1  Schedule of assessment
2  Recording and reporting
3  Internal assessment of Subject Outcomes in Marketing - Level 3
4  Specifications for external assessment in Marketing - Level 3
   4.1 Integrated Summative Assessment Task (ISAT)
   4.2 National examination
SECTION A: PURPOSE OF THE SUBJECT ASSESSMENT GUIDELINES

This document provides the lecturer with guidelines to develop and implement a coherent, integrated assessment system for Marketing in the National Certificates (Vocational). It must be read with the National Policy Regarding Further Education and Training Programmes: Approval of the Documents, Policy for the National Certificates (Vocational) Qualifications at Levels 2 to 4 on the National Qualifications Framework (NQF). This assessment guideline will be used for National Qualifications Framework Levels 2-4.

This document explains the requirements for the internal and external subject assessment. The lecturer must use this document with the Subject Guidelines: Marketing to prepare for and deliver Marketing. Lecturers should use a variety of resources and apply a range of assessment skills in the setting, marking and recording of assessment tasks.

SECTION B: ASSESSMENT IN THE NATIONAL CERTIFICATES (VOCATIONAL)

1 ASSESSMENT IN THE NATIONAL CERTIFICATES (VOCATIONAL)

Assessment in the National Certificates (Vocational) is underpinned by the objectives of the National Qualifications Framework (NQF). These objectives are to:

- Create an integrated national framework for learning achievements.
- Facilitate access to and progression within education, training and career paths.
- Enhance the quality of education and training.
- Redress unfair discrimination and past imbalances and thereby accelerate employment opportunities.
- Contribute to the holistic development of the student by addressing:
  - social adjustment and responsibility;
  - moral accountability and ethical work orientation;
  - economic participation; and
  - nation-building.

The principles that drive these objectives are:

- **Integration**
  To adopt a unified approach to education and training that will strengthen the human resources development capacity of the nation.

- **Relevance**
  To be dynamic and responsive to national development needs.

- **Credibility**
  To demonstrate national and international value and recognition of qualification and acquired competencies and skills.

- **Coherence**
  To work within a consistent framework of principles and certification.

- **Flexibility**
  To allow for creativity and resourcefulness when achieving Learning Outcomes, to cater for different learning styles and use a range of assessment methods, instruments and techniques.

- **Participation**
  To enable stakeholders to participate in setting standards and co-ordinating the achievement of the qualification.

- **Access**
  To address barriers to learning at each level to facilitate students’ progress.
• **Progression**
To ensure that the qualification framework permits individuals to move through the levels of the national qualification via different, appropriate combinations of the components of the delivery system.

• **Portability**
To enable students to transfer credits of qualifications from one learning institution and/or employer to another institution or employer.

• **Articulation**
To allow for vertical and horizontal mobility in the education system when accredited pre-requisites have been successfully completed.

• **Recognition of Prior Learning**
To grant credits for a unit of learning following an assessment or if a student possesses the capabilities specified in the outcomes statement.

• **Validity of assessments**
To ensure assessment covers a broad range of knowledge, skills, values and attitudes (SKVAs) needed to demonstrate applied competency. This is achieved through:
  - clearly stating the outcome to be assessed;
  - selecting the appropriate or suitable evidence;
  - matching the evidence with a compatible or appropriate method of assessment; and
  - selecting and constructing an instrument(s) of assessment.

• **Reliability**
To assure assessment practices are consistent so that the same result or judgment is arrived at if the assessment is replicated in the same context. This demands consistency in the interpretation of evidence; therefore, careful monitoring of assessment is vital.

• **Fairness and transparency**
To verify that no assessment process or method(s) hinders or unfairly advantages any student. The following could constitute unfairness in assessment:
  - Inequality of opportunities, resources or teaching and learning approaches
  - Bias based on ethnicity, race, gender, age, disability or social class
  - Lack of clarity regarding Learning Outcome being assessed
  - Comparison of students’ work with other students, based on learning styles and language

• **Practicability and cost-effectiveness**
To integrate assessment practices within an outcomes-based education and training system and strive for cost and time-effective assessment.

