- (2) The school electoral officer must ensure that each educator at the public school receives a copy of the notice of the nomination and election in terms of Template 10, attached to this Notice, at least 14 days before the date of the election.
- (3) An educator may only be nominated and seconded by another educator employed at the public school as referred to in Template 6, attached to this Notice.
- (4) The completed nomination forms must be lodged with the school electoral officer not more than seven days and not less than 24 hours before the commencement of the election meeting.
- (5) Each nomination form must be properly completed and handed in to the school electoral officer within the time that the school electoral officer specifies in the notice.
- (6) If the total number of valid nominations is equal to the required number of educator members, those nominated are declared to be duly elected, and the school electoral officer must sign a declaration indicating that members were not elected by secret ballot, and that he or she allowed sufficient opportunity for further nominations.
- (7) The school electoral officer and the principal must use all reasonable means to ensure that the nomination process is successful at the first attempt.
- (8) If the nominations are more than the required number of educators, elections must be conducted by secret ballot, in terms of Template 7, using the same procedure as outlined.

Process for nomination and election meeting of non-educator members

19. (1) Where there is only one non-educator, that person is regarded as duly elected to the governing body;

- (2) In cases where there are two or more non-educators at a public school, a democratic election must be held to determine who must be elected to the governing body;
- (3) If there are two non-educators on the public school's staff establishment, the school electoral officer may, with the approval of the non-educators, draw lots as an alternative method to elect a non-educator member.
- (4) A person who performs support services at the public school falls within the non-educator category only if that person is employed at the public school by the provincial education department or by the governing body.

 - (4) The school electoral officer must take reasonable steps to resolve any dispute referred to in subparagraph (2) or (3). A decision of the school electoral officer during the nomination or election process is final for purposes of allowing the nomination or election process to

proceed but does not prevent a dispute from being referred to the district electoral officer in terms of this paragraph.

- (5) (a) If the school electoral officer is unable to resolve a dispute, the election must be completed, and the school electoral officer must, within seven days after the election day, refer the dispute to the district electoral officer.

representations made by the affected member, communicate the final decision, in writing, to the affected member and the governing body.

remains dissolved and provide reasons for such decision that are rationally linked to the following:

- (a) any established cessation by that governing body to perform all its functions in terms of the Act or any provincial law;
