FOREWORD

The Grade 12 Class of 2022 is extraordinary - a description reserved for only the remarkable!

Since the pandemic began in 2020, the well-being of young people enduring unprecedented challenges was one of the major concerns of the Department of Basic Education (DBE). The year 2020, when the Class of 2022 faced great uncertainty in their Grade 10 year, is most certainly not a year on which we will look back with undiluted pleasure. Yet the Class of 2022 forged ahead, and despite the myriad of challenges, these champions sat for the November 2022 National Senior Certificate (NSC) Examinations and have produced results that attest to resilience and fortitude.

As we reflect, we recall the words of former President Nelson Mandela who reminded us that 'everyone can rise above their circumstances and achieve success if they are dedicated to and passionate about what they do.'. The Class of 2022 mustered the courage and they have proven to the South African nation that success can be a reality amidst great adversity.

The National Senior Certificate remains one of the most important barometers of the health of the South African education system. The Department is in the process of entrenching other more holistic indicators of success across the various components of the system and one of them is the model for Systemic Evaluation which will provide a more in-depth and comprehensive report on the performance of the system. However, all indications prior to COVID, confirmed that we are a system on the rise. COVID has been a setback but the Class of 2022 has affirmed that we are clawing back the gains of the pre-COVID years.

The Class of 2022 were the beneficiaries of significant learner support programmes implemented to ensure that quality education is offered to all our learners. The Grade 12 class of 2022 benefited from differentiated targeted learner support programmes; such as extra tuition over weekends, vacation classes, the provision of additional learning and teaching support material (LTSM), revision guides, school based assessment exemplars, broadcast lessons, online and radio lessons, content and pedagogy workshops for teachers.

The Learning Recovery Plan of the Department of Basic Education which resulted in a trimming of the curriculum and a revision of the assessment programme for all grades, has allowed the system to focus on core content and skills and explore other more relevant forms of assessment. At the centre of the Learning Recovery Plan was an assessment of the learning deficits and the development of learning programmes to address these deficits. The system has also over the years established a strong data driven focus of monitoring and feedback and hence there is a continuous identification of gaps and weakness in the system and the implementation of initiatives to address these gaps.

The DBE is committed to a comprehensive curriculum strengthening process that will take into cognisance learners' competencies that they need to thrive socially and economically in a fast-changing world. Efforts are afoot to infuse a skills-based focus into the existing curriculum. In 2022, Marine Sciences was offered for the second time as an examinable subject in the Grade 12 NSC examinations. Various technical vocational specialisations, including Civil Technology, Electrical Technology, Mechanical Technology, Technical Mathematics and Technical Sciences were offered for the fifth year since their introduction in 2018. The grand idea is to make schools not only sites of academic achievement but also sites of development of vocational and occupational skills.

As a Department we will work without ceasing to support learners who do not obtain their NSC certificate the first time around. All provinces and districts will encourage these learners to enroll for the Second Chance Matric Programme. We are making the attainment of the National Senior Certificate, with its vocational specialisations a national endeavour. No matter the failure or the poor performance, there is as second chance, as expressed in Sesotho, 'Leboela le a ja' – perseverance pays.