2 ASSESSMENT FRAMEWORK FOR VOCATIONAL QUALIFICATIONS

The assessment structure for the National Certificates (Vocational) qualification is as follows:

2.1 **Internal continuous assessment (ICASS)**
Knowledge, skills values, and attitudes (SKVAs) are assessed throughout the year using assessment instruments such as projects, tests, assignments, investigations, role-play and case studies. The internal continuous assessment (ICASS) practical component is undertaken in a real workplace, a workshop or a “Structured Environment”. This component is moderated internally and externally quality assured by Umalusi. All internal continuous assessment (ICASS) evidence is kept in a Portfolio of Evidence (PoE) and must be readily available for monitoring, moderation and verification purposes.

2.2 **External summative assessment (ESASS)**
The external summative assessment is either a single or a set of written papers set to the requirements of the Subject Learning Outcomes. The Department of Education administers the theoretical component according to relevant assessment policies.
A compulsory component of external summative assessment (ESASS) is the integrated summative assessment task (ISAT). This assessment task draws on the students’ cumulative learning throughout the year. The task requires integrated application of competence and is executed under strict assessment conditions. The task should take place in a simulated or “Structured Environment”. The integrated summative assessment task (ISAT) is the most significant test of students’ ability to apply their acquired knowledge.

The integrated assessment approach allows students to be assessed in more than one subject with the same integrated summative assessment task (ISAT).

External summative assessments will be conducted annually between October and December, with provision made for supplementary sittings.

3 MODERATION OF ASSESSMENT

3.1 Internal moderation
Assessment must be moderated according to the internal moderation policy of the Further Education and Training (FET) college. Internal college moderation is a continuous process. The moderator’s involvement starts with the planning of assessment methods and instruments and follows with continuous collaboration with and support to the assessors. Internal moderation creates common understanding of Assessment Standards and maintains these across vocational programmes.

3.2 External moderation
External moderation is conducted by the Department of Education, Umalusi and, where relevant, an Education and Training Quality Assurance (ETQA) body according to South African Qualifications Authority (SAQA) and Umalusi standards and requirements.

The external moderator:
- monitors and evaluates the standard of all summative assessments;
- maintains standards by exercising appropriate influence and control over assessors;
- ensures proper procedures are followed;
- ensures summative integrated assessments are correctly administered;
- observes a minimum sample of ten (10) to twenty-five (25) percent of summative assessments;
- gives written feedback to the relevant quality assuror; and
- moderates in case of a dispute between an assessor and a student.

Policy on inclusive education requires that assessment procedures for students who experience barriers to learning be customised and supported to enable these students to achieve their maximum potential.

4 PERIOD OF VALIDITY OF INTERNAL CONTINUOUS ASSESSMENT (ICASS)

The period of validity of the internal continuous assessment mark is determined by the National Policy on the Conduct, Administration and Management of the Assessment of the National Certificates (Vocational).

The internal continuous assessment (ICASS) must be re-submitted with each examination enrolment for which it constitutes a component.

5 ASSESSOR REQUIREMENTS
Assessors must be subject specialists and should ideally be declared competent against the standards set by the ETDP SETA. If the lecturer conducting the assessments has not been declared a competent assessor, an assessor who has been declared competent may be appointed to oversee the assessment process to ensure the quality and integrity of assessments.

6 TYPES OF ASSESSMENT
Assessment benefits the student and the lecturer. It informs students about their progress and helps lecturers make informed decisions at different stages of the learning process. Depending on the intended purpose, different types of assessment can be used.
6.1 Baseline assessment
At the beginning of a level or learning experience, baseline assessment establishes the knowledge, skills, values and attitudes (SKVAs) that students bring to the classroom. This knowledge assists lecturers to plan learning programmes and learning activities.

