FOREWORD BY THE MINISTER

Our national curriculum is the culmination of our efforts over a period of seventeen years to transform the curriculum bequeathed to us by apartheid. From the start of democracy we have built our curriculum on the values that inspired our Constitution (Act 108 of 1996). The Preamble to the Constitution states that the aims of the Constitution are to:

- heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;

- improve the quality of life of all citizens and free the potential of each person;

- lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; and

- build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

Education and the curriculum have an important role to play in realising these aims.

In 1997 we introduced outcomes-based education to overcome the curricular divisions of the past, but the experience of implementation prompted a review in 2000. This led to the first curriculum revision: the *Revised National Curriculum Statement Grades R-9* and the *National Curriculum Statement Grades 10-12* (2002).

Ongoing implementation challenges resulted in another review in 2009 and we revised the *Revised National Curriculum Statement* (2002) and the *National Curriculum Statement Grades 10-12* to produce this document.

From 2012 the two National Curriculum Statements, for *Grades R-9* and *Grades 10-12* respectively, are combined in a single document and will simply be known as the *National Curriculum Statement Grades R-12.* The *National Curriculum Statement for Grades R-12* builds on the previous curriculum but also updates it and aims to provide clearer specification of what is to be taught and learnt on a term-by-term basis.

The *National Curriculum Statement Grades R-12* represents a policy statement for learning and teaching in South African schools and comprises of the following:

(a) Curriculum and Assessment Policy Statements (CAPS) for all approved subjects listed in this document;

(b) *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*; and

(c) *National Protocol for Assessment Grades R-12.*

SECTION 1: INTRODUCTION TO THE CURRICULUM AND ASSESSMENT POLICY STATEMENT

1.1 BACKGROUND

The *National Curriculum Statement Grades R-12 (NCS)* stipulates policy on curriculum and assessment in the schooling sector.

To improve implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive Curriculum and Assessment Policy document was developed for each subject to replace Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R-12.

1.2 OVERVIEW

(a)   The *National Curriculum Statement Grades R-12 (January 2012)* represents a policy statement for learning and teaching in South African schools and comprises the following:

   (i)   *Curriculum and Assessment Policy Statements for each approved school subject;*

   (ii)   *The policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*

   (iii)   *The policy document, National Protocol for Assessment Grades R-12 (January 2012).*

(b)   The *National Curriculum Statement Grades R-12 (January 2012)* replaces the two current national curricula statements, namely the

   (i)   *Revised National Curriculum Statement Grades R-9, Government Gazette No. 23406 of 31 May 2002, and*

   (ii)   *National Curriculum Statement Grades 10-12 Government Gazettes, No. 25545 of 6 October 2003 and No. 27594 of 17 May 2005.*

(c)   The national curriculum statements contemplated in subparagraphs b(i) and (ii) comprise the following policy documents which will be incrementally repealed by the *National Curriculum Statement Grades R-12 (January 2012)* during the period 2012-2014:

   (i)   *The Learning Area/Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R-9 and Grades 10-12;*

   (ii)   *The policy document, National Policy on assessment and qualifications for schools in the General Education and Training Band, promulgated in Government Notice No. 124 in Government Gazette No. 29626 of 12 February 2007;*

   (iii)   *The policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), promulgated in Government Gazette No.27819 of 20 July 2005;*

(iv) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in Government Gazette, No.29466 of 11 December 2006, is incorporated in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*

(v) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment (Grades R-12), promulgated in Government Notice No.1267 in Government Gazette No. 29467 of 11 December 2006.=*

(d) The policy document, *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*, and the sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the *National Curriculum Statement Grades R-12.* It will therefore, in terms of *section 6A* of the *South African Schools Act, 1996 (Act No. 84 of 1996,)* form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.

1.3 GENERAL AIMS OF THE SOUTH AFRICAN CURRICULUM

(a) The *National Curriculum Statement Grades R-12* gives expression to the knowledge, skills and values worth learning in South African schools. This curriculum aims to ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes knowledge in local contexts, while being sensitive to global imperatives.

(b) The National Curriculum Statement Grades R-12 serves the purposes of:

• equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;

• providing access to higher education;

• facilitating the transition of learners from education institutions to the workplace; and

• providing employers with a sufficient profile of a learner's competences.

(c) The National Curriculum Statement Grades R-12 is based on the following principles:

• Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;

• Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;

• High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and set high, achievable standards in all subjects;

• Progression: content and context of each grade shows progression from simple to complex;

- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades R-12 is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;

- Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and

- Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.

