## FOREWORD BY THE MINISTER

Our national curriculum is the culmination of our efforts over a period of seventeen years to transform the curriculum bequeathed to us by apartheid. From the start of democracy we have built our curriculum on the values that inspired our Constitution (Act 108 of 1996). The Preamble to the Constitution states that the aims of the Constitution are to:

- heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;
  - improve the quality of life of all citizens and free the potential of each person;
  - lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; and
- build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

Education and the curriculum have an important role to play in realising these aims.

In 1997 we introduced outcomes-based education to overcome the curricular divisions of the past, but the experience of implementation prompted a review in 2000. This led to the first curriculum revision: the *Revised National Curriculum Statement Grades R-9* and the *National Curriculum Statement Grades 10-12* (2002).

Ongoing implementation challenges resulted in another review in 2009 and we revised the *Revised National Curriculum Statement* (2002) and the *National Curriculum Statement Grades 10-12* to produce this document.

From 2012 the two National Curriculum Statements, for *Grades R-9* and *Grades 10-12* respectively, are combined in a single document and will simply be known as the *National Curriculum Statement Grades R-12*. The *National Curriculum Statement for Grades R-12* builds on the previous curriculum but also updates it and aims to provide clearer specification of what is to be taught and learnt on a term-by-term basis.

The *National Curriculum Statement Grades R-12* represents a policy statement for learning and teaching in South African schools and comprises of the following:

- (a) Curriculum and Assessment Policy Statements (CAPS) for all approved subjects listed in this document;
- (b) *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*; and
- (c) *National Protocol for Assessment Grades R-12*.

## SECTION 1

### INTRODUCTION TO THE CURRICULUM AND ASSESSMENT POLICY STATEMENTS FOR TOURISM GRADES 10-12

#### 1.1 Background

The *National Curriculum Statement Grades R-12 (NCS)* stipulates policy on curriculum and assessment in the schooling sector.

To improve implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive Curriculum and Assessment Policy document was developed for each subject to replace Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R-12.

#### 1.2 Overview

- (a) The *National Curriculum Statement Grades R-12 (January 2012)* represents a policy statement for learning and teaching in South African schools and comprises the following:
- (i) *Curriculum and Assessment Policy Statements for each approved school subject;*
  - (ii) *The policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
  - (iii) *The policy document, National Protocol for Assessment Grades R-12 (January 2012).*
- (b) The *National Curriculum Statement Grades R-12 (January 2012)* replaces the two current national curricula statements, namely the
- (i) *Revised National Curriculum Statement Grades R-9, Government Gazette No. 23406 of 31 May 2002, and*
  - (ii) *National Curriculum Statement Grades 10-12 Government Gazettes, No. 25545 of 6 October 2003 and No. 27594 of 17 May 2005.*
- (c) The national curriculum statements contemplated in subparagraphs b(i) and (ii) comprise the following policy documents which will be incrementally repealed by the *National Curriculum Statement Grades R-12 (January 2012)* during the period 2012-2014:
- (i) *The Learning Area/Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R-9 and Grades 10-12;*
  - (ii) *The policy document, National Policy on assessment and qualifications for schools in the General Education and Training Band d, promulgated in Government Notice No. 124 in Government Gazette No. 29626 of 12 February 2007;*
  - (iii) *The policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), promulgated in Government Gazette No.27819 of 20 July 2005;*

- (iv) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in Government Gazette, No.29466 of 11 December 2006, is incorporated in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
- (v) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment (Grades R-12), promulgated in Government Notice No.1267 in Government Gazette No. 29467 of 11 December 2006.=*
- (d) The policy document, *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*, and the sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the *National Curriculum Statement Grades R-12*. It will therefore, in terms of *section 6A of the South African Schools Act, 1996 (Act No. 84 of 1996,)* form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.

### 1.3 General aims of the South African Curriculum

- (a) The *National Curriculum Statement Grades R-12* gives expression to the knowledge, skills and values worth learning in South African schools. This curriculum aims to ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes knowledge in local contexts, while being sensitive to global imperatives.
- (b) The National Curriculum Statement Grades R-12 serves the purposes of:
- equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;
  - providing access to higher education;
  - facilitating the transition of learners from education institutions to the workplace; and
  - providing employers with a sufficient profile of a learner's competences.
- (c) The National Curriculum Statement Grades R-12 is based on the following principles:
- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;
  - Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;
  - High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and set high, achievable standards in all subjects;
  - Progression: content and context of each grade shows progression from simple to complex;

- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades R-12 is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;
  - Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
  - Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.
- (d) The National Curriculum Statement Grades R-12 aims to produce learners that are able to:
- identify and solve problems and make decisions using critical and creative thinking;
  - work effectively as individuals and with others as members of a team;
  - organise and manage themselves and their activities responsibly and effectively;
  - collect, analyse, organise and critically evaluate information;
  - communicate effectively using visual, symbolic and/or language skills in various modes;
  - use science and technology effectively and critically showing responsibility towards the environment and the health of others; and
  - demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.
- (e) Inclusivity should become a central part of the organisation, planning and teaching at each school. This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education's *Guidelines for Inclusive Teaching and Learning* (2010).

