Learning about the Constitution of the Republic of South Africa (1996) The Constitution of South Africa (1996) is the highest law in the country. This law is higher than the President, higher than the courts and higher than the government.

It describes how the people of our country should treat each other, and what their rights and responsibilities are. The constitution of a country is there to protect all of us now, and our children in the future.

Be aware of	Let us not repeat the
our past.	: mistakes of past.

Our Constitution he helps us to imagine . and build a better future for all.

We, the people of South Africa;

1

Recognise the injustices of our past;

Honour those who suffered for justice and freedom in our land;

Respect those who have worked to build and develop our country; and

Believe that South Africa belongs to all who live in it, united in our diversity.

We therefore, through our freely elected representatives, adopt this Constitution as law of the Republic so as to—

Heal the division of the past and establish a society based on democratic values, social justice and fundamental human rights;

Lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; Improve the quality of life of all citizens and free the potential of each person; and Build a united and democratic South Africa able to take its rightful place as a

Sovereign state in the family of nations.

Claim your rights as a South African and be responsible to protect the rights of other s. Know your Bill of rights & Bill of Responsibilities.

May God protect our people. Nkosi Sikelel' iAfrika. Morena boloka setjhaba sa heso. God seën Suid-Afrika. God bless South Africa. Mudzimu fhatutshedza Afurika. Hosi katekisa Afrika.

Mrs Angie Motshekga, Minister of Basic Education

Mr Enver Surty.

The Rainbow Workbooks form part of the Department of Basic Education's range of interventions aimed at improving the performance of South African learners in the first six grades. As one of the priorities of the Government's Plan of Action, this project has been made possible by the generous funding of the National Treasury. This has enabled the Department to make these workbooks, in all the official languages, available at no cost.

We hope that teachers will find these workbooks useful in their everyday teaching and in ensuring that their learners cover the curriculum. We have taken care to guide the teacher through each of the activities by the inclusion of icons that indicate what it is that the learner should do.

their pleasure.

We wish you and your learners every success in using these workbooks.

Published by the Department of Basic Education 222 Struben Street Pretoria South Africa © Department of Basic Education Eighth edition 2018