6.2 Diagnostic assessment
This assessment diagnoses the nature and causes of learning barriers experienced by specific students. It is followed by guidance, appropriate support and intervention strategies. This type of assessment is useful to make referrals for students requiring specialist help.

6.3 Formative assessment
This assessment monitors and supports teaching and learning. It determines student strengths and weaknesses and provides feedback on progress. It determines if a student is ready for summative assessment.

6.4 Summative assessment
This type of assessment gives an overall picture of student progress at a given time. It determines whether the student is sufficiently competent to progress to the next level.

7 PLANNING ASSESSMENT
An assessment plan should cover three main processes:

7.1 Collecting evidence
The assessment plan indicates which Subject Outcomes and Assessment Standards will be assessed, what assessment method or activity will be used and when this assessment will be conducted.

7.2 Recording
Recording refers to the assessment instruments or tools with which the assessment will be captured or recorded. Therefore appropriate assessment instruments must be developed or adapted.

7.3 Reporting
All the evidence is put together in a report to deliver a decision for the subject.

8 METHODS OF ASSESSMENT
Methods of assessment refer to who carries out the assessment and includes lecturer assessment, self-assessment, peer assessment and group assessment.

<table>
<thead>
<tr>
<th>LECTURER ASSESSMENT</th>
<th>The lecturer assesses students’ performance against given criteria in different contexts, such as individual work, group work, etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td>SELF-ASSESSMENT</td>
<td>Students assess their own performance against given criteria in different contexts, such as individual work, group work, etc.</td>
</tr>
<tr>
<td>PEER ASSESSMENT</td>
<td>Students assess another student’s or group of students’ performance against given criteria in different contexts, such as individual work, group work, etc.</td>
</tr>
<tr>
<td>GROUP ASSESSMENT</td>
<td>Students assess the individual performance of other students within a group or the overall performance of a group of students against given criteria.</td>
</tr>
</tbody>
</table>

9 INSTRUMENTS AND TOOLS FOR COLLECTING EVIDENCE
All evidence collected for assessment purposes is kept or recorded in the student’s Portfolio of Evidence (PoE).

The following table summarises a variety of methods and instruments for collecting evidence. A method and instrument is chosen to give students ample opportunity to demonstrate that the Subject Outcome has been attained. This will only be possible if the chosen methods and instruments are appropriate for the target group and the Specific Outcome being assessed.
10 TOOLS FOR ASSESSING STUDENT PERFORMANCE

Rating scales are marking systems where a symbol (such as 1 to 7) or a mark (such as 5/10 or 50%) is defined in detail. The detail is as important as the coded score. Traditional marking, assessment and evaluation mostly used rating scales without details such as what was right or wrong, weak or strong, etc.

Task lists and checklists show the student what needs to be done. They consist of short statements describing the expected performance in a particular task. The statements on the checklist can be ticked off when the student has adequately achieved the criterion. Checklists and task lists are useful in peer or group assessment activities.

Rubrics are a hierarchy (graded levels) of criteria with benchmarks that describe the minimum level of acceptable performance or achievement for each criterion. Use of rubrics is a different way of assessment and cannot be compared to tests. Each criterion described in the rubric must be assessed separately. Mainly, two types of rubrics, namely holistic and analytical, are used.

11 SELECTING AND/OR DESIGNING RECORDING AND REPORTING SYSTEMS

The selection or design of recording and reporting systems depends on the purpose of recording and reporting student achievement. Why particular information is recorded and how it is recorded determine which instrument will be used.

Computer-based systems, for example spreadsheets, are cost and time effective. The recording system should be user-friendly and information should be easily accessed and retrieved.

12 COMPETENCE DESCRIPTIONS

All assessment should award marks to evaluate specific assessment tasks. However, marks should be awarded against rubrics and not simply be a total of ticks for right answers. Rubrics should explain the competence level descriptors for the skills, knowledge, values and attitudes (SKVAs) that a student must demonstrate to achieve each level of the rating scale.

