NATIONAL TEACHING AWARDS

2007

Recognising Excellence in Education

information guide

Introduction

The National Teaching Awards Scheme conceptualised and launched in 2000 now enters its eighth year of implementation. Through extensive consultation, the scheme has been refined, sharpened as well as broadened in terms of its frame and categories. This information leaflet, therefore, welcomes you to the National Teaching Awards 2007.

The Department of Education wishes to salute all schools and teachers who have entered the National Teaching Awards since 2000. The Department also acknowledges their extraordinary efforts, which have been achieved often under very difficult conditions and in service to our children, many of whom come from poor communities.

The National Teaching Awards are but one of the ways in which the Department of Education acknowledges and encourages dedicated and caring teachers in their efforts to develop each learner as a citizen of a democratic, non-racial and non-sexist South Africa.

The objectives of the Ministry of Education through the National Teaching Awards are to:

- Focus public attention on the positive aspects of Education, thereby raising the public image of the teaching profession
- Recognise and promote excellence in teaching performance
- Honour dedicated, creative and effective teachers and schools
- Encourage best practice in schools
- Afford South Africans the opportunity to publicly say thank you to outstanding teams or individual teachers in schools.