Mr Enver Surty. Deputy Minister of Basic Education

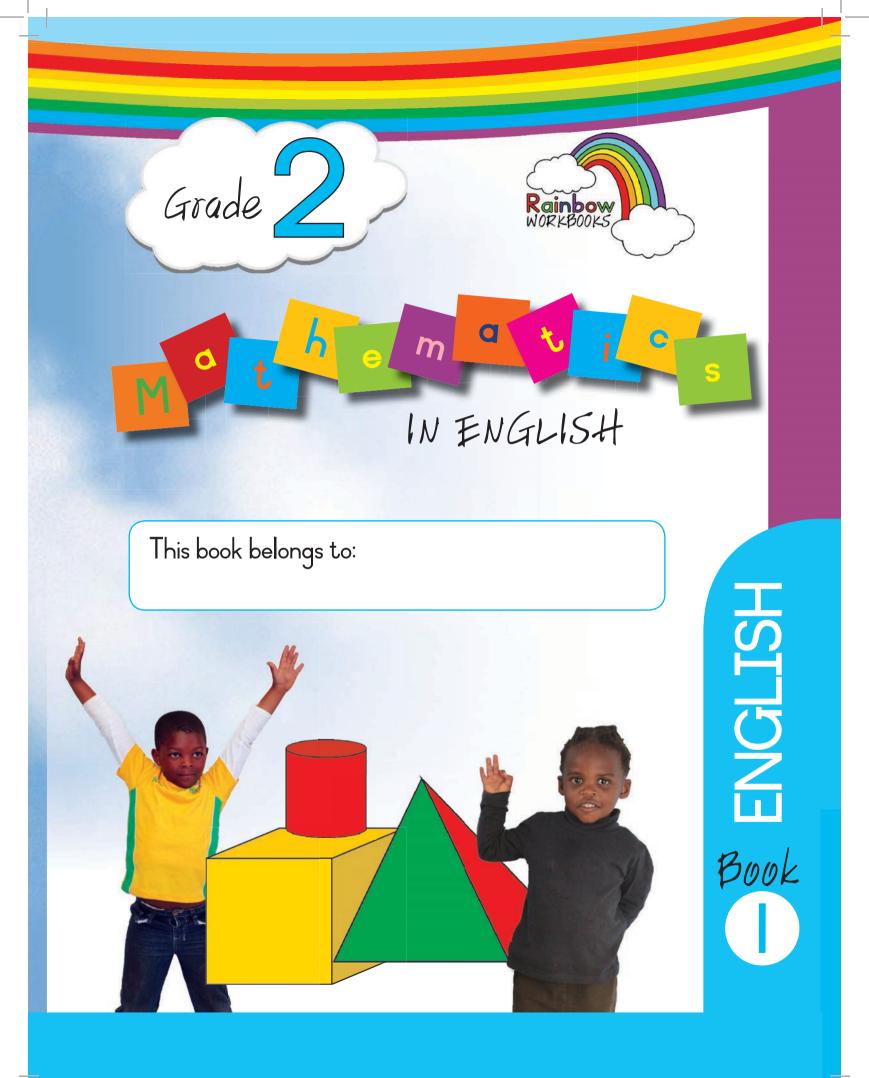

These workbooks have been developed for the children of South Africa under the leadership of the Minister of Basic Education. Mrs Angie Motshekga, and the Deputy Minister of Basic Education,

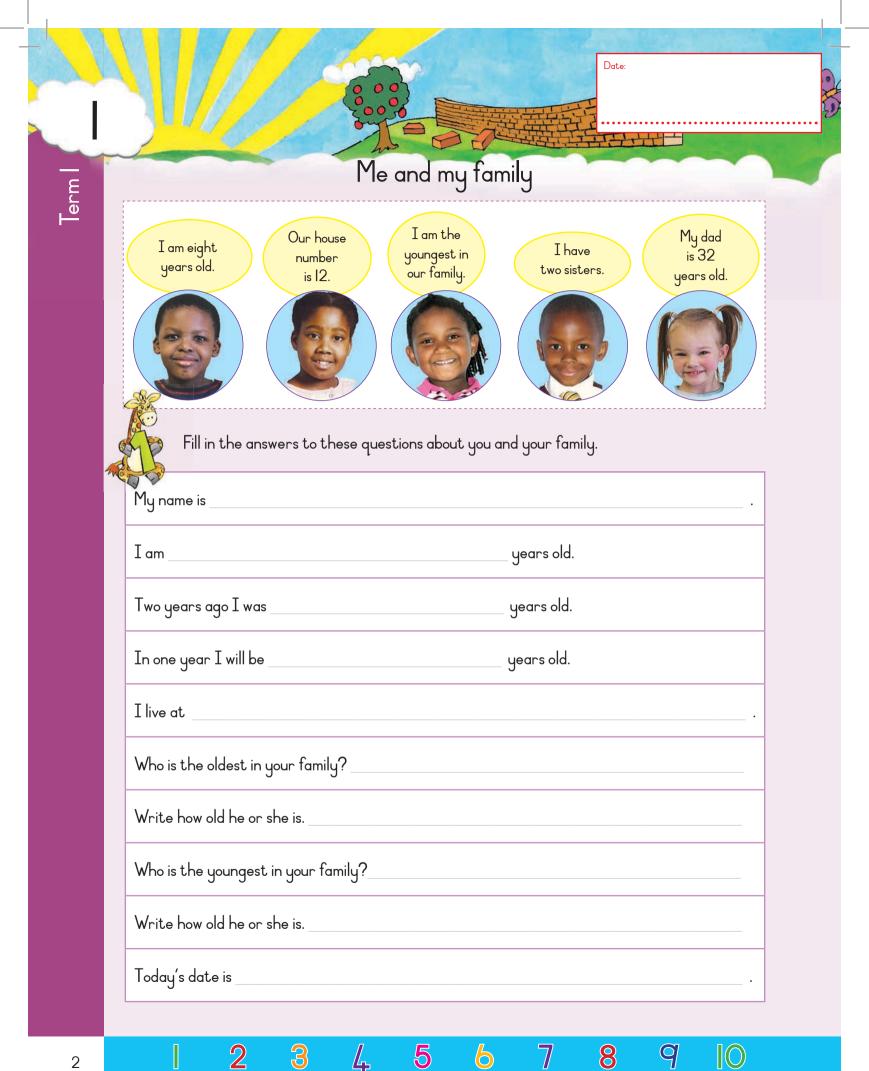

We sincerely hope that children will enjoy working through the book as they grow and learn, and that you, the teacher, will share