When lecturers or assessors prepare an assessment task or question, they must ensure that the task or question addresses an aspect of a Subject Outcome. The relevant Assessment Standard must be used to create the rubric to assess the task or question. The descriptions must clearly indicate the minimum level of attainment for each category on the rating scale.
13  STRATEGIES FOR COLLECTING EVIDENCE

A number of different assessment instruments may be used to collect and record evidence. Examples of instruments that can be (adapted and) used in the classroom include:

13.1 Record sheets

The lecturer observes students working in a group. These observations are recorded in a summary table at the end of each project. The lecturer can design a record sheet to observe students’ interactive and problem-solving skills, attitudes towards group work and involvement in a group activity.

13.2 Checklists

Checklists should have clear categories to ensure that the objectives are effectively met. The categories should describe how the activities are evaluated and against what criteria they are evaluated. Space for comments is essential.

SECTION C: ASSESSMENT IN MARKETING

1  SCHEDULE OF ASSESSMENT

At NQF levels 2, 3 and 4, lecturers will conduct assessments as well as develop a schedule of formal assessments that will be undertaken in the year. All three levels also have an external examination that accounts for 50 percent of the total mark. The marks allocated to assessment tasks completed during the year, kept or recorded in a Portfolio of Evidence (PoE) account for the other 50 percent.

The Portfolio of Evidence (PoE) and the external assessment include practical and written components. The practical assessment in Marketing must, where necessary, be subjected to external moderation by Umalusi or an appropriate Education and Training Quality Assurance (ETQA) body, appointed by the Umalusi Council in terms of Section 28(2) of the General and Further Education and Training Quality Assurance Act, 2001 (Act No. 58 of 2001).

2  RECORDING AND REPORTING

Marketing, as is the case for all the other Vocational subjects, is assessed according to five levels of competence. The level descriptions are explained in the following table.

Scale of Achievement for the Vocational component

<table>
<thead>
<tr>
<th>RATING CODE</th>
<th>RATING</th>
<th>MARKS %</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Outstanding</td>
<td>80-100</td>
</tr>
<tr>
<td>4</td>
<td>Highly competent</td>
<td>70-79</td>
</tr>
<tr>
<td>3</td>
<td>Competent</td>
<td>50-69</td>
</tr>
<tr>
<td>2</td>
<td>Not yet competent</td>
<td>40-49</td>
</tr>
<tr>
<td>1</td>
<td>Not achieved</td>
<td>0-39</td>
</tr>
</tbody>
</table>

The programme of assessment should be recorded in the Lecturer’s Portfolio of Assessment for each subject. The following should at least be included in the Lecturer’s Assessment Portfolio:

- A contents page
- The formal schedule of assessment
- The requirements for each assessment task
- The tools used for each assessment task
- Recording instrument(s) for each assessment task
- A mark sheet and report for each assessment task

The college must standardise these documents.

The student’s Portfolio of Evidence (PoE) must at least include:

- A contents page
- The assessment tasks according to the assessment schedule
• The assessment tools or instruments for the task
• A record of the marks (and comments) achieved for each task

Where a task cannot be contained as evidence in the Portfolio of Evidence (PoE), its exact location must be recorded and it must be readily available for moderation purposes.
ASSESSMENT OF MARKETING
LEVEL 3
3 INTERNAL ASSESSMENT OF SUBJECT OUTCOMES IN MARKETING - LEVEL 3

Topic 1: Data collection for marketing decisions

<table>
<thead>
<tr>
<th>SUBJECT OUTCOME</th>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
</table>
| 1.1 Understand the value of market research. | - The concept market research is defined in a marketing context.  
- An understanding of the research process with specific emphasis on the value of managerial information is demonstrated.  
- An awareness of the allocation of funds is demonstrated.  
- An ability to allocate time-frames to selected research outcomes is demonstrated.  
- An understanding of the need for access to people with specific marketing skills is demonstrated.  
- An ability to identify target markets is demonstrated. | - Define the concept market research in relation to a marketing context.  
- Describe the role of market research in the marketing concept.  
- Discuss the role of market research in the decision making process.  
- Explain the role that market research should have in a business.  
- Discuss how the allocation of funds for market research is made.  
- Explain how time-frames are allocated to research outcomes.  
- Demonstrate the ability to allocate time-frames to selected research outcomes in a research project.  
- Discuss the need for access to people with specific marketing skills so that the value of marketing research is understood.  
- Demonstrate the ability to identify target markets through market research process. |

