SECTION 1 – IMPLEMENTATION TO DATE

1.1 The Limpopo Department of Education (LDoE) has taken great strides in the provisioning of school infrastructure in the province. Since 2011/12, more than R7 billion has been spent to create and maintain spaces conducive for learning and teaching. In line with the Regulation Relating to Minimum Uniform Norms and Standards for Public School Infrastructure (2013) focus has been placed on ensuring Health and Safety and basic services to all schools.

1.2 In summary the following has been provided since the 2011-12 financial year:

- 219 public ordinary schools provided with a water supply.
- 12 public ordinary schools provided with an electricity supply.
- 724 public ordinary schools provided with sanitation facilities.
- 2425 classrooms built in public ordinary schools.
- 20 new and replacement schools completed.
- 20 schools fenced.

1.3 See Table 1 below regarding the delivery of infrastructure by the LDoE.

Table 1: Infrastructure Delivery

	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18	Total Achieved

- 1.4 Of the R7.1 billion that has been spent on the delivery of infrastructure by LDoE, R6.3 billion was through the Education Infrastructure Grant (EIG) provided by National Government, and R0.7 billion through the Equitable Share of the Limpopo Province:

SECTION 2 – ABILITY TO MEET THE NORMS AND STANDARDS

The Regulations Relating to Minimum Norms and Standards for Public School Infrastructure as published in the Government Gazette (No 37081) on 29 November 2013 provide standards that need to be achieved for school infrastructure. The Regulations required that the Department comply within the 3 year period ending on 29 November 2016 to the following:

- All schools to have access to water supply,
- All schools have access to sanitation,
- All schools have access to electricity,
- All schools built with inappropriate material be eliminated or replaced.

To fully establish the situation in the Province the CSIR was engaged to undertake a condition assessment of all the schools in the Province. 4480 Facilities have been visited by CSIR and reports compiled. The outcome of the report indicated a serious backlog of infrastructure maintenance and shortage of facilities in terms of the norms.

With respect to the Norms and Standards Regulations the following was identified:

Table 3: Norms and Standards Non-compliant Projects

Item	Number of Schools without services	Corrective action taken
Access to water supply	15	Projects identified and in the process of implementation based on the availability of budgets
Access to sanitation	0	Projects with services available, albeit substandard have been identified and in the process of implementation based on the available budget
Access to electricity	6	Projects identified and in the process of implementation based on the available budgets.
Schools built with inappropriate material	801	The CSIR conditional assessment has identified more schools built with inappropriate material. Eradication process will be implemented based on budget availability.

Number of schools with Pit latrines only	765	Currently being address during Water and Sanitation programme within the available budget and in the Storm Damaged Schools programme based on the budget availability.
--	-----	--

It must be noted that due to the drought a number of existing boreholes have dried up and the schools have indicated that they also do not currently have access to water.

It is also important to note that although the schools have access to Water and Sanitation the situation is not always ideal and the school is not fully provided with the number of toilets as per the norm.

The condition assessment also indicated information regarding the number of pit latrines at the schools and the shortage of classrooms in line with the number of learners.

Currently the Department allocates about 20% of the budget to addressing Water and Sanitation issues. In the event that the Department utilises the full Infrastructure budget to address the Water and Sanitation issues then it will take at least 3 years with no additional expenditure to any other infrastructure related projects. In the event that the Department continued allocating about 20% of the Infrastructure budget to address the Water and Sanitation issues then it would take at least 10 – 12 years to complete the projects identified. This calculation does not take into account the classrooms that need to be constructed or the maintenance that needs to occur at the 3894 schools in the Province.

To ensure that the infrastructure backlog is addressed the infrastructure backlog with the relevant costing has been brought to the attention of Department of Basic Education as well as Provincial Treasury in an attempt to source additional funding.

In the interim the schools with the highest needs will be addressed and planning will be done in line with the district priority and the CSIR priority indicator that incorporates the enrolment, toilet gap, classroom gap and the maintenance required in the calculation of the indicator.

The Department will also channel any additional funding into addressing the Water and Sanitation Programme.
