

Mrs Angie Motshekga,  
Minister of Basic  
Education

Mr Enver Surty,  
Deputy Minister  
of Basic Education

These workbooks have been developed for the children of South Africa under the leadership of the Minister of Basic Education, Mrs Angie Motshekga, and the Deputy Minister of Basic Education, Mr Enver Surty.

The Rainbow Workbooks form part of the Department of Basic Education's range of interventions aimed at improving the performance of South African learners in the first six grades. As one of the priorities of the Government's Plan of Action, this project has been made possible by the generous funding of the National Treasury. This has enabled the Department to make these workbooks, in all the official languages, available at no cost.

We hope that teachers will find these workbooks useful in their everyday teaching and in ensuring that their learners cover the curriculum. We have taken care to guide the teacher through each of the activities by the inclusion of icons that indicate what it is that the learner should do.

We sincerely hope that children will enjoy working through the book as they grow and learn, and that you, the teacher, will share their pleasure.

We wish you and your learners every success in using these workbooks.

### Learning about the Constitution of the Republic of South Africa (1996)

The Constitution of South Africa (1996) is the highest law in the country. This law is higher than the President, higher than the courts and higher than the government.

It describes how the people of our country should treat each other, and what their rights and responsibilities are. The constitution of a country is there to protect all of us now, and our children in the future.

Be aware of  
our past.

Let us not repeat the  
mistakes of past.

Our Constitution  
helps us to imagine  
and build a better  
future for all.

We, the people of South Africa;

Recognise the injustices of our past;

Honour those who suffered for justice and freedom in our land;

Respect those who have worked to build and develop our country; and

Believe that South Africa belongs to all who live in it, united in our diversity.

We therefore, through our freely elected representatives, adopt this Constitution as law of the Republic so as to—

Heal the division of the past and establish a society based on democratic values, social justice and fundamental human rights;

Lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law;

Improve the quality of life of all citizens and free the potential of each person; and

Build a united and democratic South Africa able to take its rightful place as a Sovereign state in the family of nations.

Claim your rights as a South  
African and be responsible to  
protect the rights of others.

Know your Bill  
of rights & Bill of  
Responsibilities.

May God protect our people.

Nkosi Sikelel' iAfrika. Morena boloka setjhaba sa heso.

God seën Suid-Afrika. God bless South Africa.

So he picked himself up and went home, frisking and whisking his new trunk.

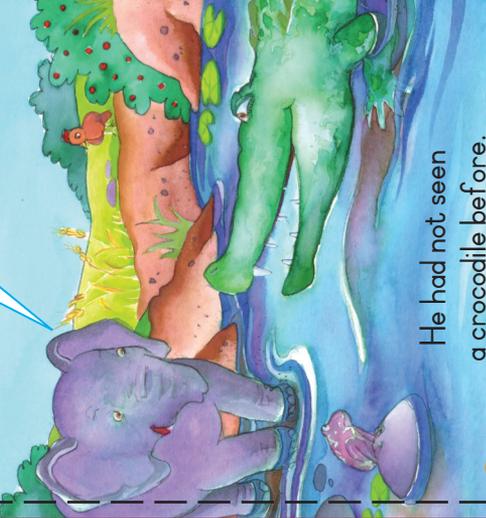

"Come here, little one, and I will tell you, for I am the crocodile and today I think I will eat the elephant's child for dinner."

Later he saw a big fat hippo. He asked the hippopotamus why his eyes were red. "Go home baby elephant," said the hippo.

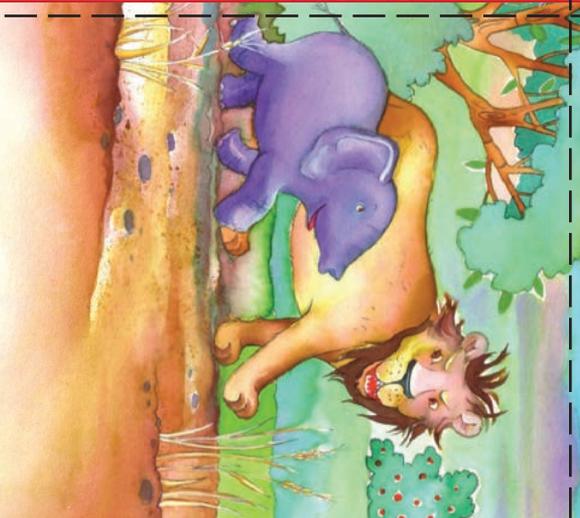

"Excuse me," said the elephant's child politely. "Do you know what crocodiles eat for dinner?"

He had not seen a crocodile before.