ASSESSMENT TASKS OR ACTIVITIES
- Discussion activity with clear guidelines – students to document discussion
- Written tasks

<table>
<thead>
<tr>
<th>SUBJECT OUTCOME</th>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
</table>
| 1.2 Discuss the influence market research in an organisation. | - An understanding is displayed through analysis of the marketing environment in which market research takes place, with emphasis of factors influencing marketing research.  
- Factors influencing market research are assessed to ascertain those that influenced named organisation.  
- Reasons why market research should take place in a business are given in relation to their importance to the named business.  
- Planning of market research is discussed in relation to instances when market research should take place. | - Identify marketing environments where marketing research takes place.  
- Discuss the factors that influence market research in marketing, emphasising the marketing environments that are affected.  
- Distinguish and assess the factors that influence market research for a given marketing organisation.  
- Explain the place of market research in the business.  
- Discuss the importance of market research in an organisation including benefits and limitations.  
- Give instances when an organisation should undertake a market research project. |

ASSESSMENT TASKS OR ACTIVITIES
- Review of level two marketing environments.  
- Group discussion.  
- Research task – Choose a marketing organisation – interview marketing personnel with respect to market research. Write up findings or present findings. (Transparency and OHP, power point slides, flipcharts can be used in presentation)  
- Note: Integrated assessment can occur with marketing communication presentation
### SUBJECT OUTCOME

**1.3 Describe the nature and scope of market research as it applies to an organisation.**

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The nature of market research is described as it applies to marketing and the organisation.</td>
<td>• Describe the nature of market research as it applies to marketing and the organisation.</td>
</tr>
<tr>
<td>• The nature of market research is discussed as it applies to the organisation's marketing policy.</td>
<td>• Discuss the application of market research in different areas in the organisation and in relation to the organisation's marketing policy.</td>
</tr>
<tr>
<td>• The scope of market research is described as it applies to the marketing context.</td>
<td>• Describe the scope of market research as it applies to the marketing context.</td>
</tr>
<tr>
<td>• The scope of market research is discussed as it applies to the organisation's marketing policy.</td>
<td>• Discuss the scope of market research as it applies to the organisation's marketing policy.</td>
</tr>
<tr>
<td>• The scope of market research is reviewed to ensure that it is current and appropriate.</td>
<td>• Demonstrate the ability to review the scope of market research to ascertain whether the scope is current or not.</td>
</tr>
<tr>
<td>• The steps of the market research process are listed and discussed.</td>
<td>• List and discuss the steps of the market research process so that market research can be carried out successfully.</td>
</tr>
<tr>
<td>• The concept research design is explained.</td>
<td>• Explain the concept research design including the components and the different types of research design.</td>
</tr>
</tbody>
</table>

**ASSESSMENT TASKS OR ACTIVITIES**

- Discussion activity
- Written exercise
- Review the scope of marketing from a case study
- Library activity: Compare steps in market research from at least three marketing books. List the most common set of steps used in market research

### SUBJECT OUTCOME

**1.4 Explain the importance of planning market research especially for a marketing organisation.**

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The importance of planning market research is discussed in relation to improving performance of market research.</td>
<td>• Discuss the importance of planning market research.</td>
</tr>
<tr>
<td>• The importance of planning market research is summarised.</td>
<td>• Describe ways in which the performance of market research can improve with planning.</td>
</tr>
<tr>
<td></td>
<td>• Summarise the importance of market research in a market organisation</td>
</tr>
</tbody>
</table>

