In view of the stringent time requirements encountered by the Department of Basic Education to effect the necessary editorial changes and layout to the Curriculum and Assessment Policy Statements and the supplementary policy documents, possible errors may occur in the said documents placed on the official departmental websites.

There may also be vernacular inconsistencies in the language documents at Home-, First and Second Additional Language levels which have been translated in the various African Languages. Please note that the content of the documents translated and versioned in the African Languages are correct as they are based on the English generic language documents at all three language levels to be implemented in all four school phases.

If any editorial, layout or vernacular inconsistencies are detected, the user is kindly requested to bring this to the attention of the Department of Basic Education.

## FOREWORD BY THE MINISTER

Our national curriculum is the culmination of our efforts over a period of seventeen years to transform the curriculum bequeathed to us by apartheid. From the start of democracy we have built our curriculum on the values that inspired our Constitution (Act 108 of 1996). The Preamble to the Constitution states that the aims of the Constitution are to:

- heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;
  - improve the quality of life of all citizens and free the potential of each person;
  - lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; and
- build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

Education and the curriculum have an important role to play in realising these aims.

In 1997 we introduced outcomes-based education to overcome the curricular divisions of the past, but the experience of implementation prompted a review in 2000. This led to the first curriculum revision: the *Revised National Curriculum Statement Grades R-9* and the *National Curriculum Statement Grades 10-12* (2002).

Ongoing implementation challenges resulted in another review in 2009 and we revised the *Revised National Curriculum Statement* (2002) and the *National Curriculum Statement Grades 10-12* to produce this document.

From 2012 the two National Curriculum Statements, for *Grades R-9* and *Grades 10-12* respectively, are combined in a single document and will simply be known as the *National Curriculum Statement Grades R-12*. The *National Curriculum Statement for Grades R-12* builds on the previous curriculum but also updates it and aims to provide clearer specification of what is to be taught and learnt on a term-by-term basis.

The *National Curriculum Statement Grades R-12* represents a policy statement for learning and teaching in South African schools and comprises of the following:

- (a) Curriculum and Assessment Policy Statements (CAPS) for all approved subjects listed in this document;
- (b) *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*; and
- (c) *National Protocol for Assessment Grades R-12*.

# SECTION 1: INTRODUCTION TO THE CURRICULUM AND ASSESSMENT POLICY STATEMENT

## 1.1 BACKGROUND

The *National Curriculum Statement Grades R-12 (NCS)* stipulates policy on curriculum and assessment in the schooling sector.

To improve implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive Curriculum and Assessment Policy document was developed for each subject to replace Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R-12.

## 1.2 OVERVIEW

- (a) The *National Curriculum Statement Grades R-12 (January 2012)* represents a policy statement for learning and teaching in South African schools and comprises the following:
- (i) *Curriculum and Assessment Policy Statements for each approved school subject;*
  - (ii) *The policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
  - (iii) *The policy document, National Protocol for Assessment Grades R-12 (January 2012).*
- (b) The *National Curriculum Statement Grades R-12 (January 2012)* replaces the two current national curricula statements, namely the
- (i) *Revised National Curriculum Statement Grades R-9, Government Gazette No. 23406 of 31 May 2002, and*
  - (ii) *National Curriculum Statement Grades 10-12 Government Gazettes, No. 25545 of 6 October 2003 and No. 27594 of 17 May 2005.*
- (c) The national curriculum statements contemplated in subparagraphs b(i) and (ii) comprise the following policy documents which will be incrementally repealed by the *National Curriculum Statement Grades R-12 (January 2012)* during the period 2012-2014:
- (i) *The Learning Area/Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R-9 and Grades 10-12;*
  - (ii) *The policy document, National Policy on assessment and qualifications for schools in the General Education and Training Band, promulgated in Government Notice No. 124 in Government Gazette No. 29626 of 12 February 2007;*
  - (iii) *The policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), promulgated in Government Gazette No.27819 of 20 July 2005;*

- (iv) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in Government Gazette, No.29466 of 11 December 2006, is incorporated in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
- (v) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment (Grades R-12), promulgated in Government Notice No.1267 in Government Gazette No. 29467 of 11 December 2006.*
- (d) The policy document, *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*, and the sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the *National Curriculum Statement Grades R-12*. It will therefore, in terms of *section 6A of the South African Schools Act, 1996 (Act No. 84 of 1996)*, form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.

