QUESTION 752.

Response

The Department of Basic Education (DBE) has been monitoring infrastructure projects to ensure the timely delivery of public school facilities, including sanitation facilities. However, delays have been encountered in respect of certain public schools in the Eastern Cape and KwaZulu-Natal due to underperforming service providers, which have led to contract terminations in certain cases.

The attached list shows the schools that are affected by the termination of non-performing contractors.

Some of the projects at these schools have already reached Practical Completion and facilities are in use but work still needs to be done to take these projects to Final Completion and have these projects closed out.

The Department is working with its implementing agents toward the deadline of 31 March 2025 and will provide an update on what has been achieved through the Sanitation Appropriate For Education (SAFE) initiative after this date.