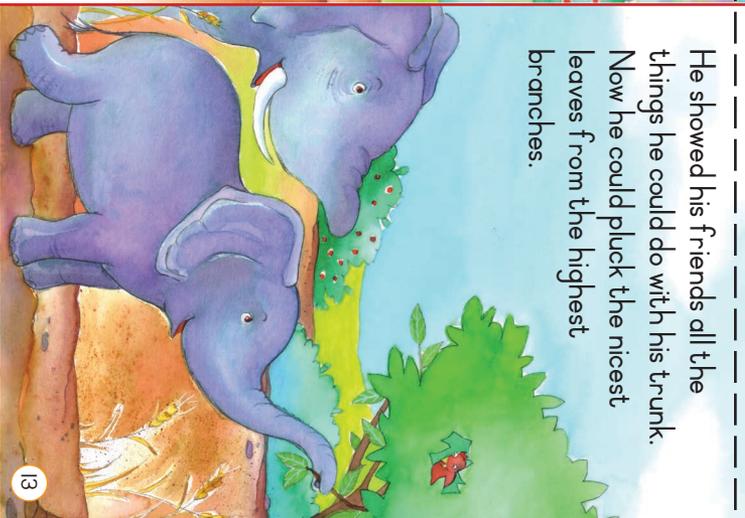

Then he met a lion. He asked the lion why he was hairy. "Go home baby elephant," said the lion.

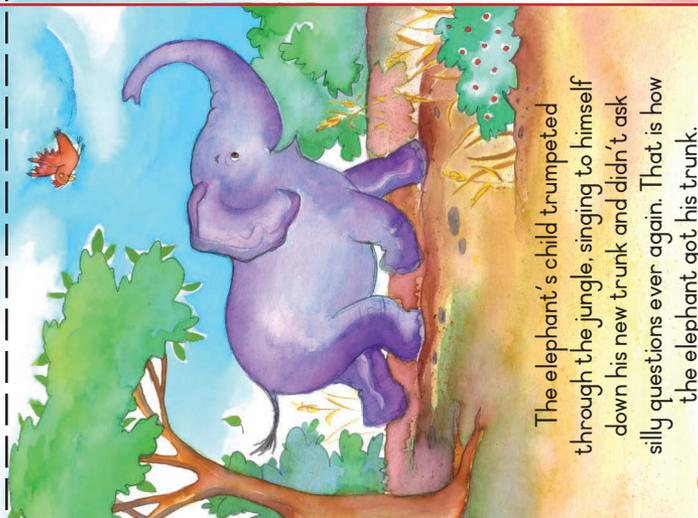

### An elephant and its trunk

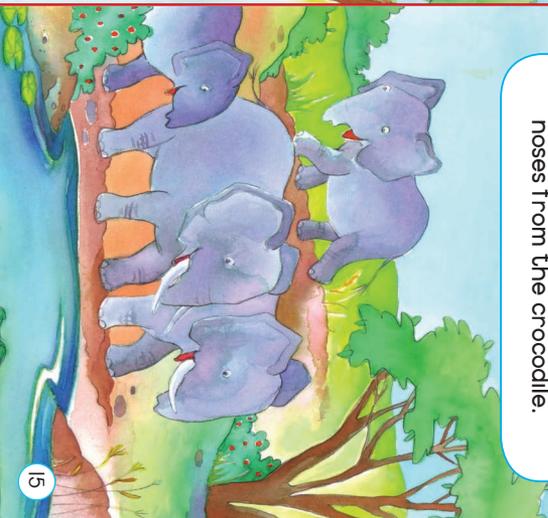

He showed his friends all the things he could do with his trunk. Now he could pluck the nicest leaves from the highest branches.

The elephant's child trumpeted through the jungle, singing to himself down his new trunk and didn't ask silly questions ever again. That is how the elephant got his trunk.