(d)   The National Curriculum Statement Grades R-12 aims to produce learners that are able to:

- identify and solve problems and make decisions using critical and creative thinking;

- work effectively as individuals and with others as members of a team;

- organise and manage themselves and their activities responsibly and effectively;

- collect, analyse, organise and critically evaluate information;

- communicate effectively using visual, symbolic and/or language skills in various modes;

- use science and technology effectively and critically showing responsibility towards the environment and the health of others; and

- demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.

(e)   Inclusivity should become a central part of the organisation, planning and teaching at each school. This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education's *Guidelines for Inclusive Teaching and Learning* (2010).

SECTION 2: INTRODUCING THE SECOND ADDITIONAL LANGUAGE IN THE INTERMEDIATE PHASE

2.1 LANGUAGES IN THE CURRICULUM AND ASSESSMENT POLICY STATEMENT

Language is a tool for thought and communication. It is also a cultural and aesthetic means commonly shared among a people to make better sense of the world they live in. Learning to use language effectively enables learners to acquire knowledge, to express their identity, feelings and ideas, to interact with others, and to manage their world. It also provides learners with a rich, powerful and deeply rooted set of images and ideas that can be used to make their world other than it is; better than it is; clearer than it is. It is through language that cultural diversity and social relations are expressed and constructed, and it is through language that such constructions can be altered, broadened and refined.

2.1.1 Language levels

Language learning in the Intermediate Phase includes all the official languages in South Africa, namely, Afrikaans, English, isiNdebele, isiXhosa, isiZulu, Sepedi (Sesotho sa Leboa), Sesotho, Setswana, Siswati, Tshivenda, Xitsonga and non-official languages, namely, Arabic, French, German, Gujarati, Hebrew, Hindi, Italian, Latin, Modern Greek, Portuguese, Spanish, Tamil, Telugu, Urdu. All official languages can be offered at Home, First Additional, or Second Additional Language levels. All non-official languages are offered on at least Second Additional Language level.

Language learning in Grades 4 - 9 includes all the official languages in South Africa. All these official languages can be offered at Home, First Additional, or Second Additional Language levels. Non-official languages may be offered on at least Second Additional Language level where such languages have been developed.

The Home Language is the language first acquired by learners while First Additional language is the language learnt in addition to one's home language. The Second Additional Language is the further language that a learner can learn, that enables broader communication and promotes multilingualism as enshrined in the Constitution and the Language in Education Policy. The language may be in use within the community or culture and will enhance nation building and intercultural understanding. Many South African schools do not offer the home languages of some or all of the enrolled learners but rather have one or two languages offered at home language level. As a result, the names Home Language, First Additional and Second Additional Language refer to the proficiency levels at which the language is offered, and not the native (Home) or acquired (as in the Additional) languages. For the purposes of this policy, any reference to Home Language should be understood to refer to the level and not the language itself.

The Home Language level provides for language proficiency that reflects the mastery of basic interpersonal communication skills required in social situations and the cognitive academic skills essential for learning across the curriculum. Emphasis is placed on the teaching of the listening, speaking, Reading and Writing skills at this language level. This level also provides learners with a literary, aesthetic and imaginative ability that will provide them with the ability to recreate, imagine, and empower their understandings of the world they live in. However, the emphasis and marks allocated for Reading and Writing from Grades 7 onwards are greater than that for speaking and listening because the demands on learners' literacy increase as they prepare for further and higher education and the world of work.

The First Additional Language level assumes that learners do not necessarily have any knowledge of the language when they arrive at school. The focus in the first few years of school is on developing learners' ability to understand and speak the language - basic interpersonal communication skills. In Grades 2 and 3 learners start to build literacy on this oral foundation. They also apply the literacy skills they have already learned in their Home Language.

In the Intermediate and Senior Phases, learners continue to strengthen their listening, speaking, Reading and Writing skills. At this stage the majority of children are learning through the medium of their First Additional Language, English, and should be getting more exposure to it. Greater emphasis is therefore given to using the First Additional Language for the purposes of thinking and reasoning. This enables learners to develop their cognitive academic skills, which they need to study subjects like Science in English. They also engage more with literary texts and begin to develop aesthetic and imaginative ability in their Additional Language.

By the time learners enter Grade 7, they should be reasonably proficient in their First Additional Language with regard to both interpersonal and cognitive academic skills. However, the reality is that many learners still cannot communicate well in their Additional Language at this stage. The challenge in Grades 4-6, therefore, is to provide support for these learners at the same time as providing a curriculum that enables learners to meet the standards required in further grades. These standards must be such that learners can use their additional language at a high level of proficiency to prepare them for further or higher education or the world of work.

