INTRODUCTION

A. What is Principles of Criminal Justice about?

For anybody to be employed in the Criminal Justice System, knowledge of the Criminal Justice structures and processes is essential. This subject will enable the student to recognize the key principles of criminal justice. In the course of delivery of this subject the aim would be to identify and name the different structures and processes of the South African criminal justice system. As this might be the student's first introduction to the criminal justice system, this subject will briefly introduce the student to the principles of the criminal justice system.

B. Why is Principles of Criminal Justice important in the Safety in Society programme?

All the role players in the criminal justice system operate on a day-to-day basis within a specific structure and by means of specific processes. There is for this reason a relationship between subjects such as Law, Police Practice, Criminology and Governance. As a result of the high crime rate in South Africa, criminal justice officials need to possess a basic knowledge of the different laws of our country and how these laws are applied in order to combat and adjudicate crime.

C. The link between Principles of Criminal Justice Learning Outcomes and the Critical and Developmental Outcomes

After completion of this subject the student will possess a basic knowledge of the structures and processes of the South African criminal justice system. This will enable them to understand and apply the laws of the country and to perform their duties as members of the policing agencies (South African Police Service (SAPS), Metropolitan Police Agencies, Traffic Policing Agencies and the Military Police Division (MPD)) and the judiciary.

D. Factors that contribute to achieving Principles of Criminal Justice Learning Outcomes

Students should have a basic awareness of the manifestations and resolution of the crime problem. An interest in the functioning of the criminal justice system is a basic necessity to be successful in this subject.

1 DURATION AND TUITION TIME

This is a one-year instructional programme comprising 200 teaching and learning hours. The subject may be offered on a part-time basis provided the student meets all the assessment requirements.

Students with special education needs (LSEN) must be catered for in a way that eliminates barriers to learning.

2 SUBJECT LEVEL FOCUS

- Knowledge of the criminal justice structures and processes
- The principles of the criminal justice system.

3 ASSESSMENT REQUIREMENTS

3.1 Internal assessment (50 percent)

3.1.1 Theoretical component

The theoretical component forms 40 percent of the internal assessment mark.

Internal assessment of the theoretical component in Principles of Criminal Justice Level 2 takes the form of observation, class questions, group work, informal group competitions with rewards, individual discussions with students, class, topic and semester tests and internal examinations. Lecturers can observe students when marking exercises from the previous day and asking class questions.

Assignments, case studies and tests can be completed at the end of a topic. Tests and internal examinations must form part of the internal assessment.

3.1.2 Practical component

The practical component forms 60 percent of the internal assessment mark.

Practical components include applications and exercises. All practical components must be indicated in a Portfolio of Evidence (PoE).

Internal assessment of the practical component in Principles of Criminal Justice Level 2 takes the form of assignments, practical exercises, case studies and practical examinations in a simulated business environment.

Students may complete practical exercises daily. Assignments and case studies can be completed at the end of a topic. Practical examinations can form part of internal practical assessment.

- **Some examples of practical assessments include, but are not limited to:**

- A. Presentations (lectures, demonstrations, group discussions and activities, practical work, observation, role-play, independent activity, synthesis and evaluation)
- B. Exhibitions by students
- C. Visits undertaken by students based on a structured assignment task
- D. Research
- E. Task performance in a “Structured Environment”

- **Definition of the term “Structured Environment”**

For the purposes of assessment, “Structured Environment” refers to a simulated workplace or workshop environment. Activities in the simulated workplace or environment must be documented in a logbook with a clear listing of the competencies to be assessed. The following information must be contained in the logbook:

- Nature of department or environment in which practical component was achieved
- Learning Outcomes
- Activities in the environment with which to achieve the Learning Outcomes
- Time spent on activities
- Signature of facilitator or supervisor and student

For the logbook to be regarded as valid evidence, it must be signed by an officially assigned supervisor.

- **Evidence in practical assessments**

All evidence pertaining to evaluation of practical work must be reflected in the student's PoE. The assessment instruments used for the purpose of conducting these assessments must be part of the evidence contained in the PoE.

3.1.3 Processing of internal assessment mark for the year

A year mark out of 100 is calculated by adding the marks of the theoretical component and the practical component of the internal continuous assessment (ICASS).

3.1.4 Moderation of internal assessment mark

Internal assessment is subjected to internal and external moderation procedures as set out in the *National Examinations Policy for FET College Programmes*.

3.2 External assessment (50 percent)

A national examination is conducted annually in October or November by means of a paper(s) set and moderated externally. A practical component will also be assessed.

External assessment details and procedures are set out in the *Assessment Guidelines: Principles of Criminal Justice* (Level 2).

4 WEIGHTED VALUES OF TOPICS

TOPICS	WEIGHTED VALUE
1 Key principles underpinning safety in society	15%
2. Key concepts of the criminal justice system	15%
3. The role of the criminal justice system in safeguarding society	15%
4. Steps in the flow of criminal justice in order of occurrence	20%
5. Functions of the criminal justice role players	20%
6. The principles of volunteerism	15%
TOTAL	100

5 CALCULATION OF FINAL MARK

Internal assessment mark: Student's mark/100 x 50 = a mark out of 50 (a)

Examination mark: Student's mark/100 x 50 = a mark out of 50 (b)

Final mark: (a) + (b) = a mark out of 100

All marks are systematically processed and accurately recorded to be available as hard copy evidence for, amongst others, reporting, moderation and verification purposes.

6 PASS REQUIREMENTS

The student must obtain at least fifty (50) percent in ICASS and fifty (50) percent in the examination.