ISBN 978-1-920458-93-5

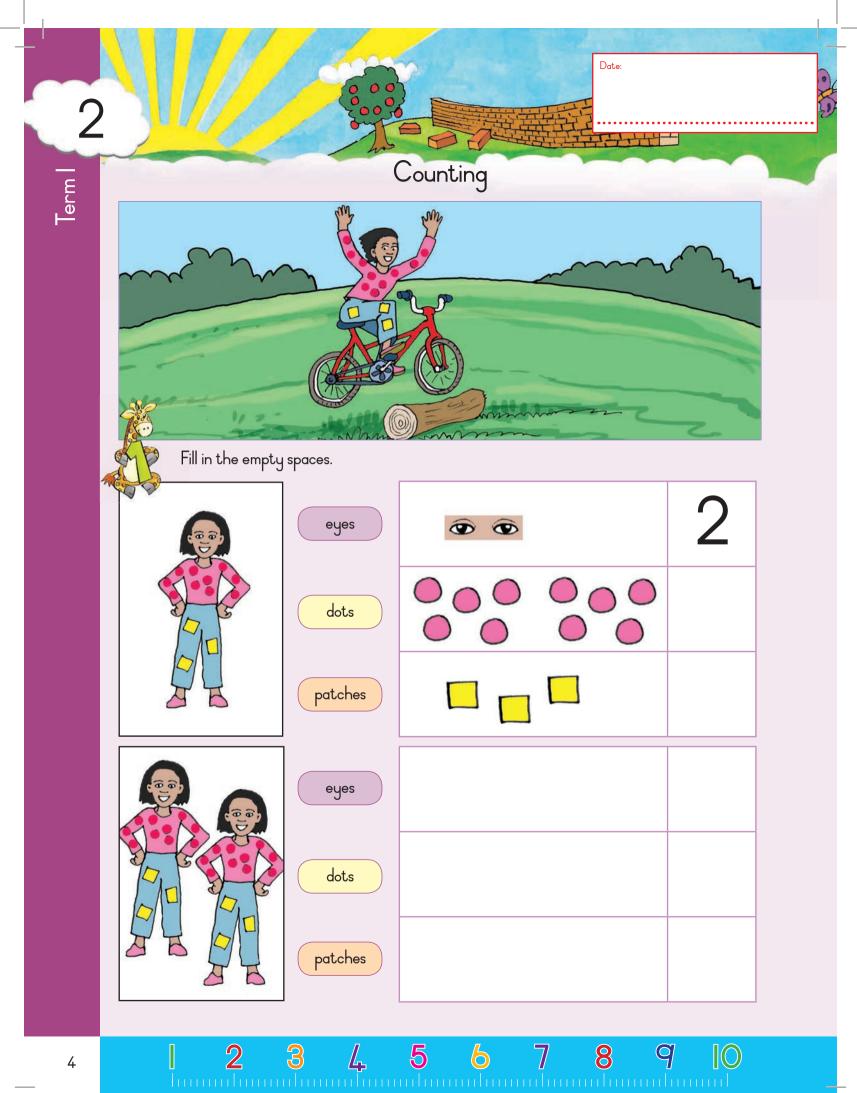

This book may not be sold.

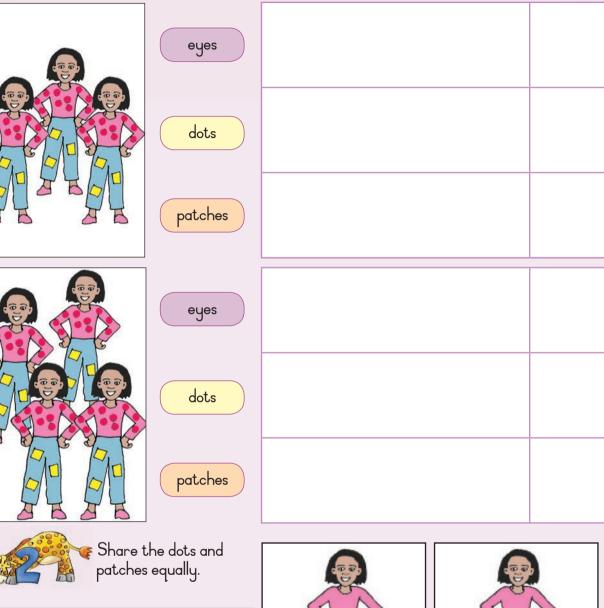

The Department of Basic Education has made every effort to trace copyright holders but if any have been inadvertently overlooked the Department will be pleased to make the necessary arrangements at the first opportunity