## 1.4 Time Allocation

### 1.4.1 Foundation Phase

(a) The instructional time in the Foundation Phase is as follows:

SUBJECT	GRADE R (HOURS)	GRADES 1-2 (HOURS)	GRADE 3 (HOURS)
Home Language	10	8/7	8/7
First Additional Language		2/3	3/4
Mathematics	7	7	7
Life Skills	<b>6</b>	<b>6</b>	<b>7</b>

• Personal and Social Well-being	(1)	(1)	(1)
<b>TOTAL</b>	<b>23</b>	<b>23</b>	<b>25</b>

(b) Instructional time for Grades R, 1 and 2 is 23 hours and for Grade 3 is 25 hours.

(c) Ten hours are allocated for languages in Grades R-2 and 11 hours in Grade 3. A maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 2 hours and a maximum of 3 hours for Additional Language in Grades 1-2. In Grade 3 a maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 3 hours and a maximum of 4 hours for First Additional Language.

(d) In Life Skills Beginning Knowledge is allocated 1 hour in Grades R-2 and 2 hours as indicated by the hours in brackets for Grade 3.

### 1.4.2 Intermediate Phase

(a) The instructional time in the Intermediate Phase is as follows:

SUBJECT	HOURS
Home Language	6
First Additional Language	5
Mathematics	6
Natural Sciences and Technology	3,5
Social Sciences	3
Life Skills	<b>4</b>

<b>TOTAL</b>	<b>27,5</b>

### 1.4.4 Grades 10-12

(a) The instructional time in Grades 10-12 is as follows:

SUBJECT	TIME ALLOCATION PER WEEK (HOURS)
Home Language	4.5
First Additional Language	4.5
Mathematics	4.5
Life Orientation	2
A minimum of any three subjects selected from <b>Group B</b> <u>Annexure B, Tables B1-B8</u> of the policy document, <i>National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12</i> , subject to the provisos stipulated in paragraph 28 of the said policy document.	12 (3x4h)
<b>TOTAL</b>	<b>27,5</b>

The allocated time per week may be utilised only for the minimum required NCS subjects as specified above, and may not be used for any additional subjects added to the list of minimum subjects. Should a learner wish to offer additional subjects, additional time must be allocated for the offering of these subjects.

## SECTION 2

**2.1 The subject Tourism**

Tourism is the study of the activities, services and industries that deliver a travel experience to groups or individuals. It is the study of the expectations and behaviour of tourists, and the economic, social and environmental impact of tourism on South Africa

The table below indicates the main topics in the Tourism curriculum:

1	Tourism sectors
2	Map work and tour planning
3	Tourism attractions
4	Sustainable and responsible tourism
5	Domestic, regional and international tourism ( <i>in and out of South Africa</i> )
6	Culture and heritage tourism
7	Foreign exchange
8	Communication and customer care
9	Marketing

**2.2 Specific aims of Tourism**

In the subject Tourism learners will study

- different types of tourists and the purpose of their travelling;
- the different tourism sectors, with special reference to transport, hospitality, travel organising and support services, and the attraction sector;
- map work;
- foreign exchange concepts and the buying power of different foreign currencies;
- the influence of world time zones on travel;
- South Africa and the SADC countries as tourism destinations;
- world famous icons and World Heritage Sites;
- sustainable and responsible tourism;
- marketing of tourism products;
- technology in tourism;
- customer care and the value of service excellence; and
- tour planning.

### 2.3 Time allocation for the subject Tourism in the curriculum

The compulsory teaching time for Tourism is four hours per week. As this subject involves practical work which makes up 25% of the end-of-year promotion or certification mark, the timetable should make provision for one double period of 80 – 90 minutes per week during which learners can do practical work.

### 2.4 Requirements to offer the subject Tourism

#### 2.4.1 What each learner should have

- a textbook
- Grade 10: a good quality colour road map of South Africa, indicating cities, towns, airports, harbours, etc. A map of the local area or city is recommended.
- Grade 11: a good quality colour map of the SADC countries, indicating cities, towns, airports, harbours, etc.
- Grade 12: a political map of the world and a time zone map with the major cities of the world
- access to the White Paper on the Promotion and Development of Tourism in South Africa (1996) and the latest version of the Tourism Growth Strategy,
- access to a variety of tourism magazines, brochures, tourist maps and advertising booklets such as hotel brochures, booklets and maps of South Africa's National Parks (SANParks)

It is recommended that the school subscribe to at least one tourism industry magazine and /or travel magazine, to keep the teacher informed about new developments and the latest trends in the tourism industry. These resources must be available in the classroom and not in the library. These magazines can also be accessed and read on the internet.