**ASSESSMENT TASKS OR ACTIVITIES**

- Group Discussion
- Summarise the outcome of the group discussion
- Self-assessment checklist
- Topic test

### Topic 2: The role of market research in the marketing concept

**SUBJECT OUTCOMES**

**2.1 Explain the role of market research in the marketing department of an organisation.**

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The role of market research is explained in relation to its function and purpose to the marketing department.</td>
<td>• Explain the role of market research in relation to its function and purpose in the marketing department.</td>
</tr>
<tr>
<td>• The importance of market research in marketing is outlined.</td>
<td>• Outline the importance of market research in marketing.</td>
</tr>
<tr>
<td>• The consequences of neglecting market research are described in the marketing context.</td>
<td>• Describe the consequences of neglecting market research in a marketing company.</td>
</tr>
</tbody>
</table>

**ASSESSMENT TASKS OR ACTIVITIES**

- Discussion activity – here information researched for Topic 1: Discuss the influence market research has in an organisation.
- Written exercise
## SUBJECT OUTCOMES

### 2.2 Describe the factors that influence market research in an organisation

#### ASSESSMENT STANDARD
- Factors that influence market research in an organisation are outlined in order of priority

#### LEARNING OUTCOME
- List the factors that influence market research in an organisation.
- Explain how the factors impact on market research

#### ASSESSMENT TASKS OR ACTIVITIES
- Discussion activity – here information researched for Topic 1: Discuss the influence market research has in an organisation.

### 2.3 Compare the positive and negative aspects of current trends of market research.

#### ASSESSMENT STANDARD
- Current trends in market research are discussed with examples.
- A comparison of current positive and negative trends in market research is made.

#### LEARNING OUTCOME
- Discuss current trends in market research.
- Give examples of market research trends.
- Compare positive and negative trends in market research.

#### ASSESSMENT TASKS OR ACTIVITIES
- Individual investigation task - Written findings must be supported with field evidence.

### 2.4 Explain how market research is incorporated into a marketing plan.

#### ASSESSMENT STANDARD
- The manner in which market research is incorporated into a marketing plan is explained.
- The steps in the marketing research process are described.
- The different methods used to acquire source data are explained including primary and secondary data.
- The use of market research results is explained.

#### LEARNING OUTCOME
- Explain how market research is incorporated into a marketing plan.
- Explain what happens to the results of the market research.

#### ASSESSMENT TASKS OR ACTIVITIES
- Discussion
- Written activity

### Topic 3: Market research and the product life cycle

#### SUBJECT OUTCOME

### 3.1 Discuss product life cycles and the impact market research has on the life cycle of a product.

#### ASSESSMENT STANDARD
- A definition of product life cycle is given so that the influence of market research is understood.
- The phases of a product life cycle are listed with examples, and their characteristics described.
- The relationship between market research and the product life cycle is defined so that decision makers can identify opportunities or problems successfully.

#### LEARNING OUTCOME
- Discuss the concept product life cycle so that the manner in which this is influenced by market research is understood.
- Explain the impact market research has on the life cycle of a product.
- List the phases of a product life cycle with examples.
- Describe the characteristics of the phases in order to show their influence on market research.
- Discuss the adopter cycle in relation to product life cycle.
- Define the relationship between market research and the product life cycle.
- Describe how marketing will be affected by market research and the life cycle of a product.
- Explain why market research is important to the decision makers of an organisation.
### ASSESSMENT TASKS OR ACTIVITIES
- Written task
- Illustration - Draw the product life cycle diagram with explanation.
- Research activity