### 1.3 GENERAL AIMS OF THE SOUTH AFRICAN CURRICULUM

- (a) The *National Curriculum Statement Grades R-12* gives expression to the knowledge, skills and values worth learning in South African schools. This curriculum aims to ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes knowledge in local contexts, while being sensitive to global imperatives.
- (b) The National Curriculum Statement Grades R-12 serves the purposes of:
- equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;
  - providing access to higher education;
  - facilitating the transition of learners from education institutions to the workplace; and
  - providing employers with a sufficient profile of a learner's competences.
- (c) The National Curriculum Statement Grades R-12 is based on the following principles:
- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;
  - Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;
  - High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and set high, achievable standards in all subjects;
  - Progression: content and context of each grade shows progression from simple to complex;

- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades R-12 is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;
  - Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
  - Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.
- (d) The National Curriculum Statement Grades R-12 aims to produce learners that are able to:
- identify and solve problems and make decisions using critical and creative thinking;
  - work effectively as individuals and with others as members of a team;
  - organise and manage themselves and their activities responsibly and effectively;
  - collect, analyse, organise and critically evaluate information;
  - communicate effectively using visual, symbolic and/or language skills in various modes;
  - use science and technology effectively and critically showing responsibility towards the environment and the health of others; and
  - demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.
- (e) Inclusivity should become a central part of the organisation, planning and teaching at each school. This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education's *Guidelines for Inclusive Teaching and Learning* (2010).

## SECTION 2: CURRICULUM AND ASSESSMENT POLICY FOR CREATIVE ARTS

### 2.1 WHAT IS CREATIVE ARTS?

The subject Creative Arts provides exposure to and study of a range of art forms including dance, drama, music and visual arts (including design and crafts) from Grade R to Grade 9. The main purpose of the subject Creative Arts is to develop learners as creative, imaginative individuals who appreciate the arts and who have the basic knowledge and skills to participate in arts activities and to prepare them for possible further study in the art forms of their choice in Further Education and Training (FET).

### 2.2 SPECIFIC AIMS

The intention of the subject Creative Arts is to:

- develop creative, expressive and innovative individuals and teams;
- provide learners with exposure to and experiences in dance, drama, music and visual arts;
- provide access to basic arts education for all learners;
- identify and nurture artistic talent, aptitude and enthusiasm;
- equip learners with adequate basic skills to pursue further studies in the art forms of their choice;
- develop an awareness of arts across diverse cultures;
- expose learners to the range of careers in the arts;
- develop arts literacy and appreciation;
- develop future audiences and arts consumers; and
- develop life skills through the arts.

#### Dance

The study of dance in the Senior Phase as part of Creative Arts focuses on providing opportunities for learners to experience the joy of dancing, to learn how to use their bodies safely, to develop their fitness for dancing and to develop sufficient basic skills to equip them for selecting Dance Studies as a subject in FET. Through improvisation and composition, learners of dance begin to explore and create their own movement sequences and begin to appreciate dance as a creative art. Since dance learning is both circular and linear, the same topics are repeated throughout the year, and in each subsequent year, with increasing complexity. Developing skills such as coordination, strength, flexibility, stamina, endurance and control takes a long time and requires regular practice.

#### Drama

The study of drama in Creative Arts gives learners tools to represent human experiences in dramatic form, through processes of participation, collaboration, exploration and presentation. Drama encourages the creative exploration of themes and issues, creates a safe context for this exploration, and provides opportunities to reflect on the insights

gained in the process. Learners appreciate and interpret a wide range of dramatic works both published and created in the class. The focus on physical and vocal warm-up activities is vital because these activities not only help to prevent injury, but also develop physical awareness, coordination and strength over time. Since the body and voice are the primary means of communication and expression in drama, they must be used safely and effectively. An important aspect of drama is the development of classroom performances (through improvisation/playmaking processes) based on a specific stimulus. In drama, the learner explores the motivation and the relationships between people in a real, imagined or historical context, to help him or her understand the world. The learner is encouraged to make decisions and to take responsibility for those decisions within the safe context of the drama.