#### 2.4.2 Recommendations for the teacher

The teacher should have access to e-mail facilities and the internet. Because tourism is a dynamic industry with changing trends and developments, it is essential for the teacher to source, download and print relevant and new information, such as flight schedules, car-hire packages, tour packages, etc.

#### 2.4.3 Recommendations for the Tourism classroom

A school should have a permanent classroom for tourism, not shared with other teachers.

It is recommended that the Tourism classroom

- has a magazine or brochure stand, shelving or similar facilities for storage or displays;
- has a political globe of the world to facilitate teaching of topics such as time zones and tourist attractions; and
- be equipped with audio-visual equipment such as a laptop, data projector and DVD player to view subject-related DVDs.

**The Tourism classroom should be secure**, with doors that can be locked, and burglar-proofing where possible. Enough cupboards should be available for safe storage of resources.

### 3.2 Teaching plans

- Each week/five-day cycle has a compulsory time allocation of four hours for the subject Tourism. The volume of the content in a particular week is an approximate indication of how long it would take to teach this content, and includes other class activities such as informal and formal assessment, working on a project and the practical assessment task (PAT).
- Teaching plans are developed to be completed over a period of four terms consisting of ten weeks each. Teachers should align their work schedules to the number of weeks in each term according to the school calendar of the specific year
- The teaching plan indicates the framework of the content for the four hours of each week/five-day cycle, and includes *informal* assessment and *formal* assessment (SBA). The **sequence in which the content is taught within the term is not compulsory** and can be taught in any appropriate sequence.
- **It is compulsory to teach the content in the term indicated.**
- The following must be incorporated throughout the teaching of Tourism, whether it is indicated in the annual teaching plan or not:
  - Awareness of career opportunities
  - Awareness of service excellence
  - Awareness of South Africa as a tourist destination

## SECTION 4

## 4.1 Assessment in Tourism

Assessment comprises two different but related activities: informal assessment and formal assessment.

## 4.2 Informal assessment

- The informal assessment tasks are the planned teaching and learning activities that take place in the classroom. Learner progress should be monitored during learning activities. This informal monitoring of progress can be done through questions and answers, short activities/written work completed during the lesson, open-book tests and homework exercises on, for instance, map work, calculations on time zones, foreign exchange and tour budgets. Informal assessment should not be separate from the learning activities taking place in the classroom.
- Learners or teachers can mark these assessment tasks. Self-assessment and peer assessment actively involves learners in assessment. This is important as it allows learners to learn from and reflect on their own performance.
- The results of the informal assessment tasks are not formally recorded, unless the teacher wishes to do so. In such instances, a simple checklist may be used to record this assessment. Teachers may use the learners' performance in these assessment tasks to provide verbal or written feedback to learners, the school management team and parents. This is particularly important if barriers to learning or poor levels of participation are encountered.
- The results of informal assessment tasks are not taken into account for promotion and certification purposes.

## 4.3 Formal assessment

- For the subject Tourism, six formal assessment tasks per year are required. These six tasks are completed during the school year and constitute 25% of the total marks for Tourism.
- In Grades 10 and 11 all assessment is internal.
- In Grade 12 the formal assessment (25%) is internally set and marked but externally moderated.
- The end-of-year assessment (75%) in Grade 12 is externally set, marked and moderated.
- The end-of-year assessment component for all grades includes two parts: a practical assessment task (PAT) (25%) and a written theory paper (50%). Together, these two components constitute the end-of-year examination mark (75%).

Formal assessment Grades 10 and 11			
Term 1	Term 2	Term 3	Term 4: Promotion mark
Test 75% Project 25%	Test 25% Midyear examination 75%	Test 75% Test/open-book test 25%	SBA = Term 1+2+3 = 300÷3 =100 PAT 1 + 2 = 50X2 =100 Examination paper = 200
<b>100</b>	<b>100</b>	<b>100</b>	<b>400÷4= 100</b>

Formal assessment Grade 12						
Term 1		Term 2		Term 3		Term 4: Certification mark
Test	75%	Test	25%	Test	25%	Term 1+2+3 = $300 \div 3 = 100$ PAT 1 + 2 = $200 \div 2 = 100$ Examination paper = 200
Project	25%	*Midyear examination	75%	*Trial examination	75%	
<b>100</b>		<b>100</b>		<b>100</b>		$400 \div 4 = 100$

\*In Grade 12, only one internal examination is compulsory. Schools may therefore

- write both examinations; or
- replace one of the examinations with a test at the end of the term. This test will have the same weighting as the examination, and must cover a substantial amount of work.

