NOTES TO MARKERS

PREAMBLE

The notes to markers are provided for quality assurance purposes to ensure the following:

(a) Fairness, consistency and reliability in the standard of marking
(b) Facilitate the moderation of candidates' scripts at the different levels
(c) Streamline the marking process considering the broad spectrum of markers across the country
(d) Implement appropriate measures in the teaching, learning and assessment of the subject at schools/institutions of learning

1. For marking and moderation purposes, the following colours are recommended:
   - Marker Red
   - Senior Marker Green
   - Deputy Chief Marker Brown
   - Chief Marker Pink
   - Internal Moderator Orange
   - DBE Moderator Turquoise

2. Candidates' responses must be in full sentences for SECTIONS B and C. However, this would depend on the nature of the question.

3. A comprehensive memorandum has been provided but this is by no means exhaustive. Due consideration should be given to an answer that is correct but:
   - Uses a different expression from that which appears in the memorandum
   - Comes from another source
   - Original
   - A different approach is used.

   **NOTE:** There is only one correct answer in SECTION A.

4. Take note of other relevant answers provided by candidates and allocate marks accordingly. (In cases where the answer is unclear or indicates some understanding, part-marks should be awarded, for example, one mark instead of the maximum of two marks.)

5. The word 'Sub max' is used to facilitate the allocation of marks within a question or subquestion.

6. The purpose of circling marks (guided by 'max' in the breakdown of marks) on the right-hand side is to ensure consistency and accuracy in the marking of scripts as well as for calculation purposes.

7. Subtotals to questions must be written in the right-hand margin. Circle the subtotals as indicated by the allocation of marks. This must be guided by 'max' in memo. Only the total for each answer should appear in the left-hand margin next to the appropriate question number.

8. In an indirect question, the theory as well as the response must be relevant and related to the question.

9. Incorrect numbering of answers to questions or sub questions in Sections A and B will be severely penalised. Therefore, correct numbering is strongly recommended in all sections.
10. No additional credit must be given for repetition of facts. Indicate with an 'R'.

11. Note that no marks will be awarded for indicating Yes/No in evaluation type questions requiring substantiation or motivation. (Applicable to SECTIONS B and C.)

12. The differentiation between 'evaluate' and 'critically evaluate' can be explained as follows:

12.1 When 'evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance, e.g. **Positive:** 'COIDA eliminates time and costs spent on lengthy civil court proceedings.√

12.2 When 'critically evaluate' is used, candidates are expected to respond in either a positive/negative manner or take a neutral (positive and negative) stance. In this instance candidates are also expected to support their responses with more depth, e.g. 'COIDA eliminates time and costs spent on lengthy civil court proceedings, because the employer will not be liable for compensation to the employee for injuries sustained during working hours as long as it can be proved that the business was not negligent.'√

**NOTE:** The above could apply to 'analyse' as well.

13. The allocation of marks must be informed by the nature of the question, cognitive verb used, mark allocation in the memorandum and the context of each question.

Cognitive verbs, such as:

13.1 Advise, devise, name, state, mention, recommend, suggest, *(list not exhaustive)* do not usually require much depth in candidates' responses. Therefore, the mark allocation for each statement/answer appears at the end.

13.2 Describe, explain, discuss, elaborate, justify, analyse, evaluate, critically evaluate *(list not exhaustive)* require a greater depth of understanding, application and reasoning. Therefore, the marks must be allocated more objectively to ensure that assessing is conducted according to established norms so that uniformity, consistency and fairness are achieved.

14. **SECTION B**

14.1 If, for example, FIVE facts are required, mark the candidate's FIRST FIVE responses and ignore the rest of the responses. Indicate by drawing a line across the unmarked portion or use the word 'MAX'.

**NOTE:** This applies only to questions where the number of facts is specified.

14.2 If two facts are written in one sentence, award the candidate FULL credit. Point 14.1 above still applies.

14.3 If candidates are required to provide their own examples/views, brainstorm this at the marking centre to finalise alternative answers.
14.4 **Use of cognitive verbs and allocation of marks:**

14.4.1 If the number of facts is specified, questions that require candidates to 'describe/discuss/explain' may be marked as follows:
- Fact 2 marks (or as indicated in the memorandum)
- Explanation 1 mark

The 'fact' and 'explanation' are given separately to facilitate mark allocation.

14.4.2 If the number of facts required is not specified, the allocation of marks must be informed by the nature of the question and the maximum mark allocated in the memorandum.

14.5 **ONE mark may be awarded for answers that are easy to recall, requires one-word answers or is quoted directly from a scenario/case study. This applies to SECTION B and C in particular (where applicable).**

15. **SECTION C**

15.1 The breakdown of the mark allocation for the essays is as follows:

<table>

15.2 Insight consists of the following components:

<td>Are there relevant decisions/facts/responses made based on the questions? Marks to be allocated using this guide: No relevant facts: 0 (Two '-S') Some relevant facts: 1 (One '-S') Only relevant facts: 2 (Zero '-S') NB: If there are no '-S' award the maximum of TWO (2) marks.</td>
<td>2</td>
</tr>
<tr>
<td>Originality</td>
<td>Examples, recency of information, current trends and developments.</td>
<td>2</td>
</tr>
</tbody>
</table>

**TOTAL FOR INSIGHT:** 8
**TOTAL MARKS FOR FACTS:** 32
**TOTAL MARKS FOR ESSAY (8 + 32):** 40

**NOTE:**
1. No marks will be awarded for contents repeated from the introduction and conclusion.
2. The candidate forfeits marks for layout if the words INTRODUCTION and CONCLUSION are not stated.
3. No marks will be allocated for layout, if the headings INTRODUCTION and CONCLUSION are not supported by an explanation.
15.3 Indicate insight in the left-hand margin with a symbol, e.g. ('L, A, S and/or O')

15.4 The breakdown of marks is indicated at the end of the suggested answer/marking guidelines to each question.

15.5 Mark all relevant facts until the SUB MAX/MAX mark in a subsection has been attained. Write 'SUB MAX'/MAX' after maximum marks have been obtained.

15.6 At the end of each essay indicate the allocation of marks for facts and marks for insight as follows: L – Layout, A – Analysis, S – Synthesis, O – Originality as in the table below.

<table>
<thead>
<tr>
<th>CONTENT</th>
<th>MARKS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Facts</td>
<td>32 (max.)</td>
</tr>
<tr>
<td>L</td>
<td>2</td>

</tr>
<tr>
<td>S</td>
<td>2</td>
</tr>
<tr>
<td>O</td>
<td>2</td>
</tr>
<tr>
<td>TOTAL</td>
<td>40</td>
</tr>
</tbody>
</table>

15.7 When awarding marks for facts, take note of the sub-maxima indicated, especially if candidates do not use the same subheadings. Remember, headings and subheadings are encouraged and contribute to insight (structuring/logical flow/sequencing) and indicate clarity of thought. (See MARK BREAKDOWN at the end of each question.)

15.8 If the candidate identifies/interprets the question INCORRECTLY, then he/she may still obtain marks for layout.

15.9 If a different approach is used by candidates, ensure that the answers are assessed according to the mark allocation/subheadings as indicated in the memorandum.

15.10 15.10.1 Award TWO marks for complete sentences. Award ONE mark for phrases, incomplete sentences and vague answers.

15.10.2 With effect from November 2015, the TWO marks will not necessarily appear at the end of each completed sentence. The ticks (√) will be separated and indicated next to each fact, e.g. 'Product development is a growth strategy, √ where businesses aim to introduce new products into existing markets.' √

This will be informed by the nature and context of the question, as well as the cognitive verb used.