### **Music**

The study of music in Creative Arts aims to develop the ability to perform a variety of vocal and instrumental music in group and solo contexts. In addition, learners are exposed to the written and aural language of music through reading and writing music. Furthermore, the subject aims to develop the ability to create new music through improvising and composing, using both conventional and non-conventional compositional techniques. The content also enables learners to become informed listeners of music by actively listening to a variety of music ranging from Western, indigenous and popular music. If learners wish to study Music in the FET band, special effort should be made for them to develop the ability to perform instrumentally or vocally at an elementary level and have a good sense of rhythm and pitch. They should also be able to read staff notation at the end of Grade 9.

### **Visual Arts**

Constant exposure to the content, concepts and skills of visual arts, through a range of different activities that vary in depth and breadth, will help learners develop a rich visual language and related skills. Critical and reflective thinking skills are developed, and learners reap enormous satisfaction from being able to express themselves in symbolic, visual ways. Progression in the visual arts is both cyclical and linear. Teaching should be age appropriate and sensitive to the development of genuine creativity. For those learners who wish to select FET Design or Visual Arts as subjects to study in the FET band, the study of Visual Arts in Senior Phase is crucial to equip them with the necessary foundational skills.

## **2.3 TIME ALLOCATION FOR CREATIVE ARTS IN THE CURRICULUM**

### **Senior Phase**

In Grades 7, 8 and 9, Creative Arts is allocated two hours per week. To allow for depth of study and to prepare them for arts subject choices from Grade 10 to Grade 12, learners study only **TWO** art forms.

#### **Selection of art forms in Senior Phase**

The selection of art forms in Senior Phase will be determined by each school, based on the following criteria:

- Availability of the minimum facilities and resources required for the subject
- Availability of specialist arts teachers on the staff or accessible to the school (e.g. itinerant teachers, parents, community artists)
- Learner abilities/talents and preferences

In selecting which art forms to offer, schools should be cognisant of the demands of the art form in allocating or selecting learners.

**Pathways**

Schools can offer a number of different Creative Arts pathways, depending on the criteria above, e.g.:

1. Dance and Drama
2. Dance and Music
3. Dance and Visual Arts
4. Drama and Music
5. Drama and Visual Arts
6. Music and Visual Arts

**Staffing**

- Learners could be taught both art forms by the same teacher capable of teaching both art forms (2 hours per week) or each of the two art forms could be taught by a specialist in each art form (1 hour per week each). The art forms should be taught throughout the year and not in half-year modules.
- Schools that offer some or all of the arts subjects in FET will have access to specialist teachers, facilities and resources in those subjects.
- Schools that have no arts specialists and do not offer any arts subjects in FET can decide, in consultation with the school management team, staff and governing body, which art forms they will offer. Teachers responsible for teaching Creative Arts in these schools will need to undergo intensive and ongoing training in one or two art forms.

**Learner pathway selection**

Learners should select or be selected according to their abilities in the art forms and their preferences. It would be preferable for learners to begin to specialise as early as possible but learners *with potential* who have not had access to an art form in Grade 7 and who wish to select it in Grade 8 or 9, should not be excluded.

**Availability of the minimum facilities and resources required for the subjects**

In selecting which art forms schools will offer in the Senior Phase, the following minimum resources are required:

ART FORM	MINIMUM FACILITIES	RESOURCES
Dance	Dance studio or hall or double classroom (open space preferably with a sprung wood floor)	Music system with CD player/iPod
Drama	Large classroom or hall	Music system
Music	Normal classroom and space for practice	Music system, musical instruments
Visual Arts	Art room or appropriate space	Arts equipment, consumables

### Timetabling for the Senior Phase Creative Arts pathways

To ensure continuity and skills development, the two selected art forms should be taught throughout the year rather than in half-year blocks in Grades 7, 8 and 9. For example, in Dance it is essential to dance consistently every week to build strength, flexibility, stamina and control. Learners should have a minimum of ten contact teaching hours per art form per term during school time and at least once per week per art form after school. The continuity of regular practice at least twice per week is necessary to build skills. This applies especially to learners who are keen to study arts subjects in FET.