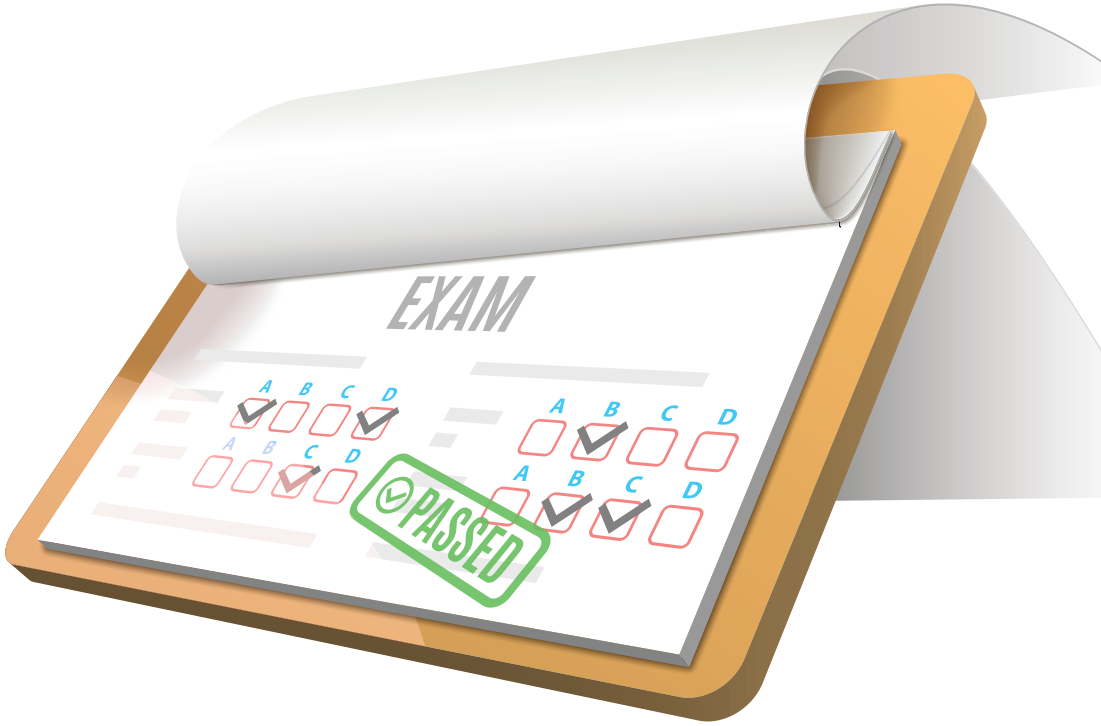

The Executive Committee (EXCO) of Umalusi Council concluded that the 2022 NSC examinations were administered largely in accordance with the Regulations Pertaining to the Conduct, Administration and Management of the National Senior Certificate Examinations. In view of this, the Quality Assurance Council, Umalusi, approved the release of the results for the October/November 2022 Examinations. This approval was preceded by a holistic and comprehensive verification of all examination-related processes. Umalusi further confirmed that the irregularities identified during the writing and marking of the examinations were not systemic and therefore did not compromise the overall credibility and integrity of

the October/November 2022 Examinations administered by the DBE.

The nation owes its gratitude to parents, teachers, principals, teacher unions, communities, district and provincial officials, and social partners for their commitments to supporting the Class of 2022. The work we do in basic education has a multiplier effect. A country's economy becomes more productive as the proportion of educated individuals increases.

I am confident that by working together yet again, we can support the Class of 2023 in the manner that we supported their predecessors.

MRS AM MOTSHEKGA, MP
MINISTER OF BASIC EDUCATION

1. Introduction

This edition of the Schools Subject Report comprises the 2022 NSC subject results for all schools in every province. These results are consolidated into a single reference document that allows all stakeholders to review, monitor and track subject performance of the schools in their respective local communities. This report provides historical data on the performance of the 11 gateway subjects.

In order to enable a comparative analysis, subject performance data for both 2021 and 2022 are provided. This report is a useful resource that can inform the design and implementation of appropriate interventions at school, district and provincial levels.

This report should be read in conjunction with the following complementary reports on the 2022 National Senior Certificate examination published by the Department of Basic Education:

a) The 2022 National Senior Certificate Examination Report;

b) National Schools Report that presents the overall school results over three years; and

c) National Diagnostic Reports which provides an analysis learner performance in the 11 Gateway Subjects, the 11 Home Languages and Technical subjects; which identifies areas of poor performance, and recommends appropriate remedial measures in each of the subjects.

Together these four reports aim to provide a comprehensive overview of learner, school and subject performance on the 2022 NSC.

2. Scope Of The Schools Subject Report

The Schools Subject Report presents performance data in the following 11 gateway subjects: Accounting, Agricultural Sciences, Business Studies, Economics, English First Additional Language (FAL), Geography, History, Life Sciences, Mathematical Literacy, Mathematics and Physical Sciences.

Candidates' performance in these gateway subjects, at a national level over the last two years, precedes the summary table of candidates' performance in these subjects in each education district. This detailed set of data is provided to every school to enable them to measure progress made and evaluate reasons for upward or downward performance trends in 2021 and 2022.

3. Utilisation Of The Schools Subject Report

This report should be used by school managers, subject advisors, curriculum specialists and district planners to analyse a subject's overall performance within a school, and at cluster, circuit or district level. This report helps education stakeholders to identify the specific subjects where performance is poor and to ensure appropriate interventions are introduced. Where subject performance shows an upward trend within a school, circuit, district or province, the stakeholders must use the opportunity to identify the factors that have contributed to improved performance in specific subjects and consider how these best practices can be shared with other teachers in the school where performance is low as well as with other schools in that are performing poorly. The data may also be used to track learner performance in 2022 to ensure that their learners improve poor performance or maintain high performance. Early identification of poor performance will enable all stakeholders to implement appropriate interventions early enough to ensure the necessary impact thereby maintaining high levels of performance or improving performance.

School communities also have the opportunity to identify teacher capacity building needs and invest in this. A review of current equipment and curriculum resources needs is also necessary to ensure that the school is adequately resourced to harness the collective efforts and potential of teachers and learners so that they are motivated to improve upon their 2022 performance in selected subjects.

4. Summary Of Candidates Performance In Gateway Subjects