#### 4.4 Types of assessment

##### 4.4.1 Projects and field trip assignments

Learners in all grades must do a project **OR** a field trip assignment in term 1.

##### Projects

Suggested topics are included in the teaching plans of term 1.

##### A project requires learners to

- do some planning/preparation/investigation/research;
- perform the task/carry out instructions according to criteria given;
- produce a product such as a quotation or booklet; and
- allow for some innovation and creativity, i.e. open-ended to a certain extent.

##### To set the project, the teacher should

- determine the content/skills/knowledge to be addressed;
- set clear criteria and give good instructions to guide the learner (the learner should know exactly what to do and what is expected);
- keep the scope manageable;
- determine which resources will be required to complete the project (ensure that learners have access to these resources);
- determine the time frame/duration/due date; and
- determine mark distribution and compile an assessment tool.

**Field trip assignments**

A field trip/site visit assignment requires thorough planning by the teacher and the school.

**Pre-visit preparation by the teacher**

- The teacher chooses a tourist attraction relevant to the curriculum of the grade.
- The teacher visits the site in advance (if possible) to obtain information.
- The teacher explains relevant concepts to the learners as background knowledge.
- The teacher highlights aspects learners should pay attention to or take notes of during the visit.
- The teacher discusses responsible tourist behaviour during the visit.
- The teacher develops a site visit worksheet.
- The teacher discusses in class what is expected from learners during the visit.
- The teacher explains the post-visit assignment and assessment.
- The teacher sets strict rules for learner behaviour during the visit.

**During the visit learners should**

- listen attentively to the guide and take notes;
- ask relevant questions; and
- display responsible tourist behaviour.

**After the visit:** Learners complete assignment.

**4.4.2 Tests**

- A test for formal assessment should not comprise a series of small tests, but should cover a substantial amount of content and the duration should be 45 to 60 minutes.
- Open-book tests should not include only short questions. Learners are required to write longer reflective answers, such as *paragraph* responses to a given statement. Paragraphs providing reasons and arguments are essential.
- Each project, field trip assignment, test, open-book test and examination must cater for a range of cognitive levels and must also include paragraph-type responses.

Cognitive levels	Percentage
Lower order: remembering	30
Middle order: understanding, applying	50
Higher order: Analysing, evaluating and creating	20

### 4.4.3 Examinations

#### External examination in Grade 12

In Grade 12, the three-hour end-of-year examination in Tourism comprises 50% of the learner's total 400 marks. The requirements for the external examination paper are indicated below.

	Contents	10	11	12
Section A	Short questions (all topics)	40	40	40
Section B	Map work and tour planning; foreign exchange	30	20	50
Section C	Tourism attractions; cultural and heritage tourism; marketing	50	50	50
Section D	Tourism sectors; sustainable and responsible tourism	50	50	30
Section E	Domestic, regional and international tourism; communication and customer care	30	40	30
	<b>TOTAL</b>	<b>200</b>	<b>200</b>	<b>200</b>

Only Grade 12 content will be assessed. However, prior knowledge from Grades 10 and 11 may be necessary to interpret and answer some of the questions.

#### 4.4.4 Practical assessment task (PAT)

- Owing to the practical nature of the subject Tourism, learners must also be assessed by means of a practical assessment task.
- The PAT for Grade 12 will be externally set every year and sent to schools at the end of the previous year.
- Provinces and schools may not change or retype this task, or use the task of the previous year.
- Resources for the PAT are the responsibility of the school.
- The specific resources will be listed in each PAT paper, but will mainly consist of maps, magazines and brochures and information available from the internet.
- The PAT is done in two phases.
- Learners should complete phase 1 in term 2, and phase 2 in term 3.
- Teachers must formally assess each phase.
- The grade 12 PAT will be moderated externally by the relevant subject advisor.

### 4.5 Recording and reporting

Teachers will

- record marks against the task by using a record sheet; and
- report in percentages against the subject on learners' report cards

#### **4.6 Promotion**

For promotion and certification purposes, learners should achieve at least a level 2 rating (elementary achievement: 30 – 39%) in Tourism. This is subject to the requirement that a learner must achieve at least a level 3 rating (moderate achievement: 40 – 49%) in at least one of the three choice subjects.

#### **4.7 Moderation of assessment**

- Grades 10 and 11 tasks are internally moderated. The subject advisor should however moderate a sample of these tasks during his/her school visits, to verify the standard of the internal moderation.
- Grade 12 tasks need to be externally moderated. This process will be managed by the province.