Due to the practical nature of the arts, these subjects need one-hour periods for learning to be effective. For dance and drama, sufficient time is needed to change into relevant clothing, to warm up, to have time to develop the practical work, to cool down and to change back into school uniform. For Visual Arts and Music, time is needed to set up, work practically and clean up. The time could be allocated in a block of double or triple periods.

It is often a good idea to place Creative Arts lessons before a break or at the end of the day so that learners can continue for longer than would be possible at other times.

Timetabling will depend on various factors, such as the number of classes in a grade, the number of Creative Arts teachers and the number of learners per pathway.

It is highly recommended that high schools offering the arts subjects in FET select learners for pathways in Grades 8 and 9 according to ability and interest, to ensure that they have sufficient basic skills to qualify for entry into the arts subjects in Grade 10.

Below are a few suggestions for timetabling in a high school:

#### A) Arts pathways classes towards FET

In this scenario, learners are assigned to Grade 8 and Grade 9 classes according to their art subject choices, e.g.:

- Grade 8A & Grade 9A are Dance and Drama learners
- Grade 8B & Grade 9B are Dance and Music learners
- Grade 8C & Grade 9C are Music and Visual Arts learners
- Grade 8D & Grade 9D are Dance and Visual Arts learners
- Grade 8E & Grade 9E are Music and Drama learners
- Grade 8F & Grade 9F are Drama and Visual Arts learners

In this case, the classes can be timetabled across the school day.

**B) Creative Arts timetable block**

In this scenario Grade 8 and Grade 9 classes are not assigned according to their arts choices. Two or three consecutive periods per week each are blocked off for Grades 8 and 9, and all the learners in the grades divide up into whichever pathway they are following at this time.

**Rationale for the organisation of the content**

Since arts learning is both circular and linear, the same topics are repeated throughout the year, and in each subsequent year, with increasing complexity. It takes a long time to build up skills and it requires regular practice.

The nature of progression in skills is found in the following:

- introducing new concepts and skills
- increasing vocabulary in the arts form
- increasing the ability to listen well, respond to instructions and work with others
- increasing skills in the art forms
- increasing confidence, self-discipline, focus and creativity

## 2.4 OVERVIEW OF TOPICS

### 2.4.1 Dance

A dance curriculum cannot address the needs of every dance form. In line with international parity, this curriculum has been written with the three most popular dance forms in South Africa in mind: African dance, classical ballet and contemporary dance. If other dance forms are considered, the Department of Basic Education (DBE) should be provided with details of precisely how the dance form would be adapted to fit the needs of the curriculum.

## SECTION 4: ASSESSMENT

### 4.1 INTRODUCTION

Assessment is a continuous planned process of identifying, gathering and interpreting information about the performance of learners, using various forms of assessment. It involves four steps: generating and collecting evidence of achievement; evaluating this evidence; recording the findings and using this information to understand and thereby assist the learner's development in order to improve the process of learning and teaching.

Assessment should be both informal (assessment for learning) and formal (assessment of learning). In both cases regular feedback should be provided to learners to enhance the learning experience.

In Creative Arts the approach to assessment and feedback should be constructive and encouraging to build learners' confidence. Great care should be taken to avoid negative, hurtful or personal remarks. The emphasis in the Creative Arts in the Senior Phase should be mostly on practical assessments rather than written examinations.

*Due to the short time allocated for each art form (1 hour per week), assessments must be part of learning and not seen as separate event.*

### 4.2 INFORMAL DAILY ASSESSMENT

The purpose of assessment for learning is to continuously collect information on learners' achievements. This information is then used to improve their learning.

Informal assessment is the daily monitoring of learners' progress. This is done through observations, discussions, practical demonstrations, learner-teacher conferences, informal classroom interactions, etc. Informal assessment may be as simple as stopping during the lesson to observe learners or to discuss with learners how learning is progressing. Informal assessment should be used to provide feedback to the learners and to inform planning for teaching, but need not be recorded. It should not be seen as separate from learning activities taking place in the classroom. Learners or teachers can mark these assessment tasks.