The Second Additional Language level assumes that learners do not necessarily have any knowledge of the language when they arrive at school. The focus upon exposure to Second Additional Language is on developing learners' ability to understand and speak the language - basic interpersonal communication skills. In Grades 4 - 6 learners start to build their oral and literacy skills. They also apply the oral and literacy skills they have already learned in their Home and First Additional Languages.

In Grades 7-9, learners will continue to strengthen their Listening and Speaking while developing their Reading and Writing skills.

By the time learners enter Grade 7, they should try to communicate in their Second Additional Language at both interpersonal and social levels. However, the reality is that many learners still cannot communicate well in their Additional Language at this stage. The challenge in Grades 4-6, therefore, is to provide support for these learners at the same time as providing a curriculum that enables learners to meet the standards required in further grades. These standards must be such that learners can use their additional language at a level of proficiency to prepare them for further or higher education or the world of work.

2.1.1.1 Specific aims of learning Second Additional Languages

Learning a Second Additional Language should enable learners to:

• acquire the language skills necessary to communicate appropriately in the target language at a basic level;

• listen, speak, read/view and write the language with growing confidence and enjoyment. These skills and attitudes form the basis for life-long learning;

• express, orally and in writing, and emotions in order to become comfortable in the language;

• use language and their imagination to find out more about themselves and the different cultures and the world around them. This will enable them to express their experiences and findings about the world orally and in writing;

• use language to access and manage communication in other contexts. Information literacy is a vital skill in the 'information age' and forms the basis for lifelong learning;

• use language as a means for expressing information on familiar topics; for interacting with a familiar range of texts; and for reading texts for enjoyment, basic information and communication.

2.1.1.2 Teaching the Second Additional Language

In order to learn an Additional Language well, one needs as much exposure to it as possible in order to build linguistic competence and basic discourse competence. Teachers should therefore ensure that learners listen to and read the Additional Language in the time allocated for various purposes. The learners need opportunities to listen to the Additional Language for information and comprehension (e.g. a dialogue) and for pleasure (e.g. a song). Even more importantly, they need opportunities to read and view the Additional Language for information (e.g. instructions to make a sandwich), pleasure (e.g. a simple story). Research shows that the best way to develop a wide vocabulary is through reading of appropriate texts. It is very important that oral, written and visual texts are at the right level for learners. If the texts are too difficult, learners will get discouraged and they will not learn anything; if they are too easy, there will be no challenge and little learning will take place. An important role of the language teacher is to match the level of text to the level of the learner. Throughout the Intermediate Phase, learners should be listening to and reading texts that are in line with their developing language skills.

Learners also need to use their Additional Language as often as possible. They need opportunities to listen, speak, read and, to a lesser extent, write the Additional Language for interpersonal reasons (e.g. a dialogue), to develop their creativity (e.g. performing a song, role playing, etc.), to develop communicative skills (e.g. expressing an opinion, meeting and greeting).

Learners need to understand the purpose for which they are speaking. Throughout the Intermediate Phase, learners should be doing oral exercises that are in line with their developing language skills. It is necessary that learners get regular and timely feedback on their orals so that they know where and how to improve. An important role of a language teacher is to provide high quality feedback, which is at the heart of good assessment.

Learners also need to know the basics of language: grammar, vocabulary, spelling and punctuation. Generally, teachers will deal with these aspects of language in context. For example, they can make learners aware of the structure and features used in giving directions (commands are used). There is also a place for direct/explicit teaching of the basics and the opportunity to practise them.

When planning a two-week unit of lessons, teachers should integrate language skills, together with the basics of language. They should choose a text type and a topic / theme that will interest learners; little learning can be achieved if learners are not engaged and motivated. For example, a topic for phrases / sentences might be 'My school'. Teachers could introduce the topic through listening and/or reading, building the language and vocabulary knowledge necessary for speaking. For example, learners could read a short text presenting the vocabulary and language structures. Once learners are familiar with the language necessary for this topic, they could then write the phrase / sentence. This would provide further opportunities for working with language. Teachers should provide feedback throughout the process and administer an appropriate assessment activity at the end.

In Grades 4 - 6, it is important that:

- There is a strong focus on Listening and Speaking

- There is continued support for the development of vocabulary, sentence and paragraph construction, and grammar in context

- Learners work with a variety of texts, including visual texts. These texts increase in difficulty as they move through the grades

2.1.2 THE LANGUAGE SKILLS

The Second Additional Language curriculum is packaged according to the following skills:

1	Listening and Speaking
2	Reading and Viewing
3	Writing and Presenting
4	Language Structures and Conventions

Listening and Speaking

Listening and Speaking are central to learning in all subjects. Through effective Listening and Speaking strategies, learners collect and synthesise information, construct knowledge, solve problems, and express ideas and opinions. In Grades 4 - 6, **Second Additional Language learners** will use Listening and Speaking skills to communicate at a basic level.