### SUBJECT OUTCOME

#### 3.2 Describe the consequences, benefits and limitations of market research.

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>The benefits of market research are identified and explained with respect to their impact on advertising and sales.</td>
<td>Identify and explain the benefits of market research in relation to the impact of market research on advertising and sales.</td>
</tr>
<tr>
<td>Limitations of market research are identified and explained in relation to their impact on advertising and sales.</td>
<td>Identify and explain the limitations of market research in relation to the impact of market research on advertising and sales.</td>
</tr>
<tr>
<td>The consequences of market research not taking place in an organisation is identified and explained.</td>
<td>Describe the consequences if market research does not take place in a marketing organisation.</td>
</tr>
</tbody>
</table>

### ASSESSMENT TASKS OR ACTIVITIES
- Research activity: Interview marketing research specialist – document interview findings – interviewee to sign findings as true reflection of interview findings
- Written task

### SUBJECT OUTCOME

#### 3.3 Research the use of market research in an organisation and compile a one page report on your findings.

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>A one page report is compiled after careful research into the use of market research over a two year period in an organisation. The one page must be the ‘body’ of the report and not the headings normally found in a typical report.</td>
<td>Research the use of market research over a two year period in an organisation. Compile a one page report on your findings on the use of market research.</td>
</tr>
</tbody>
</table>

### ASSESSMENT TASKS OR ACTIVITIES
- Research task
- Document findings in a report.
- NOTE: Integrated assessment can take place with Communication in the fundamentals – report writing
- Topic test
## Topic 4: Market research data capturing methods

### SUBJECT OUTCOME

#### 4.1 Prepare data for computer data entry or retrieval.

**ASSESSMENT STANDARD**

- Data types are identified and include at least alphabetic, numeric and alphanumeric.
- Use of structured codes for entry and retrieval of data is recognised in relation to the nature of the data output required.
  
  *Range*: identity or driver's licence or passport numbers; credit card numbers; customer account numbers; employee number; evidence is required for two different structured codes.

- Data preparation procedures identified are consistent with entry and retrieval system used and the data output required.
  
  *Range*: batching; checking methods of data entry; validating data types for entry or retrieval; evidence is required for two data preparation methods.

- Data verification methods identified are consistent with the entry and retrieval system used and data output required.
  
  *Range*: re-entry of data, database structure, data entry form design, output analysis; evidence is required for two data verification methods.

**LEARNING OUTCOME**

- Identify data types including alphabetic, numeric and alphanumeric.
- Recognise the use of structured codes for entry and retrieval of data in relation to the nature of data output required including identity or driver's licence or passport numbers; credit card numbers; customer account numbers; employee numbers; evidence is required for two different structured codes.

- Identify data preparation procedures consistent with entry and retrieval system used and the data output required including batching, checking methods of data entry, validating data types for entry or retrieval.

- Identify data verification methods that are consistent with the entry and retrieval system used and data output required including re-entry of data, database structure, data entry form design, output analysis.

**ASSESSMENT TASKS OR ACTIVITIES**

- Practical exercises: Complete documents using structured codes.
- Checklist of data preparation procedures for two data preparation methods.
- Research task on at least two data verification methods - documented discussion or presentation of findings.

### SUBJECT OUTCOME

#### 4.2 Enter and retrieve data using a computer software program.

**ASSESSMENT STANDARD**

- Keyboarding techniques are applied to key-in and retrieve passages of 300 keystrokes containing alpha, numeric, and special character key combinations in accordance with information provided and output required.

- Keyboarding techniques are applied to the numeric keypad to key-in and retrieve passages of 300 keystrokes containing numeric key combinations in accordance with information provided and output required.

**LEARNING OUTCOME**

- Enter data using a computer software program using keyboarding techniques to key-in and retrieve passages of 300 keystrokes containing alpha, numeric, and special character key combinations in accordance with information provided and output required.

- Retrieve data using a computer software program using keyboarding techniques applied to the numeric keypad to key-in and retrieve passages of 300 keystrokes containing numeric key combinations in accordance with information provided and output required.

**ASSESSMENT TASKS OR ACTIVITIES**

- Practical exercises.
- Print out of completed data/information.
- Print outs of alpha, numeric and special key combination passages retrieved using keyboarding techniques.
- Print out of retrieved data of numeric key combinations.