Self-assessment and peer assessment actively involve learners in assessment. This is important as it allows learners to learn from and reflect on their own performance. The results of the informal daily assessment tasks are not formally recorded unless the teacher wishes to do so. The results of daily assessment tasks are not taken into account for promotion and certification purposes.

### 4.3 FORMAL ASSESSMENT

All assessment tasks that make up a formal programme of assessment for the year are regarded as formal assessment. Formal assessment tasks are marked and formally recorded by the teacher for progression and certification purposes. All formal assessment tasks are subject to moderation for the purpose of quality assurance and to ensure that appropriate standards are maintained.

Formal assessment provides teachers with a systematic way of evaluating how well learners are progressing in a grade and in a particular subject. Examples of formal assessments include tests, examinations, practical tasks, projects, oral presentations, demonstrations and performances. Formal assessment tasks form part of a year-long formal programme of assessment in each grade and subject.

The forms of assessment used should be appropriate for the age and developmental level of the learners. The design of these tasks should cover the content of the subject and include a variety of tasks designed to achieve the objectives of the subject.

Formal assessments must cater for a range of cognitive levels and abilities of learners as shown below:

COGNITIVE LEVELS	ACTIVITY	PERCENTAGE OF TASK
Low	Repetitive skills in each art form	30%
Medium	Application of skills Analysis of artworks Written assignments requiring comprehension	40%
High	Creative work; synthesis of skills and knowledge into arts works; evaluation of arts works	30%

In Senior Phase, Creative Arts learners do formal assessments in each of their two selected art forms.

Practical work: Assessment should track progress through class observation of practical work and build up to a final practical assessment task in each art form in the fourth term.

Written work: Due to the shortage of time, written assessments are limited to one written assignment/test per art form per year and an end-of-year written examination paper.

#### 4.4 PROGRAMME OF ASSESSMENT

The programme of assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

In the Senior Phase, school-based assessment counts for 40% and the end-of-year examination count for 60%.

The requirements (number and nature of tasks) and weighting for Creative Arts are indicated below:

**4.5 RECORDING AND REPORTING**

Recording is a process whereby the teacher documents the level of a learner's performance in a specific assessment task. It indicates learner progress in obtaining the knowledge as prescribed in the Curriculum and Assessment Policy Statements. Records of learner performance should provide evidence of the learner's conceptual progression within a grade and her/his readiness to be promoted to the next grade. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

Reporting is a process of communicating learner performance to learners, parents, schools and other stakeholders. Learner performance can be reported in a number of ways, such as report cards, parents' meetings, school visitation days, parent-teacher conferences, phone calls, letters and class or school newsletters. Teachers in all grades report in percentages against the subject. Seven levels of competence have been described for each subject listed for Grades R – 12. The various achievement levels and their corresponding percentage bands are as shown in the table below.

**CODES AND PERCENTAGES FOR RECORDING AND REPORTING**

RATING CODE	DESCRIPTION OF COMPETENCE	PERCENTAGE
7	Outstanding achievement	80 – 100
6	Meritorious achievement	70 – 79
5	Substantial achievement	60 – 69
4	Adequate achievement	50 – 59
3	Moderate achievement	40 – 49
2	Elementary achievement	30 – 39
1	Not achieved	0 – 29

NOTE: The seven-point scale should have clear descriptors that give detailed information for each level. Teachers will record actual marks against the task by using a record sheet and report percentages or codes against the subject on the learners' report cards.

Here are examples of recording schedules for Grades 7, 8 and 9 with two art forms

**4.6 MODERATION OF ASSESSMENT**

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

Since Senior Phase assessment is school based, it is very important for provincial and national departments to set standards across provinces and across schools.

Creative Arts moderation should include:

- cluster standard setting;
- internal moderation by the school management team;
- sample face moderation of practical work on site for Grade 7 – 9; and
- external cluster moderation in Grade 9.

Standard setting, face moderation and cluster moderation can be conducted by lead teachers or by district/provincial officials.