In this phase, learners' spoken language still needs to be scaffolded (i.e. modelled and supported, for example, with vocabulary and sentence frames). The teacher needs to make sure that all learners get opportunities to speak in the target language. Because learners will progress at a different pace, the teacher needs to tailor speaking opportunities (e.g. the questions asked) to the level of the individual child. As the children move through the grades, the teacher should expect children to speak more and their utterances should become longer.

Teaching time should include daily practice of short Listening and Speaking activities as well as longer focused activities spread out through the week.

In Grades 4- 6, teachers should approach listening as a three-phase activity:

• **Pre-listening:** This prepares learners for listening to an oral text in their Additional Language. For example, the teacher could use a visual text and ask a general, focusing question in advance which the learners must answer after they have listened to the text for the first time.

• **During listening:** It is good practice for the teacher to read (or play) a listening text several times, asking different questions each time. It is helpful to move from questions which enable learners to understand the general meaning of the text, to more specific questions that require a more detailed understanding of the text. By doing this, the teacher is helping learners to develop listening strategies.

• **Post listening:** Learners answer further questions, review notes, use information (e.g. to label a picture).

Speaking happens informally in the classroom, for example, in group work. Learners also need opportunities to practise the kind of informal conversations they might not normally have in the classroom. Teachers should provide instruction in formal speaking and presenting, for example, a prepared, reading aloud, etc. This will often be a two-step process:

• Planning and organising ideas and information

• Practising and presenting: demonstrating an awareness of audience and context; the use of appropriate and accurate Language Structures and Conventions; clear delivery; use of appropriate verbal and non-verbal techniques, etc.

Reading and Viewing

Reading and **viewing** skills are central to successful learning across the curriculum, as well as for full participation in society, the world of work and the global context. Learners develop reading and viewing skills of a familiar range of texts, including visual texts, for information.

If necessary, use shared reading at the beginning of Grade 4 to guide learners into this phase. This method can be used from time to time if sufficient books at this level are available. This could be alternated with storytelling. If books at this level are not available, then use texts from a textbook or reader/s. Use also methods such as Reading with and Reading to the whole class.

Use guided group reading and independent/pair reading methods and gradually get learners to do more and more independent reading. The independent reading stipulated in the teaching plans must be accommodated within the time allocated for reading. Encourage learners to do independent reading in any spare time that they have.

Set basic comprehension activities to ensure that learners understand what they read.

The reading process

The introduction of the reading process consists of the pre-reading, reading and post reading stages. Activities that the Teacher will assist the learner in can be summarised as follows:

Pre-reading:

•   Activating prior knowledge and making connections.

•   Looking at the source, author, publication date and type of text.

•   Browsing through the first paragraph of a section - formulating expectancies.

Reading:

•   Pause occasionally to check comprehension and to let the ideas sink in

•   Use the context to work out the meaning of unknown words as much as is possible; where this is not
        possible, use a dictionary

•   Visualise what is being read

•   Continue reading even if parts are not always clearly understood.

•   Reread a section if it is not understood at all. Read confusing sections aloud, at a slower pace, or both.

•   Ask someone to help for understanding a difficult section

•   Add reading marks and annotate key points

•   Reflect on what is being read

Post reading:

•   When the need arises to recall specific information, outline key ideas and a few supporting details

- Write key words to help clarifying and recalling main ideas.

- Think about new questions on the topic

- Understanding - confirm the understanding of the text

- Extend thinking - use ideas that are seen in the text

Writing and presenting

Writing is a powerful instrument of communication that allows learners to construct and communicate thoughts and ideas coherently. Frequent writing practice across a variety of familiar contexts, tasks and subjects enables learners to communicate functionally and creatively. The aim is to introduce writing skills to develop and present appropriate written texts. In the Intermediate Phase, **Second Additional Language learners** will need careful support and guidance to develop writing skills.

Writing is important because it forces learners to think about grammar and spelling. This encourages learners to process the language, speeds up language acquisition and increases accuracy. Learners will learn to write a range of familiar creative and informational texts, initially using writing frames as support and gradually learning to write particular text types independently. They will also employ the writing process to produce well organised, grammatically correct writing texts.