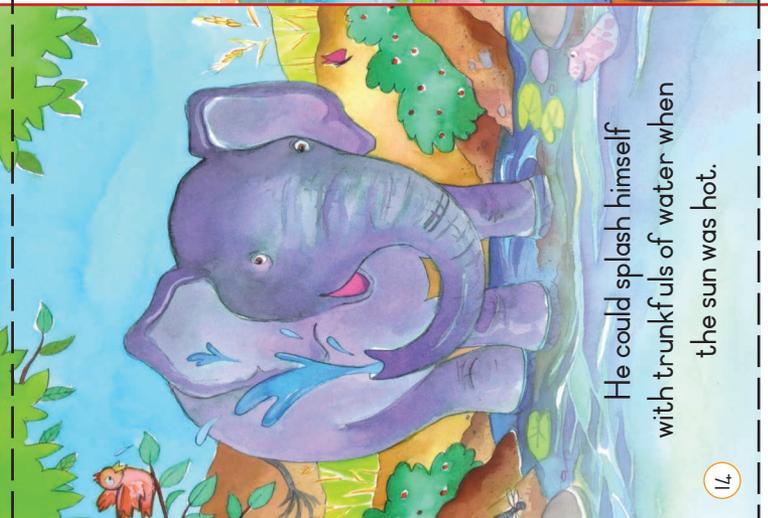

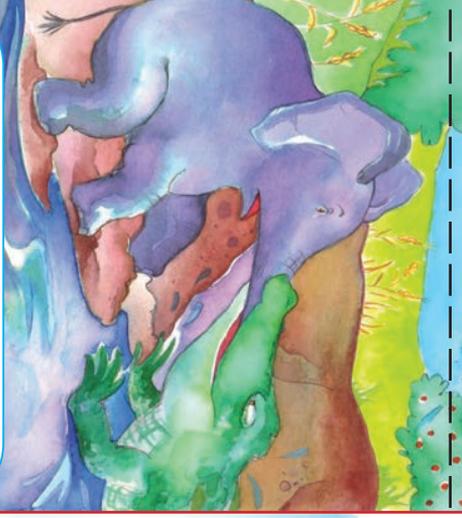

His friends were so impressed that they all went off to the banks of the river to borrow noses from the crocodile.

Once upon a time elephants had short noses. One day Bubu the baby elephant went for a walk. He wandered into the forest.

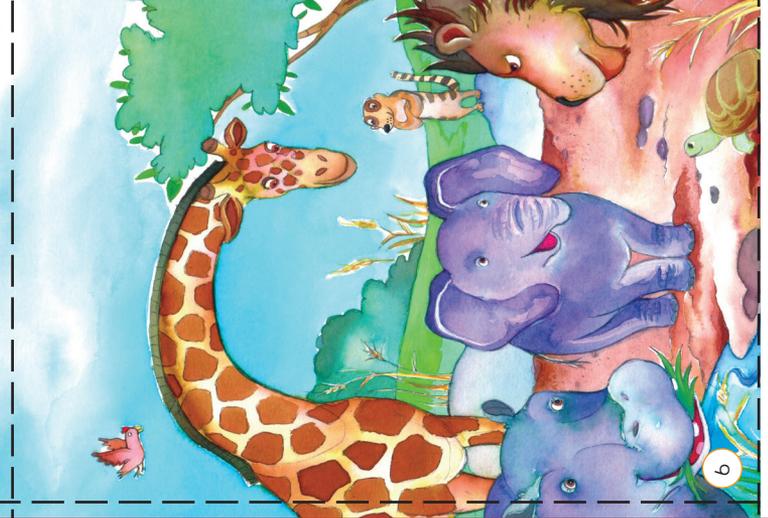

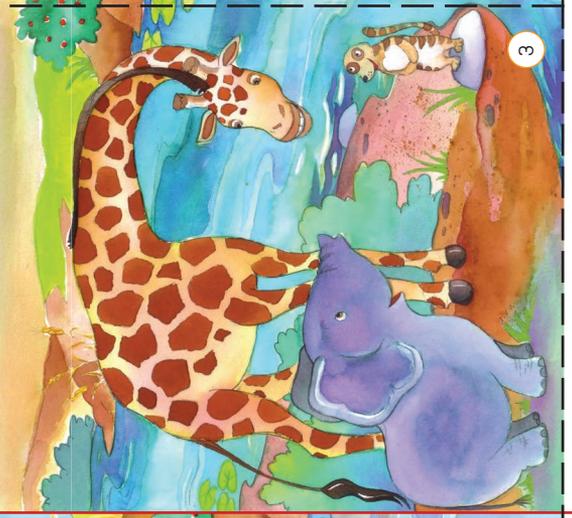

He asked, "What does the crocodile eat for dinner?" Nobody answered. So he went off to find out for himself.

The crocodile grabbed the elephant's child's nose between his sharp teeth and pulled. Then the elephant's child spread out his four legs and pulled. At each pull his nose grew longer, and longer, and longer.

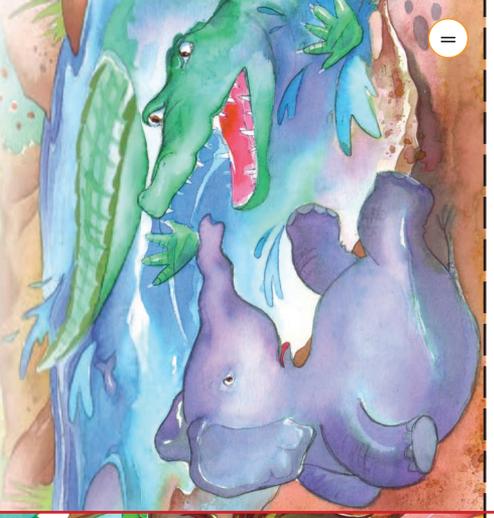

He could splash himself with trunkfuls of water when the sun was hot.

He was surprised to see a tall giraffe. The baby elephant asked a giraffe what made his neck so long. "Go home baby elephant," said the giraffe.

At last the crocodile let go of the nose with a plop that you could hear all up and down the river. The elephant's child sat down and waited for three whole days for his nose to shrink, but it never grew any shorter.