### SUBJECT OUTCOME

#### 4.3 Develop data entry and retrieval speed and accuracy

**ASSESSMENT STANDARD**

- Data containing alphabetic, numeric, and special characteristics, of minimum of 2000 keystrokes, is entered within 20 minutes, within 98% accuracy level, in accordance with information provided and output required.

**LEARNING OUTCOME**

- Enter data containing alphabetic, numeric, and special characteristics, of minimum of 2000 keystrokes, by entering within 20 minutes, within 98% accuracy level, in accordance with information provided and output required.
### ASSESSMENT TASKS OR ACTIVITIES

- Practical exercise
- Print out of 2000 keystrokes
- Practical test

#### Topic 5: Marketing policy and plan

### SUBJECT OUTCOME

#### 5.1 Explain what a marketing policy and plan are in relation to a marketing context

<table>
<thead>
<tr>
<th>ASSESSMENT STANDARD</th>
<th>LEARNING OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marketing policy and plan are defined accurately.</td>
<td>Explain what a marketing policy is.</td>
</tr>
<tr>
<td>An organisation’s marketing policy and plan are sourced.</td>
<td>Define the concepts marketing policy and plan.</td>
</tr>
<tr>
<td>The importance of a marketing policy and plan are discussed in relation to the functioning of the marketing department.</td>
<td>Obtain a marketing policy from an organisation.</td>
</tr>
<tr>
<td>The marketing policy and plan of an organisation is examined to ascertain if it meets the necessary marketing policy requirements.</td>
<td>Discuss the importance of a marketing policy in relation to the function of a marketing organisation.</td>
</tr>
<tr>
<td>The purpose of a marketing policy and plan in an organisation is explained.</td>
<td>Peruse an organisation’s marketing policy and assess if it meets the necessary marketing policy requirements.</td>
</tr>
<tr>
<td>The use of a marketing policy in an organisation is identified and explained.</td>
<td>Describe the purpose of a marketing policy in an organisation.</td>
</tr>
<tr>
<td>The organisational requirements and their significance to the development of the marketing plan and policy are reviewed.</td>
<td>Identify the use of a marketing policy in an organisation.</td>
</tr>
<tr>
<td>Explain the use of a marketing policy in an organisation.</td>
<td>Explain the use of a marketing policy in an organisation.</td>
</tr>
<tr>
<td>Peruse an organisation’s marketing policy and assess if it meets the necessary marketing policy requirements.</td>
<td>Review the organisational requirements and the significance of this to the development of the marketing plan and policy.</td>

<td>Topic test</td>
<td>Examinations/ Practical examinations</td>
</tr>
</tbody>
</table>

---

Department of Education
4 SPECIFICATIONS FOR EXTERNAL ASSESSMENT IN MARKETING - LEVEL 3

4.1 Integrated Summative Assessment Task (ISAT)
A compulsory component of ESASS is the Integrated Summative Assessment Task (ISAT), which is a major assessment task that draws on the students’ cumulative learning achieved throughout the full year. The task requires integrated application of competence and is executed and recorded in compliance with assessment conditions.

In Marketing Level 3 students will have achieved the competencies through the year but the competencies will be assessed cumulatively in a single assessment/exam session at the end of the year.

The ISAT will be set by the externally appointed examiner and be conveyed to colleges within the first quarter of each year.

The integrated assessment approach allows for the student to be assessed in more than one subject within the same ISAT.

4.2 National examination
A national formal theory examination is conducted annually in October or November by means of a paper set externally and marked and moderated externally. The following distribution of cognitive application is suggested:

<table>
<thead>
<tr>
<th>LEVEL 3</th>
<th>KNOWLEDGE AND COMPREHENSION</th>
<th>APPLICATION</th>
<th>ANALYSIS, SYNTHESIS AND EVALUATION</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>60%</td>
<td>35%</td>
<td>15%</td>
</tr>
</tbody>
</table>