Process approach to writing

Writing and designing texts is a process which consists of the following stages:

- Pre-writing / planning

- Drafting

- Revision, editing, proofreading

- Presenting

Learners need an opportunity to put this process into practice and they should:

- decide on the purpose and audience of a text to be written and/or designed;

- brainstorm ideas using, for example, mind maps, flow charts or lists;

- consult relevant sources, select relevant information and organise ideas;

- produce a first draft which takes into account purpose, audience, topic and text structure

- read drafts and get feedback from others (classmates or the teacher);

- edit and proofread the draft; and

- produce a neat, legible, edited final version.

Language Structures and Conventions

A good knowledge of vocabulary and grammar provides the foundation for skills development (listening, speaking, Reading and Writing) in the Second Additional Language. Intermediate Phase learners will be introduced to language structure and conventions in the target language.

Through interacting with a variety of familiar texts, learners extend their use of vocabulary and correctly apply **language structures**. In the Intermediate Phase, Second Additional Language learners will take more notice of words and grammatical structures they are already familiar with.

Learners will explore progressively how **language is used**. They will also be able to use this knowledge to experiment with language to build meaning (from word and sentence levels to whole texts), and to see how a text and its context are related.

It is expected that Language Structures and Conventions will be taught in context as other language skills are taught and developed. However, in the Intermediate Phase time should be set aside for formal instruction and practice in Language Structures and Conventions. The teaching plans contain a list of language items that should be covered in each grade. These are listed at the beginning of each term. When selecting listening and reading texts for each two week cycle, make sure that they contain some of the language items that need to be covered that term. Create activities related to these texts that will enable learners to use these items, in context. Similarly, the writing texts learners will write will include some of the language items. Give learners guidance on appropriate and correct usage of these items. Select some of the items that learners have difficulty with and give them formal practice (during-the time per week set aside for this).

2.1.3 Language teaching approaches

The approaches to teaching language in these documents are text-based, communicative, integrated and process oriented.

The **text-based approach** and the **communicative approach** are both dependent on the continuous use and production of texts.

A **text-based approach** teaches learners to become competent, confident and critical readers, writers, viewers, and designers of texts. It involves listening to, reading, viewing, and understanding texts. Authentic texts are the main source of content and context for the communicative, integrated learning and teaching of languages. The text-based approach also involves producing different kinds of simple texts for particular purposes.

A **communicative approach** suggests that when learning a language a learner should have a great deal of exposure to the target language and many opportunities to practise or produce the language. Learners learn to read by doing a great deal of reading and learn to write by doing much writing.

The process approach is used when learners produce oral and written texts. The learners engage in different stages of the listening, speaking, reading, and writing processes. They must think of the audience and the purpose during these processes. This will enable them to communicate and express their thoughts in a natural way. For example, the teaching of writing does not focus on the product only but also focuses on the purpose and process of writing. During process writing, learners are taught how to generate ideas, to think about the purpose and audience, to write drafts, to edit their work, and to present a written product that communicates their thoughts.

Approaches to teaching literature / working with texts

The main reason for reading literature / texts in the classroom is to create opportunities to apply learned language skills. The teaching of literature / texts is never easy, but it is impossible without personal, thoughtful, and honest

interpretations and comments from the learners themselves. Unless they learn how to understand texts on their own, they will not have learned much.

Ways to approach the teaching of literature would involve some or all of the following:

• Make every attempt to read as much of the text in class as possible without breaking for any other activity. It is essential that learners have a clear idea of what is going on at the most basic level of the text. Read as many as possible in class, and ensure that learners read poems as well.

• Writing activities that demand a basic understanding of the text being read can prove very helpful in raising language skills levels and raising appreciation of skills levels attained. Class discussions can be fruitful as long as everyone is involved and it leads to written work.

• Finally, work with texts should be approached as a unit, a whole.

Following is a summary of the main text types encountered in the Intermediate Phase and the language structures inherent in these text types. This information will assist in structuring activities on the different texts so that learners can engage with these language structures. Select only a few language structures to give attention to each time when teaching these text types.

2.2 TIME ALLOCATION

3.3   TEACHING PLANS

The teaching plan indicates the minimum content to be covered per term. The sequence of the content listed in a two week cycle is not prescribed and the time given is an approximate indication of how long it should take to cover the content. Teachers should design their teaching plans / work schedules using their textbooks to teach the content per two week cycle using appropriate sequence and pace. The content given in a two week cycle are key texts/activities with the main skills and strategies learners need to develop.

