground.

How does Vusi get home after going to Church?

Let's write

Look at where Vusi is standing.
Complete these sentences.
Use the directions on the compass,
like north, south, east and west.

*Next to the street map is a compass.
The compass shows another kind of
direction: instead of using words like
left and right, you can use words like
north and south to show direction.*

Vusi is facing .

He needs to walk if he wants to go to the playground.

If Vusi wants to go to the post office he must go .

Let's write

Write questions for these statements.
Use the words in brackets.

Bheki is going to school on Monday. (Where)

Bheki is going to school on Monday. (When)

Bheki has to go to the clinic for an injection. (Why)

Vusi bought stamps at the post office. (What)

Vusi came to visit Bheki. (Who)

58 More about Bheki

Let's write

In the previous worksheet, you practised finding directions in the street where Bheki lives. Now you are going to look at a map of some of the places in South Africa.

See if you can give someone directions using words like north, south, east and west.

If you live in Mthatha, which direction must you go to get to Durban?

Which towns are to the east of Bloemfontein? and

From which town do you have to travel west to get to all the other towns on the map?

From Windhoek, which direction must you travel to get to Johannesburg?

Work out what direction you will have to take to get from Colesberg to:

Cape Town Mthatha Windhoek

Let's talk

Work in pairs.

Learner 1: Cover your map.

Learner 2: Give learner 1 clear directions for riding her bike from one place to another place on the map.

Learner 1: When learner 2 has given the instructions, uncover your map, repeat the directions and show the route on the map.

Inventing an appliance

You ask a friend to help you think of something you can invent to help you with your tasks at home. She tells you to write down a list of all the things you have to do each day like making your bed, setting the table, cleaning your room or making breakfast. She then tells you to think of the parts of the job you don't like doing and to replace those parts with interesting things.

Do what your friend has told you to do.

Example:

Task	What I find horrible	How I can make the task more interesting
Washing dishes	Scraping bits off the plates	Make a mechanical arm that does it for me

Let's talk

Look at the picture and talk about what you see.
Do you help with the cooking at home?
What is your favourite recipe?
Is it easy or difficult to make? Tell the class how to make it.

Let's write

Let's make a porcupine sandwich.
It's not really made from porcupines so don't worry!
When you have finished your porcupine, make a drawing of it in the blank space.

What you need

3 slices of bread
Margarine
Peanut butter
6 raisins
20 thin carrot sticks

What you must do

1. Shape the slices of bread into a ball.
2. Roll the ball of bread in margarine.
3. Next, roll the ball of bread in peanut butter.
4. Use two of the raisins for the eyes, one raisin for the nose and three raisins for the mouth.
5. Stick the thin carrot sticks into the bread ball.
6. You have just made a porcupine sandwich!

Eat and enjoy!

My porcupine sandwich

Let's write

How much bread did you use to make a porcupine sandwich?

What did you cover the bread with?

What did you use to make the nose, eyes and mouth?

What did you use to make the quills?

What shape is your porcupine?

Did you enjoy your porcupine sandwich? Say why.

Delicious dates

My friend wrote down the recipe for date sweets.
Look at how she wrote it down.

Date balls

Ingredients

- (1) 2 cups corn flakes
- (2) $\frac{3}{4}$ cups chilled dates
- (3) $\frac{1}{2}$ cup pecan nuts
- (4) 2 tablespoons honey
- (5) 1 tablespoon butter
- (6) 2 teaspoons orange juice
- (7) icing sugar
- (8) pecan halves
- (9) bowl

Method

Grind 1, 2 and 3 till fine
 Add 4, 5 and 6
 Stir mixture in 9
 Shape into 1.5 cm balls
 Roll in 7
 Top with 8

Underline all the verbs in blue.

My mother wants to make the date balls for me but can't follow the recipe. Write a paragraph, using your friend's recipe to explain to your mother what to do.

Let's write

Use the conjunctions to join these sentences.

I want to go to a film. I haven't done my homework. (but)

I wash my hands. There are many germs. (because)

I go to gym. I will get fit. (so that)

Germany is in Europe. Egypt is in Africa. (but)

I sometimes make chicken with ginger. I love spicy food. (because)

You use **but** to combine two different pieces of information

e.g., It's nice, but short.

You use **so that** to say that the second piece of information is the result of the first piece.

e.g. I do my homework so that I can do well at school

You use **because** to tell the reason of something.

e.g. We are staying at home because the weather is cold.
