

Mrs Angie Motshekga,
Minister of Basic
Education

Mr Enver Surty,
Deputy Minister
of Basic Education

These workbooks have been developed for the children of South Africa under the leadership of the Minister of Basic Education, Mrs Angie Motshekga, and the Deputy Minister of Basic Education, Mr Enver Surty.

The Rainbow Workbooks form part of the Department of Basic Education's range of interventions aimed at improving the performance of South African learners in the first six grades. As one of the priorities of the Government's Plan of Action, this project has been made possible by the generous funding of the National Treasury. This has enabled the Department to make these workbooks, in all the official languages, available at no cost.

We hope that teachers will find these workbooks useful in their everyday teaching and in ensuring that their learners cover the curriculum. We have taken care to guide the teacher through each of the activities by the inclusion of icons that indicate what it is that the learner should do.

We sincerely hope that children will enjoy working through the book as they grow and learn, and that you, the teacher, will share their pleasure.

We wish you and your learners every success in using these workbooks.

Let your fingers help you to read

Sometimes when you read, you will meet words that you won't know. When this happens, you should let your fingers help you. Each of your fingers can help you to work out how to say the word and what the word means.

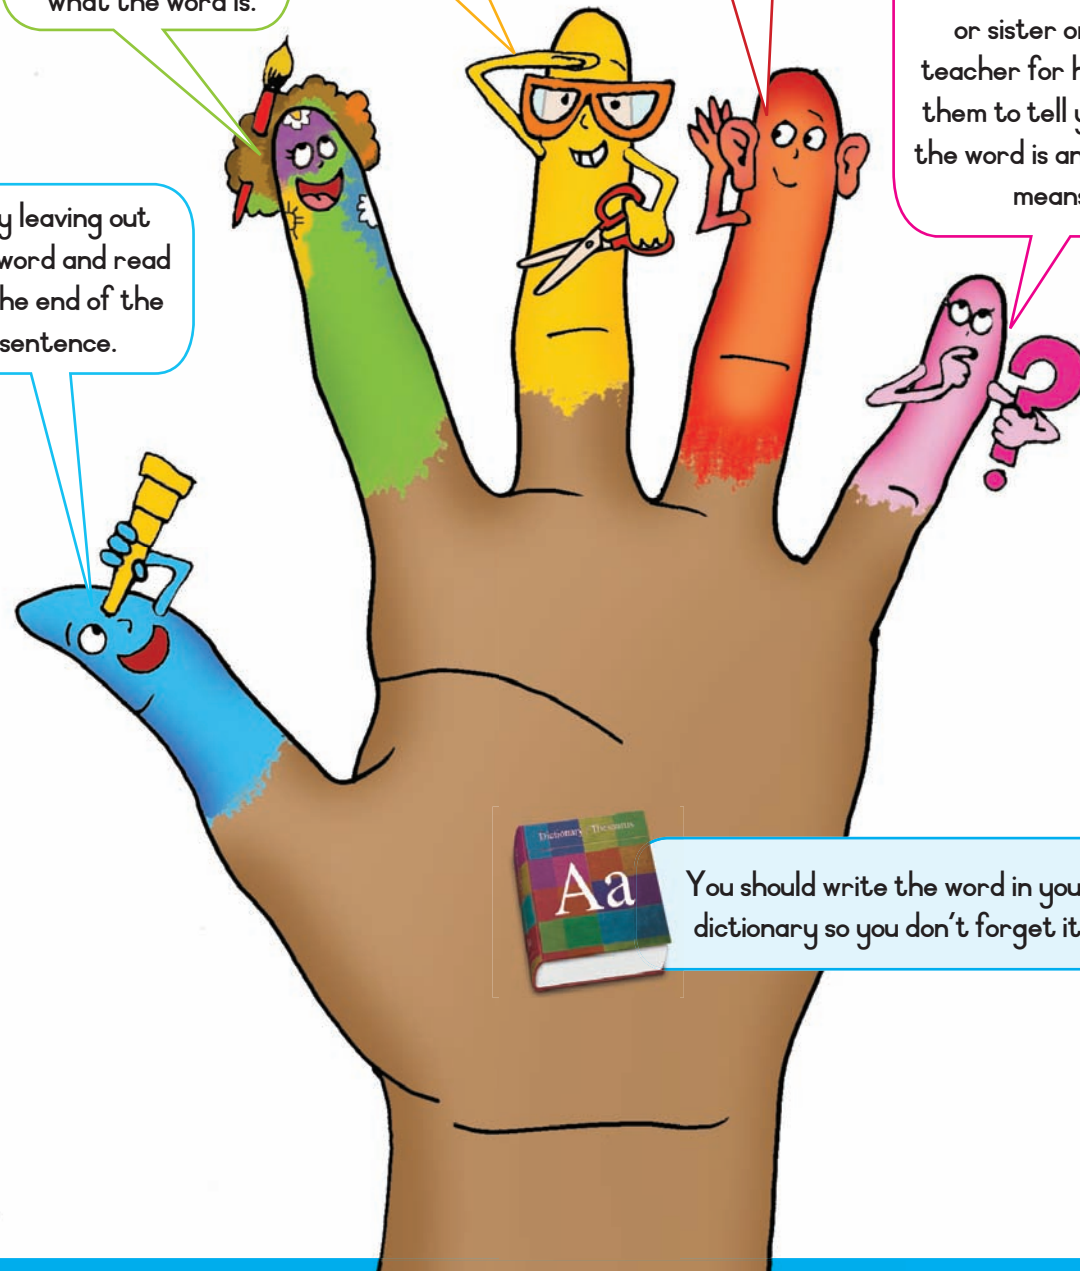

Look at the picture. See if this will help you to work out what the word is.

Look carefully at the word and try to see if you know any parts of the word.

You can try to break up the word into different sounds. Try to sound the word out.

If you still can't work it out, you should ask a friend, an older brother or sister or your teacher for help. Ask them to tell you what the word is and what it means.

Try leaving out the word and read to the end of the sentence.

You should write the word in your dictionary so you don't forget it.

TEACHERS' GUIDELINES – GRADE 2 HOME LANGUAGE

Use this book with your other resources to develop your learners' concepts of:

- Book handling: The correct way in which to hold and page through a book.
- Book concept: The front page, back page, title and table of contents.
- Directionality: Reading from front to back, from left to right and from top to bottom.

TEACHING TIPS

Listening and speaking

Consult your Curriculum and Assessment Policy Statement (English Home Language), p. 10. Learners should be exposed weekly to stories, short rhymes, poems and songs.

Picture discussions

1. Guide the learners in:
 - identifying and discussing objects in the pictures (size, shape, colour and quantity)
 - interpreting the pictures by asking questions: who, what, where, when, why, what happened before, what happened later?
 - composing a class story (the length being determined by learners' levels of development)
2. Allow each learner to tell the class story to a friend.
3. Model the writing of the class story (CAPS Home Language, p. 12, shared writing). *Bring the use of capital letters, word spacing and punctuation to the attention of learners throughout.*
4. Allow the learners to join you in reading the class story.
5. Ask learners to underline or circle the sounds, vocabulary or language structures of the week in the class story.

Reading

Consult your Curriculum and Assessment Policy Statement (English Home Language), p. 12 – 18, regarding the five main components of teaching reading.

Writing

Consult your Curriculum and Assessment Policy Statement (English Home Language), p. 18 – 19, concerning handwriting and the writing process.

Pay attention to the following daily:

- the correct handling of crayons and pencils
- directionality: writing from left to right and from top to bottom
- the use of writing strips to demonstrate correct letter formation and direction

Keep the following in mind:

- Learners' learning preferences differ. It is important that learners should be stimulated visually, auditively and kinesthetically (experientially) for them to learn effectively.
- Learning takes place through repetition.
- Learners should experience learning, therefore activities should be practised before being completed in writing, e.g.:

Vocabulary: Give learners the opportunity to build words using letter cards.

Comprehension: Learners should complete the answers orally in their groups before completing them in writing. The group leader poses the questions while the group members find the answers and answer the questions.

Selecting words to complete sentences. Provide the groups with incomplete writing strips and word cards. Learners complete the sentences by placing the word cards correctly.

Matching words to pictures (p. 17): Enlarge the page to A3. In their groups, learners place markers on the correct answers.

Matching two parts of a sentence (p. 84): In their groups, learners match parts of sentences.

Writing own newspaper article (p. 128): Have learners write a class article followed by a group article before writing their own articles.

Dictionaries: Use dictionaries daily. Learners' capabilities determine the degree of difficulty of activities. It may be necessary to provide page references.

Note: During group activities, provide the group leader with a set of answers to enable him/her to guide group members correctly.