3.3.1   How texts link together in the two week cycle

Different texts have been used as a basis for designing the two week teaching cycle. They have been selected on the basis of how they link together to form an integrated unit, for example learners will listen to a story and then read a story. They will be asked to write a short oral description of a place or person (that will link to the story) or they might be asked to write a message about the story. Select a theme for each two week cycle that will enable the teacher to link the activities successfully. The reason for using themes is to make it possible to constantly recycle vocabulary and language structures in meaningful contexts. In practice, integration suggests variety: variety of forms, of activities, of texts and themes (see Suggested Themes - Reference List below)

3.3.2   How the texts/activities are sequenced across the two week cycle

The texts do not have to be taught in a particular order. In most cases, there should be a Listening and Speaking activity/text to prepare for the reading or writing activity. Sometimes, the Listening and Speaking activity should derive

from the reading text. Learners should engage with the different kinds of texts orally and in reading before they are asked to write these texts. In most cases, the text to be listened to e.g. a story will be different to and at a higher level than the one that learners will read. This is because their listening skills are more developed than their reading skills.

3.3.3   The type of texts prescribed and recommended

There are prescribed text types that are to be taught in every two week cycle. These are specified in the teaching plan and should be contained in the prescribed textbook. In most cases, no specific story type is prescribed. Choices may be made from the variety of contemporary stories, imaginative stories (e.g. adventure, and traditional stories (e.g. myths, legends and fables) that are available. The same is true of poems and songs.

In all cases, this additional reading should relate to the topics and themes chosen for the prescribed texts in that two week cycle. This is very important as it consolidates the Second Additional Language learner's knowledge and understanding of the vocabulary and concepts related to the topic.

3.3.4   Number of key texts in a two week cycle

In the early part of the year, there is usually only one text type or activity per two week cycle. There will sometimes be two text types or activities per two week cycle. Teach these text types and the related activities bearing in mind that learners will be exposed to them numerous times during the course of the year.

3.3.5   How the Language Structures and Conventions are addressed

The content of the "Language Structures and Conventions" section is derived from the types of texts prescribed under the headings Listening and Speaking, Reading, and Writing and will naturally be given attention in the process of engaging with the texts and during the time allocated for Listening and Speaking, Reading and Writing. For example, if a story is being done, learners will naturally use the simple past tense and will read texts using this tense. However, it is also important that activities be developed that focus on particular language structures, in context. Choose items from the "Language Structure and Conventions" section to give learners additional practice in these aspects. Construct activities that are meaningful to learners and that relate to the texts they are studying in the two week cycle. More activities of this nature should be done as learners make progress from Grade 4 to 6. Select very carefully which rules to be explained to learners and keep these to a minimum. Second Additional Language learners learn a language through constant exposure to it and through using to it. Practice in Language Structures and Conventions will refine these skills. Teaching should integrate all the language skills and language structures as they are interrelated. All of these should be taught in context.

39-40	FORMAL ASSESSMENT			

SECTION 4

ASSESSMENT IN THE SECOND ADDITIONAL LANGUAGE

4.1 INTRODUCTION

Assessment is a continuous planned process of identifying, gathering and interpreting information about the performance of learners, using various forms of assessment. It involves four steps: generating and collecting evidence of achievement; evaluating this evidence; recording the findings and using this information to understand and thereby assist the learner's development in order to improve the process of learning and teaching.

Assessment should be both informal (Assessment for Learning) and formal (Assessment of Learning). In both cases regular feedback should be provided to learners to enhance the learning experience.

The Second Additional Language learners' success depends on regular, informal assessment and feedback from the teacher as they engage with the texts and activities. The teaching plan sets out the required content, skills and strategies for teaching and learning over a year. This is what will be assessed at increasing levels of development (progression). Not everything taught needs to be formally assessed. However, it is essential that learners' progress is assessed through both a formal and an informal assessment programme, as this informs planning.

Learners' *listening skills, oral competence, ability to answer questions, participation in discussions* and *written recording skills* where necessary should be observed on a daily basis.

It is important, too, that learners' *understanding of* what they are *reading* is assessed and not just their ability to recognise or decode words. Assessment of reading should therefore also take place regularly and not just be a once-off assessment. Formal reading assessment should focus on reading aloud as well as activities which help a teacher to determine how much the learner has understood, for example, retelling a story or answering questions.

Assessment of written work will focus primarily on the learner's ability to convey meaning, as well as how correctly they have written, for example, correct Language Structures and Conventions, spelling and punctuation. All assessment should recognise that language learning is a process and that learners will not produce a completely correct piece of work the first time round. Therefore the various stages in the writing process should also be introduced.

When giving a formal assessment task, there will be a focus on a particular skill, for example Listening and Speaking, or Reading or Writing. However, because language learning is an integrated process, more than one skill will be used. The language structures should be assessed in context. It must be ensured that assessment is not only done as written work, but allows for practical and oral work too. It is important to assess what learners understand and not what they can just memorise, so assess skills in context as much as possible e.g. learners may spell all their words correctly during a test on Friday, but are they able to use those same words correctly spelt when writing/ recording their personal news or a story?

Teaching and assessment of languages should make provision for inclusion of all learners, and strategies should be found to assist all learners to access or produce language texts. Some students experiencing barriers may not be able to attain some of the aims as they are presented in the Curriculum and Assessment Policy Statement.

4.2   INFORMAL OR DAILY ASSESSMENT

Assessment for learning has the purpose of continuously collecting information on a learner's achievement that can be used to improve their learning.

Informal assessment is a daily monitoring of learners' progress. This is done through observations, discussions, practical demonstrations, learner-teacher conferences, informal classroom interactions, etc. Informal assessment may be as simple as stopping during the lesson to observe learners or to discuss with learners how learning is progressing. Assessment of language competence will be in the form of observation, written exercises, oral activities and presentations, written tests, reading aloud and other forms of assessment. Informal assessment should be used to provide feedback to the learners and to inform planning for teaching, but need not be recorded. It should not be seen as separate from learning activities taking place in the classroom. Many of the learning activities may be used to assess learners' performance informally. In some cases, teachers might want to set specific assessment types of activities to motivate learners to learn, such as regular spelling texts. Learners or teachers can mark these assessment tasks.

It is suggested that teachers use the first two weeks of the term to do a baseline assessment of learners. Use the activities given in the first two weeks of the teaching plans to do this assessment. This will enable teachers to establish the kind of attention that learners will need as they proceed.

Self assessment and peer assessment actively involves learners in assessment. This is important as it allows learners to learn from and reflect on their own performance. The results of the informal daily assessment tasks are not formally recorded unless the teacher wishes to do so. Teachers may however wish to keep their own informal records of how individual learners are progressing in the different aspects of the subject to assist with planning and ensuring that individual learners develop the required skills and understanding. The results of daily assessment tasks are not taken into account for promotion and certification purposes.

4.3   FORMAL ASSESSMENT

All assessment tasks that make up a formal programme of assessment for the year are regarded as Formal Assessment. Formal assessment tasks are marked and *formally recorded* by the teacher for progression and certification purposes. All Formal Assessment tasks are subject to moderation for the purpose of quality assurance and to ensure that appropriate standards are maintained.

Formal assessment provides teachers with a systematic way of evaluating how well learners are progressing in a grade and in a particular subject. Examples of formal assessments include tests, examinations, oral presentations, demonstrations (such as retelling a story, matching), performances (such as role play), paragraphs/passages participation in oral tasks (such as dialogues, conversations, discussions), written tasks (such as completing a worksheet, writing paragraphs or other types of texts), etc. Formal assessment tasks form part of a year-long formal Programme of Assessment in each grade and subject. While preparations for *formal assessment tasks* could be done outside the classroom, the final version should be done under controlled conditions, in the classroom.

Formal assessment tasks form part of a year-long formal Programme of Assessment in each grade and subject.

Formal assessment tasks must assess not only learners' knowledge and skill but also their use of the language in context.

In formal assessment, use memoranda, rubrics, checklists and rating scales as well as other appropriate assessment tools to observe, assess and record learners' levels of understanding and skill. Choose an assessment tool that is most appropriate for the type of activity. For example, a rubric is more suitable than a memorandum for a creative writing piece. A memorandum is better suited to a spelling test or a reading comprehension activity.

The formal assessment requirements for Second Additional Language are as follows:

- One formal assessment tasks for the first and third terms must be completed and one in the fourth term, totalling five in all for the school year. These five formal assessment tasks make up 75% of the total mark for Second Additional Language in Grades 4, 5 and 6. This formal assessment mark will include the mid-year test or examination, if this is given.

- The first formal assessment task in each term should be done in the middle of the term. The mid-year test formal assessment task in term 2 should be done towards the end of the term.

- There will be an examination at the year-end which will count for 25% of the mark.

- Each formal assessment task should be made up of activities that assess Listening and Speaking, Reading, Writing, and Language Structures and Conventions, and should take place over a period of days. Language Structures and Conventions should be assessed in context.

- Formal assessment tasks must assess a range of aspects of the language skills so that key aspects will be assessed over the course of the term and the year. Ensure that these aspects have been informally assessed and feedback given to the learner before they are formally assessed.

- All assessment in the Intermediate Phase is internal.

The forms of assessment used should be age and developmental level appropriate. The design of these tasks should cover the content of the subject and include a variety of tasks designed to achieve the objectives of the subject.

Formal assessment tasks

Each formal assessment task should cover the following aspects and have the following weighting. It should be based on the knowledge and skills done during that term. The examples given below are merely to illustrate the kind of activity that should be set. Use the term plans for each grade to select the kind of activities and the set of skills required for each part of the formal assessment task.

Requirements for the compilation of a task are given in percentages. Where thirty percent for a language skill is indicated, it means that the final allocation of marks for that language skill should be thirty percent of the total and not thirty marks. Schools are not limited to a number of marks allocated to a language skill as long as the weighting for each language skill is observed for each task according to the percentage allocated. In grade four for example, a language knowledge test may be set for ten marks or more, as long as the final weighting does not exceed the weighting indicated.

In Writing parts of the planning process or the whole process should be assessed at least once per term. The lengths of texts for writing as indicated in Section 3.4 should be strictly adhered to.

Composition of a formal assessment task (FAT)		Grade 4	Grade 5	Grade 6
Listening and Speaking		**40 %**	**40 %**	**40 %**

4.4 PROGRAMME OF ASSESSMENT

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term. A programme for assessment must be drawn up by the school indicating the dates on which tasks will be done.

4.4.1 Overview of requirements

The following table provides an overview of the Programme of Assessment requirements for each term for Second Additional Languages:

Table 4.1: Grades 4 - 6

	Term 1	Term 2		Term 3	Term 4	
Grade 4	FAT 1	FAT 2	FAT 3 / Mid-year examination	FAT 4	FAT 5	End-of-year examination
Grade 5	FAT 1	FAT 2	FAT 3 / Mid-year examination	FAT 4	FAT 5	End-of-year examination
Grade 6	FAT 1	FAT 2	FAT 3 / Mid-year examination	FAT 4	FAT 5	End-of-year examination
Composition of final mark	Continuous assessment 75%				End-of-year examination 25%	

4.4.2 Examinations

Content for the end-of-year examination should be drawn from the work done for the year and should be a selection of skills and activities that will enable the learner to show that he/she is ready to engage with the work in the next year.

The examination will consist of the following:

• Reading comprehension, including vocabulary work

• Writing of a short creative text, including appropriate and correct usage of format, grammar, punctuation and spelling

• Writing of a short transactional text, including appropriate and correct usage of format, grammar, punctuation and spelling

• Knowledge and understanding of grammar, punctuation and spelling

• Listening and Speaking skills will not be assessed as part of the examination as these are best assessed over a longer period of time.

The weighting of marks for the examination is as follows:

	Grade 4	Grade 5	Grade 6
Reading Comprehension	60%	60%	50%
Writing	25%	25%	35%
Language Structures and Conventions	15%	15%	15%
Total percentage	100%	100%	100%

4.5   RECORDING AND REPORTING

Recording is a process in which the teacher documents the level of a learner's performance in a specific assessment task. It indicates learner progress towards the achievement of the knowledge as prescribed in the Curriculum and Assessment Policy Statements. Records of learner performance should provide evidence of the learner's conceptual progression within a grade and her / his readiness to progress or being promoted to the next grade. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

Reporting is a process of communicating learner performance to learners, parents, schools, and other stakeholders. Learner performance can be reported in a number of ways. These include report cards, parents' meetings, school visitation days, parent-teacher conferences, phone calls, letters, class or school newsletters, etc. Teachers in all grades report in percentages against the subject. Seven levels of competence have been described for each subject listed for Grades R - 12. The various achievement levels and their corresponding percentage bands are as shown in the Table below.

CODES AND PERCENTAGES FOR RECORDING AND REPORTING

RATING CODE	DESCRIPTION OF COMPETENCE	PERCENTAGE
7	Outstanding achievement	80 - 100
6	Meritorious achievement	70 - 79
5	Substantial achievement	60 - 69
4	Adequate achievement	50 - 59
3	Moderate achievement	40 - 49
2	Elementary achievement	30 - 39
1	Not achieved	0 - 29

Teachers will record actual marks against the task by using a record sheet; and report percentages against the subject on the learners' report cards.

4.6   MODERATION OF ASSESSMENT

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

Moderators at school level must give quality comments to ensure that the assessment practice at school is enhanced. Moderation cannot simply be a monitoring exercise to check that the correct number of tasks has been done or that a memorandum has been applied correctly. In Languages it means that the moderator will give good comment, among other things, on the levels of questioning in comprehension testing; the frequency of extended writing; the quality of assessment instruments and the developmental opportunities afforded, and the teacher's engagement with learner workbooks and evidence of learner performance.

The moderation process must also ensure that the ratings given are consistent across all classes in the grade, and all grades in the phase. For example, a rating of 3 given by one teacher should represent the same level of skill and knowledge as the same rating given by another teacher. It is therefore important for Subject Heads to do internal moderation regularly.
